FIRE DESTROYED BIG TANNERY IN WOBURN

Am. Hide & Leather Co. Plant at Woburn Wrecked by Fire—Nearby Factories Threatened—Loss \$100,000

WOBURN, Jan. 30.—Fire today destroyed the tannery of the American Hide & Leather Co. on Fowle street, causing a loss of \$100,000. Several nearby leather factories and a number of dwellings were damaged. Ten families were forced to leave their homes hurriedly but no one was injured. The tannery, a four story brick building, was one of the largest factories in the leather manufacturing district and employed a large number of hands.

POLICEMAN IS ACQUITTED

Officer Miller Who Shot and Killed Ralph P. Shea in Boston Freed by Jury Today

BOSTON, Jan. 30.—Patrolman Chas. Miller, who shot Ralph P. Shea, while attempting to arrest him, on June 17, 1913, was acquitted of manslaughter today.

Officer had every right to kill an assailant.

MATRIMONIAL

Mr. Ernest Hall of Fitchburg, and Miss Nettie A. Byam of South Chelmsford were united in marriage Wednesday afternoon at the home of the bride's parents, Mr. and Mrs. Frank Colby Byam, Maple avenue, Chelmsford. The bride was gown in white crepe interior with shadow lace and pearl trimmings and carried a bouquet of lilacs of the valley. The minister of honor, Mrs. Ray Spaulding Byam, wore blue silk, trimmed with beaded chiffon and carried carnations. Lyman A. Byam was the best man. The ceremony was performed by Rev. J. E. Dinsmore, assistant pastor of the First Baptist church of this city. After a brief wedding tour Mr. and Mrs. Hall will live in Fitchburg.

BOOTH MILLS DIVIDEND PASSED
BOSTON, Jan. 30.—The Booth mills, manufacturing textile goods at Lowell, has passed its semi-annual dividend of 2 per cent. due now. In 1913 two semi-annual payments of 2 per cent. were made. From Feb. 1, 1914, when 2 1/2 per cent. was paid, up to February of last year dividends were omitted. It is stated that for the year 1913, more than 8 per cent. was earned on the stock, or twice the amount paid in dividends, but that the directors deem it wise to conserve quick assets for the present, in view of the uncertain outlook in the textile business, owing to the operation of the new tariff. This is the third Massachusetts mill to pass its dividend in as many days, the other two being the Chicopee Manufacturing company and the Hamilton Woolen company. Late in December the Arlington also passed the 2 per cent. due Jan. 1. This company reduced its annual rate last year from 3 to 2 per cent.

FUNERAL NOTICES

KEITH—The funeral of Albert Edward Keith will take place Saturday afternoon at 2:30 o'clock from the home of his parents, 261 Third street. Interment will be in St. Patrick's cemetery in charge of Funeral Director James W. McKenna.

MAGUIRE—The funeral of John P. Maguire will take place Saturday morning from the chapel of J. F. O'Donnell & Sons. A high mass of requiem will be sung at St. Patrick's church at 9 o'clock. Burial in St. Patrick's cemetery in charge of J. F. O'Donnell & Sons.

LINER MONROE SUNK BY BOSTON STEAMER

Old Dominion Liner Monroe Sunk Off Virginia Coast by the Merchants & Miners Liner Nantucket—23 Passengers and 24 of Crew Were Drowned—86 Were Rescued

NORFOLK, Va., Jan. 30.—Forty-seven lives were lost in the icy waters of the Atlantic at two o'clock this morning when the Old Dominion liner Monroe was rammed amidships, practically cut in two and sank within ten minutes 25 miles southeast of Hog Island by the Merchants & Miners Liner Nantucket.

The forty-seven lost comprised 22 passengers and 24 members of the crew, according to official wireless reports to the Old Dominion line here. Thirty-one passengers and 55 of the crew were saved, making the list of rescued 86.

Captain Johnson of the sunken Monroe, and all his officers but one were among the saved. The lost officer was the second engineer, named Gately.

Eighty-six survivors picked from the sea and huddled on the Nantucket which was limping along with a crumpled bow toward Norfolk today are the only ones who can tell the story of how the two ships, picking their way through a blanket of fog, one bound north, the other bound south, met with a crash near the Winter Quarter shoal lightship.

S. O. S. calls reaching out to the coast stations started every available agency of rescue into action but not soon enough. While the Nantucket backed off, lowered boats and began sweeping the misty sea with her searchlights, the Monroe sank like a plummet. In the swirling vortex of sinking men and women screamed with terror and despair. The Monroe went down so suddenly that there was little time for launching boats and it is believed that the only ones saved were those picked up at once by the Nantucket.

LINERS IN HEAD-ON COLLISION OFF VIRGINIA COAST—MONROE SUNK BY NANTUCKET

NORFOLK, Va., Jan. 30.—Forty lives were lost when the Old Dominion liner Monroe was sunk off Winter Quarter lightship just before 2 o'clock this morning by the Merchants & Miners Liner Nantucket.

The Nantucket, with her bow crumpled and otherwise damaged, was slowly "groping her way" to Norfolk early today with about 85 survivors. As the Monroe carried a passenger list of 51 and a crew of 70, the loss of life from the disaster was estimated at about 80.

There is a possibility, however, that the Old Dominion liner Hamilton, bound down from New York and which

TO CENSOR PLAYS IN POLICE COURT HORSE STOLEN

Catholic Theatre Movement Will Start in New York on Feb. 2

NEW YORK, Jan. 30.—Hereafter there will be a censorship, according to the standards of the Roman Catholic church, of every play on the New York stage and after Feb. 2 when the Catholic theatre movement will be launched no member of the church in good standing may see any play not on the "white list." There will be no black list.

Cardinal Farley has written a letter endorsing the movement. It is expected that bishops throughout the country will enlarge on the work begun by Cardinal Farley.

A commission named by the cardinal at a meeting a year ago when he told his views of modern drama particularly criticizing problem plays has since been at work and will report on Monday.

Tonight, Manhattan dance, Asso.

DANCING PARTY

Elite Girls Conducted Enjoyable Affair in North Chelmsford Town Hall Last Evening

An informal dancing party was held last night in the town hall, North Chelmsford, by the Elite Girls, a club of popular young ladies of the village, who proved themselves good managers of social events. The hall was prettily decorated with green and pink trimmings, while the stage was banked with potted plants and flowers. On the right of the hall was a "cozy corner" in which the patronesses of the evening received their many guests. Promptly at 8 o'clock a concert was started by the Crescent orchestra, and dancing continued until 10:30, with an intermission of fifteen minutes for refreshments which were served in the lower hall. After intermission, dancing was resumed and continued until midnight when a late car ride turned to Lowell. There was a large number present from Lowell, North Billerica and Grantville and they were repaid for their journey. The matrons for the evening were Mrs. Rosa McNally, Mrs. Mary McAdoo, Mrs. John Noble and Mrs. John J. Monahan. The success of the affair was due to Misses Eleanor McAdoo, Rose McAdoo, Ruth Welch, Regina McNally and Annie Curry.

Tonight, Manhattan singers, Asso.

Matthew J. Davis was again brought up this morning before Judge Enright. Supt. Welch announced to the court that the Revere police have no record against Davis and that the young man's story yesterday was substantiated by the facts. The family of the pretended inspector is in destitute circumstances, the Revere officer said. Davis was placed on probation, and left the court with tears welling from his eyes and protestations of a better life in the future upon his lips.

Although John Cassidy was in for non-support, his wife pleaded with the court this morning to give him another chance. The charge against Cassidy was non-support of his wife and family. He was released on a suspended sentence with six months at the house of correction ahead of him if he breaks out on another drinking bout.

Patrick Meade pleaded guilty to the charge of drunkenness and attempted to make a speech when his case was called. The officer who made the arrest said that a complaint had been made to him relative to the actions of the defendant in lower Belvidere. He was released after passing over \$6 to Clerk Trull.

Joseph Duprez was very drunk last night and landed at the police station. His wife took the Kennelby country morning and informed the court that the defendant drank so heavily that he neglected his nine children, as well as his wife. He was given a suspended sentence of three months in jail and this suspension will be revoked if Duprez starts in drinking again.

JUDGE HALL DEAD

AUGUSTA, Me., Jan. 30.—Oliver Gray Hall, judge of the Kennebec country superior court for 21 years until his retirement three years ago, died today after an illness of several weeks. He was born at South Thomaston in 1831.

NEW PRUSSIAN LOAN

BERLIN, Jan. 30.—The issue of the new Prussian loan, of approximately \$90,000,000 in the shape of treasury notes is said today to have been a success. It constitutes a new type of public security in Germany as it is redeemable by annual drawings covering a period of 16 years, but holders who do not wish to withdraw their money when their notes are drawn are to be allowed to convert them into four per cent. bonds.

This lottery feature of the new financial transaction was adopted by the government because of the failure of various public issues in 1913.

As the treasury notes are redeemable at par and subscribers pay only 95 for them, those whose notes are drawn for redemption within the next few years will receive a high rate of interest while the average return for the entire period of 16 years will be fully 4 1/2 per cent.

Hired From Mr. Humphrey and Found Tied to Post at New Bedford

A horse and buggy, owned by A. B. Humphrey of this city, was found tied to a post on the side of a road near Hodgeman's stable, Bedford, early this morning. The owner of the rig was notified and he immediately started for Bedford to bring it back to this city.

Shortly after 8 o'clock yesterday morning a young man about 5 feet and 10 inches in height appeared at the Humphrey stable on Middlesex street and asked to hire a light horse and top buggy for the forenoon. He was given a black horse, weighing about 1000 pounds and a wagon of the same style as he asked for and started on his journey. When the team was not returned last night Mr. Humphrey suspected that he had been tricked and notified the police that his horse and wagon had been stolen and they in turn sent out a description of the property to police headquarters in several of the nearby cities. Early this morning word was received that the team had been found in Bedford but the driver might be.

It is believed that the man wanted to use the horse for the day and did not care to pay the bill so rather than return to Lowell, left it standing on the roadside. According to information from Bedford the animal was in a very weak condition.

Y. W. C. A. NEWS

Yesterday was "open house day" at the Y. W. C. A. and during the afternoon and evening a large number of members of the association turned out. At 4:30 o'clock the junior classes gave the following program:

March, both classes; free exercises, children's class; folk dancing (Hungarian folk dance and "Ace of Diamonds"), girls' class; game children's class; free exercises, girls' class; race, children's class; apparatus, both classes; folk dances ("I See You" and "Carrousel"), girls' class; race, girls' class. From 5 to 6 o'clock the adult classes gave a gymnasium demonstration, the program being as follows: March, all classes; wand drill, intermediates; dance, "La Serella," advanced class; Indian clubs, high school class; dance, polka, beginners' apparatus, all classes; race, high school and beginners vs. intermediates; and, advanced; folk dances, intermediates; free exercises, advanced class; dance (a), Benita en price, (b), Irish lilt, high school class; dumb bells, beginners; basketball, high school vs. beginners.

WATERWAYS BOARD MAKES FINAL REPORT

Would Dredge Channel in River From Lowell to Dam at Lawrence—Power Plant for the Operation of Locks

The Merrimack valley waterways board has submitted its final report upon the development of the navigation of the Merrimack river. A part report was issued some time ago giving the approximate cost of the proposition and the final report, which is really the engineering report, goes into the matter in detail.

The engineers conclude that the river could be opened for navigation by providing a channel 18 feet deep at mean low water from the sea to Ward hill, about one mile above Haverhill, and by providing a depth of 18 feet by means of a channel and by building canals and locks from that point to Hunt's falls in Lowell. Assuming that the U. S. government will improve the river to the head of tide water at Ward hill, the board submits plans and estimates for a project that would mean the dredging of a channel in the river from a point near Lowell to the dam at Lawrence to give a depth of 18 feet below low water level of the pool formed by that dam; then a lock to pass vessels by the dam into another channel not less than 18 feet deep which would follow the river to a point just above Kimball's island where it would enter the proposed Ward hill canal, a direct cut off around Mitchell's falls to the channel which, it is assumed, the government will provide in the tidal section of the river.

Just below Kimball's island a movable dam would be constructed from a pool at the highest level possible without interfering with power developments at Lawrence, so as to reduce excavation.

It is proposed to make all river channels 100 feet wide and 18 feet deep and 15 feet are the same as recommended for the improved channel from Ward Hill to the sea. Both locks will be 350 feet usable length, 45 feet wide and 18 feet in depth.

The lock at Lawrence would have a normal lift of about 35 and would be located on the north shore. The gates would be of the mitering girder type, built of steel, the upper one about 41 feet high and the lower gate about 55 feet.

It is proposed at Lawrence to excavate a channel below the dam to compensate for restrictions caused by the lock and to further improve conditions by removing the Broadway bridge and substituting a double deck structure on the site of the B. & M. R. R. bridge to serve for highway and railroad. This scheme affords the advantage of only one draw over the lock and also eliminates a dangerous grade crossing.

The studies also included a power plant to develop power for lock operations and to light canal and river channels. It would also furnish power to pump back over the dam in Lawrence any amount of water used in the lockages.

The estimated cost from Ward Hill to Lowell is \$8,443,000, exclusive of land damages at Ward Hill, and of bridge charges in Lawrence. This distance is about 15.3 miles.

LOCAL NEWS

The 12th birthday anniversary of the birth of Mrs. Mary Choate was observed yesterday at the home of her daughter, Mrs. M. A. Avery, on Leroy street. Dinner was served at 1 o'clock and the afternoon was spent in an enjoyable manner. Among those present were: Mr. and Mrs. Otis Cutler of Wakefield, Miss Susie Taylor of Wakefield, Mrs. Martha Jaques of Billerica, Mr. and Mrs. David Cutler of Bedford, Mrs. Phoebe Fiske of Winton, N. H., Mrs. Sarah Fiske of Boston, Mr. and Mrs. A. H. Choate of Lowell, Miss Irene Choate of Lowell and Mr. and Mrs. M. A. Avery at whose home the reception was held.

When the members of the Swedish church assembled on London street Wednesday evening to enjoy a sleigh ride to West Chelmsford they learned that there was no snow for a sleigh and the country roads were too slippery for horses, so they journeyed on foot to the home of their president, in Puffer street, and spent the evening in playing games and singing.

Mr. and Mrs. George Quinn of 190 Perry street were agreeably surprised last night, when several of their friends called at their home and presented them a pretty gas lamp as a token of esteem. A fine entertainment program consisting of vocal and instrumental selections was rendered and a light luncheon was served. This was followed by dancing and all present spent a most enjoyable evening. Music for dancing was furnished by Miss Maria Hunt and Mr. James Hoarke.

SOCIAL AND WHIST

Attended by 400 People at St. Louis' Parochial School Hall Last Evening

Over 400 people attended the social and whist conducted at St. Louis' parochial hall last night by the Children of Mary sodality for the benefit of the church. Philippe Chaput acted as chairman of the evening and under his direction a varied musical program was carried out, those taking part being Miss Ida Mongrall, Philippe Chaput, Alice Dallaire and others. The winner of the contest for ticket selling was Miss Marie S. Maillet, who received a \$10 gold piece, while her close second was Miss Anna Fournier. Another contest was won by Miss Leonie Fleard with Miss Clara Breaud a close follower.

TWENTY YEARS MARRIED

MR. AND MRS. GLOSET WERE HONORED BY THEIR FRIENDS LAST EVENING

On the occasion of the 20th anniversary of their marriage Mr. and Mrs. Alice A. Gloset, well known residents of this city, were last night honored by their many friends who gathered at the couple's home, 14 Spaulding street to congratulate them on the happy event. There were over 50 guests present and among them was Rev. B. J. Conner, assistant pastor of St. Louis church, an old friend of the family.

Mr. and Mrs. Gloset were the recipients of numerous costly gifts among which were a 112-piece china dinner service and several handsome pieces of cut glass. The presentation speech was delivered by Maxine Leging, who later was appointed master of ceremonies. The presentation came wholly by surprise, but nevertheless Mr. Gloset responded in appropriate terms and assured his guests that the event would be long remembered by himself and family.

A dainty luncheon was served and an elaborate musical program was carried out, much to the delight of the large attendance. Rev. Fr. Conner complimented the happy couple on their long and happy union and extended his best wishes to the family. Among those who contributed "musical" selections were Louis N. Gullbaud, Arthur and Albert Gloset, Leonce Gloset, Edward F. Gregoire, Miss Stella Lepine, Miss Marie Jeanne Morissette, Mrs. Anne Gloset, Alexandre Dubois, E. J. Leschelle, Blanche and Merile Morsicette, Pierre Leblanc and Arthur Goss.

Mr. and Mrs. Gloset were united in marriage on Jan. 29, 1894, the ceremony being performed at the Catholic

church of Bathurst, New Brunswick. Eleven children were born to them, ten of whom are living, namely: Evelyn, Aurere, Nelia, Eliza, Yvonne, Leonce, Arthur, Albert, Edmond and Armand. The family removed to this city seven years ago, where they have been living since Mr. Gloset is a popular agent for the Metropolitan Insurance Co. and the entire family are held in high esteem by their many friends.

AMUSEMENT NOTES

MEERBACH SQUARE THEATRE
Beginning Monday matinee at 2 o'clock there will be inaugurated at the Meerbach Square Theatre a new era in low priced amusement. It will mark the commencement of a policy which if merit and cheapness in price count for anything has never been equaled in this city. There will be eight big vaudeville acts shown and there will be seen in conjunction with photographs far above the ordinary kind. A complete new show will be given twice a week. The Exposition Four, monarchs of mirth and melody, will headline a bill of the best vaudeville acts that can be seen. A double feature photo-play also shown along with several other meritorious motion picture subjects. The prices will be ten cents matinee and night, with reserved seats five cents extra. There will be the usual Sunday concerts, and for the coming Sunday the management has arranged for an unusually attractive program. The last performance of the stock company are being given and tomorrow "Goodby" night.

THE OPERA HOUSE
Nell O'Brien and his great American Minstrels, now on their second annual tour and again under the able direction of Oscar F. Hodge, will be the attraction at the Opera House today for two performances, there being a special bargain matinee.

Nell O'Brien, for many years one of America's best known minstrel comedians, achieved remarkable success last season as a star and producer and succeeded admirably in presenting what was considered by many the best

industrial show of a decade. This year Mr. O'Brien and his manager, Mr. Hodge, announced an organization and production which is proclaimed as being even superior to their last effort. Everything from start to finish is brand new and only those members of last year's company who proved exceptionally worthy have been retained. All the feature acts of the show are new and include two new comedy one-act sketches by Mr. O'Brien, which are said to be in the author's best vein of humor. One is called "Parade Post," in which Mr. O'Brien appears in the leading character. The other is entitled "Who's Boss? or Taming the Militant," and will have Eddie Mazier and Edith Major Nowak for its principal funnakers. There is also a new song and dance number conceived and staged by Pete Dattel, which he calls "The Ebony University or Class Day on the Campus." Like last year's dancing and with this show, this is also a topical comedy novelty, which in exact and original dancing tells its story as plainly as though words were used.

In addition to the favorites of last year's organization, Eddie Mazier, Pete Dattel, Major Nowak and Geo. Faust, who will assist Mr. O'Brien in holding up the comedy end of the program, a valuable addition has been made in Eddie Ross, a monologist, who has been getting London applause for the past year with his originality and cleverness, scoring in the British metropolis one of the biggest hits ever made by any American performer to visit that country. The vocal contingent includes many well known singers, prominent among whom are James Baranoff, tenor; Ward Barton, the yodeler; Al. Fontaine, bass; Leslie Barry, baritone; Walter Lindsay, tenor; and George Hagen, the juvenile contra-bass who scored such a sensational last season with his remarkable vocal powers.

HART KEITH'S THEATRE
A most pleasing combination of acts is presented at the B. F. Keith theatre this week, and the theatregoers will be given but four more chances to see it. The greatest of all Lilliputian

Little Billy, is the specially engaged star of the program. He is as talented as a normally tall person, and his dancing is a source of real delight. Many children have been to see this very interesting little person during the week. Ward & Curran, in "The Terrible Judge" have an offering which has made many thousands laugh, and it is a comedy of real delight. Many children have been to see this very interesting little person during the week. Ward & Curran, in "The Terrible Judge" have an offering which has made many thousands laugh, and it is a comedy of real delight. Many children have been to see this very interesting little person during the week. Ward & Curran, in "The Terrible Judge" have an offering which has made many thousands laugh, and it is a comedy of real delight.

WON'T LOSE SCHAEFER
Manager Clark Griffith isn't taking any wild chances on Comedian "Germany" Schaefer getting lost with the vaudeville stars of an oriental kingdom. Accordingly, Schaefer will receive his 1914 contract with the world's tourists land at Colombo, late this month. The Washington club realizes the tremendous attraction of "Germany" and takes this cable precaution to assure his services the present season.

A GRAVE STAGGER AT AT
Little question for today: What is the meaning of "Lepidodactylus"? Lepidodactylus is a genus of extinct lizards, the fossil remains of which have been found in the Carboniferous period. The word "Lepidodactylus" is derived from the Greek "lepis" meaning scale and "dactylus" meaning finger. The fossil remains of these lizards are found in the form of small, scale-like structures, which are often found in the same strata as the fossil remains of other extinct animals.

FR. LYNCH TRANSFERRED

FORMER CURATE AT ST. MARGARET'S SENT TO BROCKTON—TWO NEW PASTORS APPOINTED

Two pastors of the diocese have been transferred from the parishes over which they have had charge for several years, and two of the senior curates of the diocese have been advanced to pastorates by His Eminence Cardinal O'Connell.

Six curates in different parts of the diocese, one of whom was formerly stationed in Lowell, have been changed about, due to the transfer and appointments of pastors. The changes will take effect beginning with next week and the changes will be officially recorded in the Pilot, the official organ of the diocese, this week.

The appointments and transfers are as follows:

Pastors Transferred
Rev. Fr. Francis X. Dolan, D. D., from St. John's church, Hopkinton, to the pastorate of St. Gregory's church, Dorchester Lower Mills.
Rev. Fr. Francis W. Malyer from St. John's church, East Bridgewater, to the pastorate of St. John's church, East Bridgewater.

Curates Appointed Pastors
Rev. Fr. William E. Keating of St. Patrick's church, Brockton, advanced to the pastorate of St. John's church, Hopkinton.
Rev. Fr. Francis S. Hart of St. John's church, Canton, advanced to the pastorate of St. John's church, East Bridgewater.

Curates Transferred
Rev. Fr. James F. Lynch of St. Mary's church, Ayer, transferred to St. Patrick's church, Brockton.
Rev. Fr. Patrick A. Sharkey of St.

Ann's church, Gloucester, transferred to St. Mary's church, Ayer.
Rev. Fr. Daniel S. Sherrin of the Church of the Most Holy Redeemer, East Boston, transferred to St. John's church, Hopkinton.
Rev. Fr. Francis H. Houston of St. John's church, Hopkinton, transferred to St. Ann's church, Gloucester.
Rev. Edward J. Carey of St. Patrick's church, Stoughton, transferred to St. Michael's church, North Andover.
Rev. Fr. Joseph C. Burns of St. Michael's church, North Andover, transferred to the church of the Most Holy Redeemer, East Boston.
Rev. Fr. Malyer, who has been transferred from a pastorate in East Bridgewater to the pastorate of the church in Danvers formerly held by the late Rev. Fr. Sullivan, is well known here. He will be remembered by the parishioners of St. Margaret's church as the clergyman who delivered the eloquent eulogy at the funeral of Rev. Fr. Harkins, first pastor of the Highlands parish. Rev. Fr. Lynch who has been transferred from Ayer to St. Patrick's church in Brockton is well known and favorably known among the parishioners of St. Margaret's having been stationed there for about a year during the absence of Rev. Henry C. Reardon in Europe. Since going to the membership of the church societies, particular attention being paid to the Holy Name society and his departure from that place will be regretted by all. Rev. Fr. Dolan, who has been appointed pastor of St. Gregory's church, Dorchester is well known among the clergy of Lowell. For a time, while stationed at the cathedral in Boston he acted as secretary to Cardinal O'Connell while the latter was co-adjutor in the archbishopric. He is widely known as a speaker of much ability and as an organizer.

NOT SOCIETY'S FAULT
Gibbs—How did that rich boy manage to get introduced into society?
Hibbs—He wasn't introduced; he was injected.—Judge.

THE MEISTERSINGERS HEARD
In Fine Concert at the First Universalist Church Before Large Audience Last Night

The Meistersingers, one of the country's foremost organizations of male vocalists, gave a delightful recital of songs at the First Universalist church last night before a large and very appreciative audience. The concert program was one of exceptional merit and each number consisting of some of the best compositions was rendered in such a way that encores were often demanded. The members of the Meistersingers are as follows:

First tenors, Jewell Boyd, Harold S. Trapp, Allan C. Prescott; second tenors, Arthur P. Cole, Charles W. Swaine, Lester Bartlett; baritone, Wirt J. Phillips; George H. Woods, William W. Walker; basses, Wilbur E. Davison, A. Cameron Steele and John L. Thomas. The ushers were: George Runkle, George Robertson, Harry Woodman, Alvan Weaver, Stewart Redman, Harry Malno and William Saunders.

LAND OF PROMISE
"Do not today what can be put off till tomorrow" is the first commandment in the unwritten constitution of the Mexicans. Beware of the Mexican who engages to do something for you "tomorrow." For "tomorrow" merely means some time in the future. Because of this peculiar point of view Mexico has been humorously dubbed "The Land of Tomorrow." It is the land of procrastination; the land of "tomorrow." For "tomorrow" means in the morning; may be today at 11 or 12, or perhaps not until afternoon. The Mexicans never cease wondering at the remarkable energy and promptitude of Americans. When it is intended to keep an appointment promptly, the words "a la inglesa" are added to signify that the appointment is to be kept after the English or American fashion.—Christian Herald.

AYER CITY INDUSTRIES

Shaw Stocking Co., Comb Co.,
Insulated Wire and Phonograph
Needle Factories Busy

A Sun reporter while in "Ayer City" visited a few of the thriving industries giving the result of his observations in the following story which shows that some of the smaller industries are growing rapidly. The Shaw Stocking company, of course, is not in this class:

SHAW STOCKING COMPANY
Incorporated in 1877 by Benj. F. Shaw, with a capital of \$30,000, this flourishing manufacturing has greatly exceeded the original investment, and has developed a world wide business and a world wide fame. Starting in hired rooms on Broadway, business increased so rapidly that in 1879 new buildings were erected at the corner of Smith and Chelmsford streets, the present location. The wisdom of this venture was at once apparent, as the increased demand and subsequent production of Shaw's goods testify. Where nine looms originally were used this company now boasts 700 knitting machines and 12,432 spindles (cotton machinery). In addition to these the company has its own electric power, does its own dyeing and bleaching and sells direct to retailers.

agreement in establishing these necessities is due the success of the enterprise. Originally manufacturing seamless stockings, this concern now produces the famous "Shaw's" hosiery for men, women and children, carded and combed cotton yarns, paper boxes and has recently added a department for printing. The plant at present occupies about 11 acres of land with four large mills. While the bulk of the products is used in this country, exporting is carried on to a very considerable extent.

The hosiery stocks are quoted in New York city and San Francisco, which fact in itself is an excellent advertisement for the Spindle City. The president of this company is Frank J. Dutcher; treasurer, William E. Hall. The board of directors consists of Frank J. Dutcher, Anna Pratt, S. Motley, Josiah Butler, Frank E. Dunbar, Edward W. Thomas and Wm. E. Hall.

WEB MANUFACTURERS

The firm of T. Martin & Bro. with home offices at Chelsea, Mass., manufactures elastic and non-elastic webbing. Originally intended as a branch of the main company, this concern, while still affiliated with the home office, has taken such strides as to

Kondon Mfg. Co., Minneapolis, Minn.

exceed the fondest hopes of the owners, so that at the present time shipments are made direct to all parts of the world.

In the two buildings at present occupied on Cambridge street, 70 looms are constantly in use. The floor space of these buildings is between five and six acres. About five acres of additional land is available for further development which may come about in the near future.

The manager, Mr. E. F. Maker, is loud in his praise of Lowell as an industrial center. He has been a keen observer of the city's growth in this respect, and feels that if the Merrimack river is made navigable, as at present contemplated, Lowell will have reached a stage at which she can maintain her industrial supremacy in a great many lines of manufacture.

THE IDEAL COMB COMPANY

One of Lowell's leading enterprises is the Ideal Comb company situated on Lincoln street. This concern besides manufacturing combs of all kinds, also engaged in the production of celluloid novelties.

Though originally not organized in Lowell, the management, realizing the opportunities afforded by this city, transferred the entire plant to the present location, and in a comparatively short time has built up a business which will soon compel further additions to the factory. The building now occupied contains about 15,000 square feet of floor space. Whereas the first employees numbered about 15 men, producing goods for a limited radius, at the present time 100 are given steady employment, and shipments are made to all parts of the United States. A ready market is found for high grade goods, and in this regard, results have shown that the local product is second to none.

The manager of this growing manufacturing is Hon. James B. Casey, former mayor of this city. Much of the success of the company has been due to the associations and firm friendships formed by Mr. Casey while acting as Lowell's chief executive.

The Lowell Insulated Wire Company

This useful industry situated on Lincoln street was established in 1902, on the present site and by the present owner and manager, Mr. R. Dunsford. The principal production of this company is insulated wire, which finds a market in all parts of this country and in some sections of Europe. Through able management and solid business principles, the output has been increased over 200 per cent. in ten years and is still growing. The number of employees has taken a proportionate rise, until at the present

time about 100 men are regularly engaged.

The manager, Mr. Dunsford, has devoted much of his time to the technical end of the business, always with a view to new ideas. He feels that the field, especially as regards safety, is still very large and within this object in mind is ever on the alert for improvements. That he is highly pleased with Lowell as a manufacturing center is best shown in the fact that he is contemplating a newer and larger plant to meet the steadily increasing demand for this product.

Talking Machine Needles

With an ideal location on Wilson street, the W. H. Bagshaw company is engaged in the manufacturing of needle pointed wares for the preparation of textile fibres, and in talking machine needles. This company has the proud distinction of being the largest manufacturer in the world of this latter product. Besides being the original makers of the first needles ever used they have to their credit the world's record of producing these needles, having turned over 63,000,000 in 10 days.

Originally organized in 1870 by W. H. Bagshaw, the firm is still known as the W. H. Bagshaw company. With the under growth and improvements, and ever increasing demand for talking machines of all kinds, the company has more than kept pace with this industry. At the present time about 100 employees are steadily occupied in the spacious plant, covering over 25,000 square feet of floor space. Since the work is of a delicate nature it requires that the men employed be very expert in their various occupations.

This surprising company may well feel proud of the fame that its splendid record has given Lowell to the outside world, since by the very nature of the work it reflects great credit on the high intelligence of her citizens.

LOOKING FAR AHEAD

That the lawyer builds largely on the future was demonstrated the other night by a story told by Congressman Byron P. Harrison of Mississippi.

Some time ago, so related the congressman, a handsome young woman entered the office of a prominent lawyer, immediately the legal one rose to greet her.

"I am glad to tell you, Miss Smith," he pleasantly remarked, "that your breach of promise suit has been settled. The defendant has expressed a desire to compromise the case by marrying you."

"I am very glad to hear that," was the smiling response of Miss Smith. "It is much better than taking a chance on losing the verdict. You have managed the case very well. How much do I owe you?"

"Let me see," thoughtfully mused the lawyer. "Shall we make it \$100?"

"We shall not," was the emphatic rejoinder of the fair plaintiff. "It is entirely too much."

"Well, then, I will tell you what I will do, Miss Smith," responded the lawyer. "I will just cut that bill in half if you will promise to retain me as your counsel when you sue for a divorce." Philadelphia Public Ledger.

SHINE 'EM UP, BOYS

"Where can I find the chief of police?" asked the stranger in Slocumville. The native pointed. "That's him over there standing in the hotel shining that grocery drummer's shoes."—Judge.

FOR CHILDREN'S ECZEMA

Mary E. Bailey, a trained nurse of Brooklyn, N. Y., says: "Obstinate cases of children's eczema yield to Comfort Powder." The genuine bears the signature of E. S. Sykes on the box.

CONTEST COMING

Over Will of Late Timothy J. Murphy—Lowell Men Interested

The following appeared in a Fall River paper: It is likely that there will be a bitter contest over the will of the late Timothy J. Murphy of New Bedford, when that instrument comes up for probate next month.

Mr. Murphy's heirs-at-law, his widow, daughter and son, are allied in opposition to the will; while on the other side of the controversy are Geo. E. Mahoney of Lowell, who is named as executor of the will, and Edward E. Murphy, a nephew of the deceased, who has been conducting the undertaking business and ticket agency in which Timothy J. Murphy was engaged. Mr. Mahoney is a nephew of Miss Emma Peabody of New Bedford.

Francis Vera, Jr., is counsel for Mrs. Murphy in the case, and John B. Lowrey is acting for Daniel J. Donahue, a Lowell attorney who represents the executor.

Mrs. Isabelle T. Murphy, widow of the testator, separated from her husband nearly 20 years ago, when she secured separate maintenance on an order from the court. Charges that Edward E. Murphy is fraudulently concealing property of the deceased have been filed with the probate court by Mrs. Murphy and a citation has been served upon Mr. Murphy to appear in court Feb. 6, at a hearing to be given in the matter, to answer the charge made against him. Mr. Murphy died Dec. 11 and after waiting 30 days after his death, which is the time prescribed by law for wills to be filed with the probate court, his widow, through her attorney, applied to the probate court for appointment as administratrix of the estate and filed a bond of \$3000. Letters of administration were issued Jan. 16, giving her charge of the estate, and she went to the undertaking shop at 1070 Purchase street, and made a demand upon Edward E. Murphy for possession of the property of her husband.

Mrs. Murphy refused to surrender the property, claiming he had a bill of sale for the business given to him by Mr. Murphy in September, 1912. The next step taken by Mrs. Murphy under her authority as administratrix was on Jan. 23, when she filed charges with the probate court against Edward E. Murphy, alleging that he was concealing property of the deceased, and four days later notice was served on Murphy telling him to appear in court Feb. 6 and answer the charges.

Up to this time, according to Mrs. Murphy's attorney, there was no indication of any kind that Timothy J. Murphy had left a will, and since the time for filing of such a document had expired, she was proceeding on the assumption that there was no will and that the estate would go to the heirs-

at-law, the widow, the daughter, Isabelle T., and the son, William E., of the deceased.

A few days after Edward E. Murphy was cited to appear in court, however, a document purporting to be the last will and testament of Timothy J. Murphy was filed at Taunton.

By this document George E. Mahoney of Lowell is named as executor of the estate. When this will filed, Mrs. Murphy surrendered her letter of administration issued Jan. 16 and an appearance as a contestant of the will has been filed for her by Attorney Vera.

WAS FROZEN TO DEATH

Body of Lowell Man Found at the Railroad Bridge in Kennebunk, Me.

Joseph Tatarosouk, a former resident of this city was frozen to death in a brook near the Kennebunk bridge in Biddeford, Me. Wednesday. A rail-

road employee who happened along found the body and he immediately notified the coroner, who worked for some time with a pick and axe before he could remove the body from the ice. Tatarosouk was employed at the Laccenia division of the Pepperell Mill Co.

STATE FERTILIZER BULLETIN

The Massachusetts agricultural experiment station at Amherst has just issued its fertilizer bulletin, No. 117. It contains the analysis of all fertilizers and lime compounds sold in the state during the year. Interesting information is given regarding the economy of purchasing high-grade fertilizers, and there is a discussion of the plant food found in the mixed goods as well as in the unmixed materials. The bulletin also contains the results of a field experiment with ground-rock fertilizers.

Have Beautiful Hair

A Simple Way to Stimulate Its Growth and Remove Dandruff.

No hair can be beautiful and glossy without thorough brushing daily to excite the oil glands and remove dust. To keep your hair in best condition also apply to the scalp a small quantity of the excellent crude petroleum preparation, CRUDOL, odorless and stainless.

CRUDOL does not make the hair oily, and therefore, the hair does not have to be washed after its use. Leave it on, it penetrates right down to the roots of the hair.

CRUDOL will destroy dandruff, stop

falling hair, promotes its growth, stimulate the roots, prevent itching scalp, and make fine, luxuriant hair.

The secret of CRUDOL—it contains no alcohol like most hair tonics. Alcohol in time will turn the hair gray—and should never be used on the head. Feed the hair roots with CRUDOL.

Just try CRUDOL! —In TUBES only. Sold by drug and department stores everywhere; smaller size 25c.

CRUDOL NATURE'S HAIR TONIC

larger size 50c. If your druggist cannot supply you, send 25c or 50c and we will mail you a tube postpaid. Use CRUDOL ANTI-ITCHING SHAMPOO, a delightful scalp and hair cleanser. Not like other shampoos that leave the hair brittle after washing, but leaves it in a soft, fluffy, lustrous condition, due to the crude petroleum contained in it. Large tube 25c. THE MUSHROOM

Result of Experiments at Cornell—Hints for Beginners

Edible wild mushrooms may be found in abundance in pastures and woods throughout the growing season, but especially during the autumn months. Many people are deterred, however, from the use of this desirable edible because of a fear of accidentally gathering the poisonous kind.

The cultivated mushrooms are not as yet grown to any great extent in the United States. They may be had in limited quantities in some of the larger towns, but are usually scarce and expensive. Owing to the increased interest in mushrooms, G. F. Atkinson and R. S. H. Cornell, experiment station, made a study of methods of mushroom culture on a small scale. The main purpose of the work was to find out by actual trial what success might be expected by the beginner in growing mushrooms, where no special houses and no elaborate preparations for their culture were made.

Easy Way to Remove Objectionable Hairs

Progressive beauty specialists are rapidly adopting the new, painless method for removing superfluous hairs and the result is that the costly and painful electric needle treatment is fast being discarded. The treatment is inexpensive and very simple—just make a paste with a little of the powdered deodorant and water and apply to hairy surface. After 2 or 3 minutes rub off and it comes away trace of hair. Washing leaves the skin firm and spotless. No more, however, that you get the real deodorant.

winter. Beds can be prepared in the cellar or basement floor by using the wall for one side of the bed. A board or plank one foot to 1 1/2 inches in width can then be staked on edge three or four feet from the basement wall and held in position by the necessary upright scantlings and supported at intervals to hold the material in position. Other beds may be built about this, leaving a space of about two feet between them. The best soil for mushrooms is made of horse manure from stables. While some straw is desirable, any large percentage is objectionable and should be removed. The manure is cured by putting it under cover in piles three to four deep and of any length or width. The piles soon begin to ferment and heat, when they are turned once in two or three days. If the manure becomes too dry, sufficient water may be sprinkled on to make it moist but not wet. It usually requires 10 to 15 or 18 days to cure, but should not be put in the beds or boxes until the temperature has gone down to 100 degrees F.

A layer of the coarse, more strawy portion of the manure is first put on the bottom of the box and then thoroughly tramped or pounded down. Other layers are then put on and each packed down until the bed is 10 or 12 or 14 inches thick. For a few days after the bed is made the temperature is likely to increase, after which it will gradually cool off. When the temperature falls to 70 to 75 degrees, the mushroom spawn may be planted.

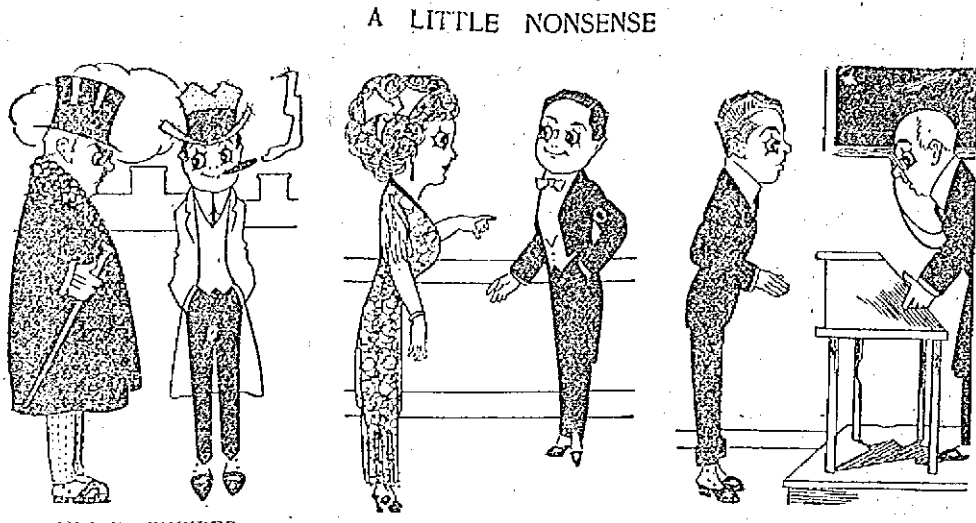

Cultivated mushroom spawn, used for planting the beds, may be obtained from nearly any seed man in the form of dried manure bricks. Before using it should be broken up into pieces about 2 inches in diameter. These pieces are planted in the bed 8 to 10 inches apart by making a suitable hole about 2 inches deep and pressing the spawn firmly into it. The hole should then be filled with manure and packed down firmly. The bed is then covered loosely with straw or excelsior to retain the moisture and to prevent a too rapid fall in the temperature. At the end of about a week this material is removed and the beds are covered over with an inch and one-half of loamy soil.

Announcement!

Mr. Thomas J. Welch wishes to inform the public that he has opened, and is now running his first of four Good-Year Shoe Repair Systems stores in this city. The expert shoe repairers of the Central are Mr. Carl Hefley and Mr. Edmund L. Savage, who will be pleased to receive all their old friends and welcome the patronage of all others. Their prices are right, and the work the best.

with an inch and one-half of loamy soil. Mushrooms are ready to pick about the time the gills beneath the umbrella portion are a bright pink color. They remain in an edible condition until the gills become dark brown, or even black, providing they are not decayed. If a hole be made in the bed in removing the mushroom it should be filled in again with soil. The beds will need an occasional sprinkling with tepid water, but should not be made very wet. Too much moisture causes the mushrooms to damp off or rot.

The yield of mushrooms grown in this way is somewhere about 2 pounds per square foot of surface.

INCREASING THE MEAT SUPPLY

OF THE COUNTRY BY NEW METHOD OF HERDING SHEEP STARTED BY U. S. FOREST DEPT.—Next Increase Claimed.

SALT LAKE CITY, Jan. 23.—Albert F. Potter, Associate Forester, U. S. Forest Service, made an address before the National Western Growers' association here today and said that the question of meat supply is involved in the methods of grazing used on the national forests. He also made the statement that overgrazed ranges can be improved quicker through use of the number of stock grazed before the damage could be stopped. From the very beginning, the forest service invited the cooperation of the stockmen and consulted with them regarding the practicability of the plans which were to be adopted. This cooperation was secured through the various associations here and through the various stockmen and consulted with them regarding the practicability of the plans which were to be adopted. This cooperation was secured through the various associations here and through the various stockmen and consulted with them regarding the practicability of the plans which were to be adopted.

He called attention to the experiments of the government in artificially receding the grazing areas to cultivated grasses and showed that in some cases the forage crop has been increased as much as 100 per cent. He maintained, however, that this method is both slow and expensive and said that the great part of the range lands must be improved by protection and natural receding. He says, too, that investigations have established beyond a doubt that natural receding can be accomplished best by a rotation system of grazing based upon the simple principle that grazing is not continuous and planting the seed after the seed has been given an opportunity to mature.

He also spoke of the new open system of handling sheep, which is simply wintering during the day and bedding the sheep where night overtook them. He contrasts this with the old plan of herding sheep close by the use of dogs and returning them each night to a fixed bed ground. The old plan, or fence, rendered certain areas absolutely bare and the going from and returning to the bed grounds trampled a great deal of forage. He estimates that an increase of 10 to 25 per cent has been added to the carrying capacity of the ranges and that 5 pounds weight has been added per pound, because they have not been harassed by herding or forced to trail long distances to and from bed grounds. On 5,000,000 head this means 25,000,000 pounds added to the sheepmen's salable product, and to the country's meat supply.

He gave an amusing instance of a government experiment in which it was attempted to try out the old alongside of the new system, but it was found impossible to secure a sheep owner who would return the old method, except through a bonus. The change in handling has been in large part responsible for the building up of the Madison forest, which there called an increase in the number of sheep grazed from 20,000 to 107,000, with promise of further increases of several thousand.

In conclusion Mr. Potter mentioned other studies and experiments which the forest service is undertaking to help stock growers secure a better utilization of the forest resources and said that the success secured in the work has been due largely to the hearty cooperation of the stockmen.

TO PRODUCE PRIME BUTTER

Value of Pasteurization of Cream and the Water Used in Washing Shown by Experiments

It is very important advantage to have butter keep well, and to improve the keeping quality of butter increases just so much its real value. Butter which spoils quickly is not suitable for export; it cannot be kept very well until higher prices can be secured; and, in fact, sometimes it can hardly be sold or even be placed in cold storage before a disagreeable flavor is developed. It has been quite clearly established that microscopical organisms are the cause, or at least one of the causes, of rancid butter. The particular forms of bacteria responsible for this deterioration gain access to the milk, or the cream, or the butter. The problem is to exclude them, or to destroy them when they are present.

Buttermakers understand pretty well that pasteurization is often of very great value in making butter. But why the National Western Growers' association here today and said that the question of meat supply is involved in the methods of grazing used on the national forests. He also made the statement that overgrazed ranges can be improved quicker through use of the number of stock grazed before the damage could be stopped. From the very beginning, the forest service invited the cooperation of the stockmen and consulted with them regarding the practicability of the plans which were to be adopted. This cooperation was secured through the various associations here and through the various stockmen and consulted with them regarding the practicability of the plans which were to be adopted.

The old plan, or fence, rendered certain areas absolutely bare and the going from and returning to the bed grounds trampled a great deal of forage. He estimates that an increase of 10 to 25 per cent has been added to the carrying capacity of the ranges and that 5 pounds weight has been added per pound, because they have not been harassed by herding or forced to trail long distances to and from bed grounds. On 5,000,000 head this means 25,000,000 pounds added to the sheepmen's salable product, and to the country's meat supply.

He gave an amusing instance of a government experiment in which it was attempted to try out the old alongside of the new system, but it was found impossible to secure a sheep owner who would return the old method, except through a bonus. The change in handling has been in large part responsible for the building up of the Madison forest, which there called an increase in the number of sheep grazed from 20,000 to 107,000, with promise of further increases of several thousand.

This Will Revive A Faded Complexion

Many winter complexion troubles could be avoided if a plain mayonaise lotion were used instead of greasy creams or injurious face powders. This lotion can be made by dissolving an original package of mayonaise in one-half pint witch hazel. Apply after cleansing and drying the skin and rub lightly until it dries and you will be delighted with the result. The mayonaise lotion is especially fine for pinples, blackheads and rough, faded skin, and restores the youthfulness to the faded complexion.

Talks on Teeth

By DR. GAGNON

As if Crown in the Gums

The remarkable part of the Porcelain Method of restoring missing teeth is that they resemble natural teeth so closely as to make even a dentist look again to see whether they "grew in the gums" or not. You want beautiful teeth. You owe it to yourself and friends to make yourself as attractive as possible—and is there any feature in the face of greater importance than the teeth? Isn't it a fact that pretty teeth literally "light up" the face?

Did you ever know a handsome man or woman with poor teeth—or missing teeth? We have not touched on the right side of the question, which is equally important, for bad teeth are dangerous and breed infection—besides the offense of bad breath, which is only another name for bad teeth—one that cannot be camouflaged—a bad breath is an insult.

Such letters as the following should convince you of the superiority of our work.

Dear Sir:—I write to let you know that I am exceedingly pleased with the dental work you did for me, and that it has been admired and wondered at by my friends to whom I have exhibited it. I shall take pleasure in recommending you whenever an opportunity presents itself. I wish to express my appreciation of the expert manner in which my case has been treated and furthermore, with the use of your "MAP-A-MINT" all the work you did was absolutely painless. Thanking you and wishing you further success, I am,
Very respectfully, HERVE D. PARTHENAIS, Druggist,
With Lowell Pharmacy Co.

Briefly, the Porcelain method is this: If you have two or more teeth in either jaw, whether tight or loose, I will supply all that have been lost, and they will be as beautiful and as serviceable as your natural teeth were, or should have been, at their very best. They will be firm and tight. I use no surgery, don't hurt or cut into the gums, cause you no pain or discomfort while the work is being done. Call at my office for an examination of your mouth and let me explain what I can do for you.

The "I Will" Man Says "I Must"

STILL GREATER REDUCTIONS THAT MUST PRODUCE QUICK CLEARANCE

"I guess," says the "I Will Man," "that I haven't made this town sit up and take notice." The first few days of this sale convinced those that were here that this town never had such apparel offerings, on really good and dependable merchandise as has characterized this sale. And each day the news spreads farther and farther. Our stock has become very much broken in a great many lots. So what have we done? We have placed these in the next cheaper lot and give you the benefit. That is the "I Will" spirit. Only I say now, "I Must" and I mean what I say.

SOUTH END CLUB

Second Annual Dancing
Party Held Last Night
—A Great Success

Associate ball last evening was the scene of a very pretty dancing party when the members and friends of the South End Social club gathered to the number of nine hundred, for the second

Arthur L. McMahon
Floor Director

annual social and dance of the organization. The affair proved to be one of the most successful informal events that has been seen here this season.

The light fantastic was mostly tripped by the large number of young people present until midnight and the hearty manner in which the last waltz was danced demonstrated conclusively that those present had thoroughly enjoyed themselves during the evening.

Those who had charge of the dance were as follows: General managers, Thomas H. Donoghue; assistant general manager, Joseph F. Donoghue; floor director, Edward L. McMahon; chief aid, Rep. John J. Gilbride.

The officers and members of the club are as follows: President, Thomas H. Donoghue; vice president, Joseph F. Donoghue; treasurer, John A. Quinn; secretary, Arthur T. Cull; financial secretary, J. Henry Gilbride; sergeant-at-arms, Walter Lyons; board of directors, James O'Dea, Frank Corcoran, William J. Gargan, William McCarter, Frank J. Donnelly, chairman.

Members of the club: Thomas H. Donoghue, John Quinn, Rep. John J.

Gilbride, Edward McMahon, Joseph Donoghue, Thomas Bodkins, John McMahon, Joseph Muldoon, John L. McDonough, Andrew Dowd, Charles Kinsella, Francis J. Roane, Frank J. Donnelly, Herbert Maguire, Michael Gorkin, Charles Connors, William Gargan, Terrance Owens, Charles Donoghue, Peter McGreevey, Benjamin J. Moloney, Cornelius Shea, Edward L. Hanley, Thomas Sullivan, Bert Connors, William McCarter, Paul Clark, John Carney, Peter Gilman, Cornelius O'Neill, Thomas Gargan, Daniel O'Dea, William Devine, William J. Collins, Thomas Mooney, James Grady, John Frawley, John Donnelly, William Howe, Terrance Casey, Frank Owens, Joseph E. Donohoe, Arthur Cull, Abel R. Campbell, John Mahoney, James H. Gilbride, James Boland, James McAvoy, Walter Lyons, Paul Roane, Frank Smith, Augustus Howe, Frank D. White, Frank Ginty, Joseph Devlin, Frank Guthrie, Paul Doherty, Frank Corcoran, Joseph Devlin, John McAvoy, John J. Donnelly, James O'Dea, John F. Roane, Jr., Arthur McMahon, John Devlin, Michael A. Qualey, John Sullivan and John A. Cahill.

O. DEAR!

A handsome doc, believed to have crossed the line from New Hampshire, has been captured in Somerville, Mass., and placed in Franklin park. New Hampshire has furnished many a deer to Boston and vicinity.—Manchester Union.

DR. HALLOCK'S
ELVITA
PILLS

PROMINENT FIGURES IN DISPUTE OVER CURATIVE POWERS OF RADIUM IN CANCER CASES

1. MME. CURIE—2. EUGENE CHRISTIAN—3. DR. KELLY

NEW YORK, Jan. 30.—The nation wide dispute over the use of radium as a cure for cancer has stirred the scientific world to its depths, and the testimony taken before the house committee on mines in Washington is expected to finally solve many of the perplexing problems that have arisen. One of the latest witnesses, Dr. William H. Campbell, director of the radium clinic of Pennsylvania hospital, states that radium as a cure for cancer

is still in an experimental stage and its use in the treatment of internal cancer results fatally in a large percentage of cases. A statement issued by Eugene Christian, the prominent New York food scientist, has caused

considerable comment. Dr. Christian assails the alleged curative properties of radium in cancer cases and states the use of the costly mineral is merely an endeavor to cure an existing disease without eliminating the cause, and that such a procedure is palpably fallacious and unkind. He states that cancer arises primarily from improper foods and that proper foods and proper eating will not only prevent cancer from forming, but will actually arrest the growth when once started. This radical view has aroused a storm of criticism in the medical world, but Dr. Christian quotes some of the leading cancer experts in the world, who substantiate his views. A part of the Christian statement is as follows: "Here is the true cause of cancer, and the thinking people must admit that it is so deep seated in the very vitals of the human organism that no external force or agency can hope to cope effectively with its dread results. When either animals or vegetables are deprived of pure food, pure air and sunlight they each tend to revert back to nature—that is, to die. The vegetable becomes fungus and diseased, and the animal becomes tuberculous, fringed, cancerous and diseased. Cancer is a fungoid or a malignant tumor growth which becomes a pseudo parasite and which preys upon the animal tissue. It is produced by lowly organized nitrogenous matter, just as the vegetable fungus (mushroom) comes from the decaying body of the tree. Cancer in its final analysis is merely one of nature's methods of disposing of effete, decaying matter that cannot be passed through the anabolic or constructive process. In one person nature may create a tumor, cyst or cesspool, as it were, into which it empties all foreign, useless and poisonous matter, while in another case it may dispose of this matter in malignant form called carcinoma (cancer). The logical inquiry now is, What causes the blood to become so charged with poisons that nature takes these desperate steps to eliminate them? Named in the order of their importance they are as follows: (1) Overeating; (2) flesh eating; (3) the consumption of alcoholic stimulants, tobacco, tea and coffee; (4) the overconsumption of sweets; (5) the overconsumption of salt; (6) inactivity and lack of fresh air. The avoidance of the evils named and the consumption of foods having the proper qualities and combinations of the necessary elements thoroughly well known to science will not only render impossible the formation of cancer, but will absolutely cure it after its growth begins by removing the cause." Dr. Howard A. Kelly of Baltimore, a noted surgeon

and radium expert, is one of the leading men who assert that radium will cure cancer, and he is urging congress to take control of all lands containing deposits of the mineral from which it is extracted. Mrs. Curie, the well known French scientist, who discovered radium, was the first to claim that it would remove cancerous growths.

Tonight, Manhattan Club, Assn.

SOLVING A PROBLEM

This was the note which was handed to one of the grade teachers the other day:

"Dear Mum—Please excuse Johnny today. He will not be at school. He is acting as timekeeper for his father. Last night you gave him this tipple. If a field is 4 miles square how long will it take a man walking 3 miles an hour to walk 2 1/2 times around it Johnny is about 10 years old, so we had to send his daddy. They left early this morning and my husband said they ought to be back late tonight that it would be hard going. Dear Mum, please make the next problem about ladies as my husband can't afford to lose the day's work. I don't have no time to loaf, but can spare a day or occasionally better than my husband can."

"Rest" v're
—Mrs. Jones.
—Marian News.

PROF. BOSWORTH WILL RECOVER

Mrs. Edward Martin, of 531 Fletcher street, is in receipt of a telegram from the doctors of a hospital in Chicago to the effect that her only brother, Prof. Thomas Johnson Bosworth, who was mysteriously and brutally assassinated by burglars a few days ago, will recover. According to a Chicago dispatch the professor had his throat slashed by two negro burglars in the office of the Chicago Latin school, where he was employed as teacher.

YOU'RE CONSTIPATED,
BILIOUS!—CASCARETS

Clean Your Waste-Clogged Liver and Bowels Tonight! Feel Bulky!

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches; how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight! Put an end to the headache, biliousness, dizziness, nervous, sick, sour, gassy stomach, backache and all other distressing conditions your inside organs of all the bile, gases and constipated matter which is producing the misery.

A ten-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

GREECE AND BULGARIA

When the little nations of the Balkan states allied themselves against their common enemy, the Turk, the sympathy of all Christian nations went out to them, for it was generally conceded that they fought to throw off a yoke that had become unbearable, and were striving valiantly against the worst forms of tyranny. Consequently when their efforts were crowned with success, there was general rejoicing, and it was felt that the power of the Moslem in Europe had been broken beyond hope of repair. Within a short time, however, a little cloud arose to mar the glory of the victory, and the cupid of Bulgaria threw the brave and struggling countries once more into the horrors of war and gave to Turkey an opportunity to wrest from the victors some of the territory so bravely won.

The second war was the means of bringing in all the countries which participated in it a great deal of suffering and misery, the effects of which are in evidence to this day. At the present time, Bulgaria is making an effort to arouse the sympathy of the world and is collecting funds here in order to repair some of the damage. While there is no doubt that there is urgent need in that country, its attitude only serves to throw into stronger relief the nobler attitude of the other Balkan states, Greece, for instance, which is striving to meet the needs without recourse to world pleas for assistance. Furthermore it was due to the selfishness and greed of Bulgaria that the other nations are now so distressed.

A great deal of sympathy was turned from Bulgaria by the undoubted atrocities committed by her soldiery during the war for spoil. These were such as to shock the civilized world. The Bulgarian leaders felt ashamed of these excesses when the war was over and strove to lessen their gravity but the very protests of church and army dignitaries in Bulgaria may be cited abundantly to prove that license ran unchecked in the Bulgarian army and that wholesale murder and robbery was the order of the day. Much of the want and destitution of Bulgaria would be relieved were the government to insist on the surrender of the blood stained booty robbed from mosque and pillaged home during a war that has left deep stains on the national honor of Bulgaria.

It is a relief to turn from the misery of Bulgaria and her present dependence on the charity of the world, to Greece, which though sorely stricken, is doing so much to get back her former prosperity and to heal the wounds left by the Bulgarians as well as the Turks. She has respected the religious feelings of the Mohammedans conquered and given them back their mosques. She has given government protection to hundreds of thousands of refugees and provided them with the comforts scarce enough for her own. Her people have shown unselfish patriotism and devotion to high principles. She has far greater claims on the sympathy of the world than has Bulgaria, stricken by wars that were largely the result of her own misdeeds.

CURE OF DRUNKENNESS

The committee appointed by the legislature to study the question of drunkenness in this state has just made its report and has given many suggestions on what it considers the best means to correct and control the habit, which, according to the committee is growing in Massachusetts. Last year there were more than 100,000 arrests for drunkenness in this state. With the exception of first offenders, most of these were sent to jail or fined. According to observation and the report of the committee, this method of correcting the evil or punishing the offender for what is still legally considered a crime is wholly inadequate, if not unjust, and it is a question if fines or jail sentences do not do more to foster drunkenness than to cure it. The Boston Herald traces the effect of jail sentences on the character and habits of the drunkard and shows that they but confirm him in his unfortunate tendency. The individual who has been confined to jail for drunkenness usually loses his position and the respect of his acquaintances. Often he loses the sympathy of his family. The result is discouragement, and discouragement is the compelling influence that leads him back to the saloon. The statistics compiled by the legislative committee reveal that of those who had been arrested and imprisoned during the year, fully two-thirds had already been committed from six to fifteen times. More than a thousand had served from sixteen to thirty sentences, and there were several who had served up to fifty sentences.

The recommendations of the committee are in line with those of advanced humanitarian bodies everywhere, that is that drunkenness should be considered more as a disease than as an offense against law. Fines and imprisonment are still retained for the criminal type, but those early in the game are recommended to the care of the state. This, it is said, would

result in the cooperation of the drunkard while the present system only makes him determined to get back to the vice that has enslaved him. If the recommendations are followed, many drunkards will be sent to state hospitals instead of jails. Incredible as it may seem, this system would not be as costly as that now followed, for the cost to the state at present is enormous. The suggestions of the committee deserve the closest attention.

CHRIS. CALLAHAN FOR JUDGE

The appointment of Christopher Callahan to the vacancy on the superior court bench is one of the very best that could be made; and Governor Walsh is to be congratulated upon the excellence of his choice. While he has long been active in democratic politics, Lawyer Callahan is too broad minded and he stands too high in his profession to allow political bias to sway his judgment in the discharge of his judicial duties. His fairness as district attorney has given proof of this, so that his appointment for that reason is applauded by republicans as well as democrats. While Christopher Callahan's services to the democratic party deserved recognition, yet it was not this consideration that swayed Governor Walsh, but rather the candidate's distinction as a lawyer, his eminence as a public speaker and a statesman, together with his experience as district attorney and a general all-round equipment for the highest, clearest and ablest exercise of the judicial functions.

The appointment can elicit only the highest commendation for the good judgment and faithfulness to his high responsibility shown by the governor in this his first appointment to the bench.

MERRIMACK RIVER

The waterways committee of the Lowell board of trade is acting wisely indeed in striving to stir up local enthusiasm in the project for the navigation of the Merrimack river and impressing on the legislative committee on rivers and harbors the advantages of the great improvement to this city. It is an important project of national significance and it should be given support in accordance with the issues involved. It is not given to this city every year to share in the good accomplished by an appropriation of five millions, and it would be a lasting reproach were the navigation scheme to fail in any particular through the apathy of our citizens. It is to be hoped that the waterways committee of the board of trade will be able to get a representative committee of 75 or more, and that furthermore they will surround their mission with all the business atmosphere that it calls for. The opportunity for Merrimack river navigation has never looked more rosy than at the present time.

ANOTHER BANK RUN

Owing to the unfounded rumors that went the rounds in South Boston a few days ago hundreds of people withdrew their money from one of the savings banks there and were it not that other institutions gave prompt assistance and that the alarm was quelled in time, the results would have been serious. It so happened, however, that things righted themselves speedily, and as the Boston Post remarked truly the only losers were those who by their unthinking haste lost six months' interest on their deposits—about \$4000 in all. The regulations regarding the depositing of money in the savings banks of Massachusetts are so searching and the protection is so thorough that there should be little fear of bank failure in the public mind, and the stories of those who would announce disaster ahead should be listened to with incredulity. Under the revised currency act, there will be reason for still greater public assurance.

VALUE OF COURTESY

A circular just issued by the St. Louis and Southwestern railroad urges upon all employees of the road the necessity for courtesy. "Courtesy is to be distinguished from civility," it says, and continues: "The latter won't do; it is short of the mark." It sums up the whole argument in favor of courtesy on the part of the employees of public service corporations as follows: "It means dollars to us; preferment to you. In their application the advantages of courtesy work both ways. And remember, no man is too big to be courteous—rather many men are too little." How many there are who would wish the lessons of this circular to be taken to heart by a discourteous conductor, expressman, letter carrier, or clerk in a store. Courtesy soothes many a wound that not all the blandishments of expert service can heal when it is lacking.

THE NAVY SCHOOLS

It must be gratifying to Secretary Daniels that the navy schools advocated by him are proving so successful. Though in operation but a month or so, there is no lack of pupils, and the enlisted men are showing great eagerness to avail of the new opportunities.

It is also a matter for congratulation that the favorite courses are those of a mechanical nature in line with the work of the men, for in taking up such branches they show a desire to advance themselves and be more of a benefit to the service. The educational cruises and the naval schools will certainly have a powerful effect for good on the personnel of the navy.

EDITORIAL COMMENT

A GOOD SIGN

Lowell Courier-Citizen: "Seats" on the New York stock exchange are now quoted at \$55,000. The latest sale showed an advance of \$500 over the last previous sale, which in turn was the same amount better than its predecessor. The tendency is clearly upward for obvious reasons. There is now more business on the exchange than for months, and that means profits for the brokers. It is a pretty good sign of reviving prosperity.

JUDGE CALLAHAN

Boston Herald: In the selection of Christopher T. Callahan of Holyoke, as judge of the superior court, to take the place made vacant by the death of Judge Pratt of Lowell, our new governor has made an excellent choice. Mr. Callahan is a lawyer of ability and attainments, and has been long identified with the better aspirations of his party.

SEAMEN'S BILL

Chamber of Commerce News: Ever since the Titanic disaster a seamen's bill has been a live issue, not only with maritime people, but also with the man in the street. There have been half a dozen seamen's bills, and now one of them has passed the senate and is up for consideration in the house. Adverse criticism of this bill comes from many quarters. An interesting comment on it is found in the interview with the chairman of the chamber's committee on maritime affairs which we publish in this issue. Another interesting comment is in a letter to the New York Herald by Capt. H. C. McClellan of a retired cutter service, retired, now superintending the construction of lifeboats and apparatus for the lifesaving service. He condemns the provision of the bill requiring passenger vessels to carry "two able seamen" for each lifeboat.

THE RIDER

Worcester Post: The national good roads-aiding proposition, whatever its merits of itself, is properly defeated in congress as a "rider" on an appropriation bill. When measures cannot win without resort to this method of blackmailing legislation and executive signature, they ought at least to wait for enactment.

THE PRISONER'S FAMILY

Boston Post: It is easier to sympathize with Julian Hawthorne and others who desire to have prison life made less dreary for the inmates, if one can succeed in forgetting the prisoner's wife and child somewhere in the world outside seeking food and shelter during the enforced absence of the family's natural wage earner. At least, the prisoner has enough to eat and a place to sleep, each of his kind; but what of the dependent ones he has left outside? Aren't they factors in the prison reform problem, too?

Seen and Heard

A friend, father of a girl of high school age, tells (she liked a certain boy, and another boy attempted to ingratiate himself with her, frequently calling her upon the telephone at her home in which her father objected. Meeting him on the street, she asked why he had not phoned lately. With a boy's bluntness he said he had five cents' worth of candy, but had bought a "hot dog" instead. It is hardly necessary to say he never called again.

Congressman W. S. Greene of Fall River owns an interesting and valuable copy of a speech which was delivered in the house of representatives at Washington by Abraham Lincoln in 1838, in his address to Lincoln, speaks of the fact that Washington's administration cost in eight years but \$16,000,000 and contrasts with the fact that Van Buren expended \$40,000,000 in one year. Mr. Greene asserts that this speech is not included in the published biographies of Lincoln and that, therefore, the copy in his possession is of great value.

Placing the family phonograph on the library table, Mrs. Ravenyelp said to her husband: "I have an old record here, Henry, and I want to see if you can guess what it is?" When a weird succession of sounds

Hyomei Relieves in Five Minutes

If your head is all stuffed up from a cold or catarrh, you suffer with dull headaches and soon lacking in vitality, or are constantly sniffling and coughing, you need a remedy that will give the quickest, most effective and lasting relief possible—something that will go right to the spot, clear the head and throat and end your misery.

Surely use Hyomei—all druggists sell it. It is just such a remedy, and is entirely harmless and pleasant to use—you breathe it, no stomach dosing. The antiseptic oils of Hyomei mix with the air you breathe; its healing action immediately reaches to the sore and inflamed mucous membrane—you feel better in five minutes. It is practically impossible to use Hyomei and not only be relieved but permanently benefited. Ask for the complete outfit—\$1.00 size.

began to come from the horn of the instrument, Ravenyelp knitted his brow and tried to identify them. "It's a buzz saw plowing through a knot," he ventured. "Guess again," said Mrs. Ravenyelp. "A slide trombone in full cry." "Hardly," "Cat concert?" "None." "Hoot owl with his toes in a trap." Smiling grimly, Mrs. Ravenyelp shook her head in the negative. "Give it up," finally said Ravenyelp; "but as one last guess, I'll say this sounds very much like a siren whistle with the pip." "I will agree that it is as bad as all you have named," Mrs. Ravenyelp remarked, "and I hope it will save a lot of argument in the future." "But what is it?" insisted Ravenyelp. "It's a record I made in your bedroom the other night," replied Mrs. Ravenyelp. "To prove to you that you really do snore in your sleep and to let you know just how awful it sounds,"—Judge.

A strong plea for higher scholarship requirements and drastic action in the case of the man who fails

Sick Children Made Well

Every mother likes to see her children the picture of health and vitality. I find that the stomach is a source of constant trouble to some children and there is a constant need of some safe remedy. A disordered stomach, too, frequently breeds worms, many a child's stomach is infested with these pests.

You can absolutely depend upon Dr. True's Elixir to expel worms and tone up the stomach, bowels and general health. Dr. True's Elixir, the discovery of my father, has been on the market for over 60 years. That's proof of its efficiency. Get the time-tried Dr. True's Elixir, the Family Laxative and Worm Expeller. Good for adults also. At your dealer's, 35c, 60c and \$1.00. Advice free. Special treatment for tapeworms. Send for book.

Amber, Maine. Dr. True.

to maintain a passing mark in his studies is made by The Yale News. It advocates the expulsion from college of a student who has failed in his studies, instead of dropping him to the class below, as is the custom now. Referring to the intellectually laggard as "the drags," the News declares: "In the treatment of the deficient, Yale university shows too much mercy. The passing mark is within the reach of everybody, not yet fully confined. It is ridiculously low. But for not achieving it, either through indifference or superhuman dullness, all students are gravely penalized. The expulsion of the drags might have a beneficial effect upon those nearing that level."

Recently a child after listening to his Sunday school teacher tell how the devil is around everywhere, always trying to get children to do wrong things, put up his hand and asked: "Teacher, who hints hell while the devil is out?"

A practical joker carried an onion in his pocket to the depot when bidding farewell to a young lady and took a bite now and then to induce tears. Before the train departed he had eaten the entire onion. The young lady, perceiving the situation, remarked, "Ah, you have swallowed your grief!"

"Can any of you tell me," the Sunday school teacher asked, "why Daniel, when he was cast into the den with the lions, was unharmed?" "I can, please," piped the juvenile lead who always figures in this brand of anecdote. "Well?"

"Cause, teacher, he blonged to the show. Did you ever mislay anything, not know where to find it and have it turn up at an unexpected moment, sometimes to your embarrassment? A lady living in this city was visiting in a neighboring city and was invited to stop to dinner. The most progressed finely until it came to the dessert, when the hostess brought on a large dish of custard—one of those old-fashioned custards made with real eggs laid by real hens on a farm—and the visitor's mouth watered. A large spoon was procured and a goodly portion of custard was just about to be removed when some-

thing was encountered and it was explained by the good lady of the house as she exclaimed: "There, I wondered all day where I laid my dish towel, but didn't think I had turned that custard over it!"

GOOD BUSINESS REASON "But why," asked the observer of men of the itinerant musician, "why do you play an accordion? Nobody likes the accordion any more."

"Ah, signor, I have da reason. Da peep who no lika da accord pay me da big mun to stoppa na noise."—Judge.

CASH REWARDS OF LITERATURE "In this day and time," says a Georgia editor, "the literary fellows don't wear their hair falling in curls over their shoulders. Why, they make enough now to have it trimmed as regularly as other human beings; and still our foreign critics say there's no such thing as 'American Literature.'—Atlanta Constitution.

HEARD HIM SAY IT YESTERDAY "What has become of the old fashioned man who used to say, 'I says, says I?'"—Toledo Blade.

SKIM MILK AN EGG PRODUCER

A farmer in Massachusetts figures that skim milk fed to pullets is worth 15 cents per quart. Having some milk that he could not sell he gave it to the pullets, and noticed that their egg production immediately increased. When he found a market for the milk and stopped giving it to the hens, they began to lay less. He again started with the milk, and in a short time the egg yield had almost doubled.

ONE OF THE FEW WITHOUT COLD "How many handkerchiefs a day are you using now?" asks the Boston Globe. "I am using an average of a dozen a week and they are larger than postage stamps, too."—Lawrence American.

MISREPRESENTING GREEKS

Bulgarians Appealing for Money in This Country as if All the Patriotism Was on Their Side

The following story is from Atlantis, the Greek paper published in this country, and it is here reproduced because a certain Boston paper has grossly misrepresented the Greek cause, charging the Greek armies with responsibility for much of the strife with Bulgaria and in various other ways belittling the noble and patriotic part she took in the late war. Appeals are made in behalf of Bulgarians while reflecting upon the Greeks and to this the Greek reply is "Give the Bulgarians your money, we ask only your justice." The article follows:

For some time past the suffering and starving of Bulgaria have been called to the attention and sympathies of the American public with emphasis and persistence—great suffering and distress undoubtedly exists—the consequence of devastating war, and the unwillingness or inability of a grasping government and a people lacking both patriotism and co-ordination to grapple with conditions and bring order out of chaos. Let generous America give generously if she will—Greece does not ask for aims. She is voicing her protest against the accusations of wholesale atrocities, murder and rapine publicly and officially brought against her by Bulgaria. In an effort to excite sympathy, and most of all, to distract attention from the proved and acknowledged atrocities committed by the whole civilized world.

By declaring themselves the victims, not the perpetrators, of unspeakable cruelties and wanton destruction, they

have sought to "put the shoe on another's foot." Their activities in the broadcast dissemination of defamatory literature concerning the Greeks have reached every country on earth. In America they have been given unwarranted publicity and credit—unwarranted in that the dreadful results of Bulgarian ferocity are a matter of public record and are at the disposal of any one who will give the time to ascertain them.

Unfortunately the "lurid allegations" proved so colorful that they were seized upon with avidity by certain newspapers (in chain of yellow journals) and, with no thought of the injustice involved, set forth as facts to the public. The Greeks of America are righteously indignant—they have not asked help from any other country for their destitute thousands at home—they have co-operated in strenuous self-sacrifice to suffice to these pressing needs—but they do demand and expect common justice and a fair hearing from the American people. The very paper that is now conducting a whitewashing campaign and passing around the hat for Bulgaria printed in its columns not six months ago the following:

"With the exception of the Greeks, who observed the principles of humanity and Christian warfare, the Balkan peoples have shown themselves to be hordes of murderers and savages."

Let the sympathizers with the "Heroes of the Balkans" urge their readers to help the stricken nation, but when it comes to denunciation of those responsible for the prevailing misery existing now, not only in Bulgaria but all over the Balkans, let them place the blame where it belongs or else pass silently over the whole tragic subject.

Mr. Pichon, minister of foreign af-

SAYS RHEUMATISM YIELDS TO THE GREAT KIDNEY REMEDY

I have been troubled with rheumatism for the last five years. Suffered with much pain in the limbs, back and feet and my joints have been badly swollen. Also suffered from constipation. Besides having a regular physician, I had tried every remedy without receiving the least benefit until I accidentally came across a bottle of Dr. Kilmer's Swamp-Root. I began taking it, never thinking it would help me, but must acknowledge it has done wonders for me. Have taken more than a dozen bottles and feel that it has been a God-send to me. I am recommending it to all my friends. Yours very truly,

IRA ALDRICH, Holyoke, Mass.

Personally appeared Ira Aldrich and made oath that the statement subscribed by him is true, before me.

D. J. HARTNETT, Justice of the Peace.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

PROVE WHAT SWAMP-ROOT WILL DO FOR YOU

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince you. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention The Lowell Sun. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

fairly, unqualifiedly confirmed the accusations and the protest of the Greek government against the Bulgarian army, when with the close of the second Balkan war, they began in their retreat the systematic slaughter of the Greek non-combatants in Macedonia and the looting and total devastation of the country.

Even the few Bulgarian inhabitants of the devastated area gave testimony to the insane fury of their constitutionalists, denouncing them as assassins and bandits who spared neither combatants nor their own countrymen.

The wholesale and inhuman slaughter of the Mohammedan population by the Bulgarians during the Greco-Turkish war was officially confirmed by the British foreign minister. Nowhere is there even a question of "Greek atrocities."

"Forgive us, oh, ghosts of the Huns, if, in an endeavor to describe the Bulgarian atrocities, we have wronged you by comparing their deeds to the traditions of horror you have left to posterity," wrote Signor Luciano Magrini, war correspondent of the Messaggero of Rome and the Secolo of Milan, after his visit to Macedonia and Thrace.

The fiendish fury of the Bulgars is peculiar to his race—the Tartar. He has no place among European nations. He is of the same stock as the Hun and the vandals that overran Europe.

For more than a thousand years, since he invaded and held the territory he now occupies, he has shown himself on the surface of superimposed civilization is scratched, to be the ferocious, blood-mad descendant of the ancestors whose boast and glory was war, torture, pillage and rapine, to whom the ideal of truth was a laughing stock and the oath of honor but a means of duping an enemy.

No European could have committed or permitted such deeds as Bulgaria has set to her discredit. At her door alone lies the incredible but only too well verified slaughter of a hundred and fifty thousand non-combatant Mohammedans—women and children—drowned, burned, shot or bayoneted in his gory advance against the Turks at Loule-Bourgas. He turned his murderous frenzy against the non-combatants of Greece when the armies of that nation were driving him from Macedonia. All this is no secret. By letters, photographs, official examinations national investigations, it is all verified. Like the Tartar that he is, the Bulgarian slays, when victorious from sheer lust of slaughter and national enthusiasm, and when defeated he raped, tortured and slew in sheer hysteria of revenge.

The Greeks are the outcasts of European civilization of which Greece herself was the mother. Never in all her annals has she shown one evidence of

Tartar brutality. On the contrary, a national spirit of force and idealism, respect for the laws that were even the expression of the aspirations of the whole people have from time immemorial been hers. Her armies fought against an army, barbaric in its methods—she fought beside an army even more inhuman—yet she conducted her campaign according to the rules of warfare laid down by the nations of Europe.

Bulgaria now is awake to her disgraced position among the nations. Shall she be permitted to endeavor to clear her garments from the stain of innocent blood by heaping false accusations upon her neighbors? What must we think of those who assist her in this last and most cowardly crime? The three hundred thousand Greeks of America, call upon the millions of Americans, "Give the Bulgarians your money, we ask only your justice!"

POULTRY RAISING

Abundant Range a Great Advantage—Suggestions to Regard to the Colony System

"That the great bulk of the poultry raised throughout the country is raised on farms where it is only a small part of the investment is the opinion of an expert on this subject, Mr. J. S. Jeffery. He believes that poultry raising, however, under proper conditions, is one of the most profitable of the small enterprises. Statistics gathered in one county of New York state showed that for the money invested poultry was more profitable even than the dairy cow."

Mr. Jeffery believes that the farmer has a great advantage over the town poultryman in having abundant range for his stock, where it should be able to get plenty of green feed and insects. Many farmers do not get as much advantage as they should from their conditions on account of a fear that the fowls will injure the growing crop.

Unless portable houses are used so that the fowls can be moved to suit the crops and conditions, it will be advisable generally to "have a yard in which the ducks may be confined when necessary. If portable houses are used, yards will not be necessary. Fowls ranging on a grain crop just coming up will kill off a great deal of it, while if kept off for a month or two till the young plants get a good start, they will not injure the crop, if precautions are taken to prevent large numbers ranging on a small area.

Twenty hens to the acre may be allowed to run on a wheat or oat crop with no apparent injury to the crop if

ARRESTED AS A LUNATIC

PROVES TO BE A FRENCH COUNT

Policeman John Dougherty while doing his duty in Merrimack street the other day met with a very strange experience. While walking up the street he noticed a man jumping and limping about the street without any shoes on. The man appeared well dressed, wearing a nice black dress suit and a hat. But his white stockings which he wore made him look queer.

Policeman Dougherty thinking either the man was crazy or else drunk, stepped up to him and asked him what the trouble was.

But instead of answering him the man began to shout and quarrel in an unfamiliar tongue to the officer. Pointing to his feet he made a jump and limped forth again. This was about all Officer Dougherty could stand and his "German" blood began to boil up. "Come back you critter! You belong in the crazy house and not on the street," shouted the popular bluecoat. Saying this he ran after the "crazy man" and seized him. Being only a short walk to the station the officer decided to walk the distance with the crazy man. When Officer Dougherty brought his dangerous captive into court, Captain Cook wanted to know the reason for the arrest, and Policeman Dougherty promptly pointed to the captive's feet and said "Your Honor, this man is crazy and is likely to be dangerous to anyone on the street. Why I just caught him dancing an Irish jig in Merrimack street. Captain Cook after these charges, asked the man what he had to say and again the man began shouting and screaming in his foreign tongue. The captain finally decided that the man wasn't a very dangerous lunatic, but couldn't speak a word of English and so he sent for an interpreter. The interpreter, Mr. Jennings, was told the following story by the "proposed lunatic": This man was no other than the famous French Count Bond de Castore, who had arrived here the other day with his family. The count was very indignant for being arrested as he was not doing anything or breaking the law. When he was told that policeman took him for a crazy man he laughed very much and told the following story:

The Count is known throughout the wide world as a restless and very nervous man, being always on his feet, going back and forth, "travelling at all times," so that he can be called a real and natural born Traveler. But of late the Count and family had been greatly troubled with sore feet, corns and callouses and he can't get shoes to fit him. He had just bought a pair of \$1 shoes for himself, but the boxes in the store fell down and hurt his toes painfully. So saying the Count heaped a pile of abuse against the shoes. Just then Phil McGuire, the doorkeeper, butted in and asked the Traveling Count if he ever tried a "Traveler Shoe." The Count said no. The famous Phil offered to take the Count, who readily accepted, to the Traveler Shoe store at 163 Central street who carry nothing but Traveler shoes. Their shoes are known to be "Union Made" Factory No. 2 and of solid leather only.

Traveler shoes are sold under strict guarantee. Of course you have heard of the Nell Brinkley shoe for ladies and the new "New Haven" last for men. Try them, and get leather shoes and a perfect fit. By the way, Nell Brinkley comes here the latter part of the week. Ladies escort this famous woman with Nell Brinkley shoes on your feet. DOCTOR'S DAUGHTER Stomach-Rite Tablets

For the cure of Indigestion, Gas, Dyspepsia, Intestinal Indigestion, Sourness of Stomach, Torpid Liver, Constipation, Heart-Pressure, Biliousness, Bloating, Vertigo, Headache, Catarrh of Stomach, Drowsiness, Tired Feeling, Nervous Indigestion, Liver Spots and all forms of Stomach and Liver Trouble.

Indigestion and Constipation Go Hand In Hand

WHAT YOUR NEIGHBORS SAY OF STOMACH-RITE

Suffered From Infancy

Dear Doctor's Daughter:

I am writing to say that your Stomach-Rite has been used most successfully in my family. My son was afflicted with gastritis from almost his infancy, so badly that frequent attacks every minute of the body would stiffen. Several physicians prescribed for him to no avail, but in the use of Stomach-Rite tablets we believe we have found a complete cure, as he has not had an attack for over four months. Sincerely,

GEORGE SWERT, 41-Bowdoin St., Boston, Mass.

Stomach and Liver Trouble

Dear Doctor's Daughter:

I have had dyspepsia for several years and suffered terribly, and nothing has done for me what your Stomach-Rite tablets have done. I also had a liver trouble, and cannot say enough in praise for your medicine.

BUY A BOX TODAY AND JUST ONE TABLET WILL CONVINCE YOU FIRST CLASS DRUGGISTS EVERYWHERE

Thanking you many times. I am, truly yours,

ALBERT WOOD, 51 Gray St., Boston, Mass.

Cured Him

Dear Doctor's Daughter:

I have suffered for years with a distressing stomach cough. Stomach-Rite tablets have cured me of it, and I can heartily recommend them to any one with a stomach trouble. Respectfully,

ANTHONY HENNESSEY, 194 Middle St., Lowell, Mass.

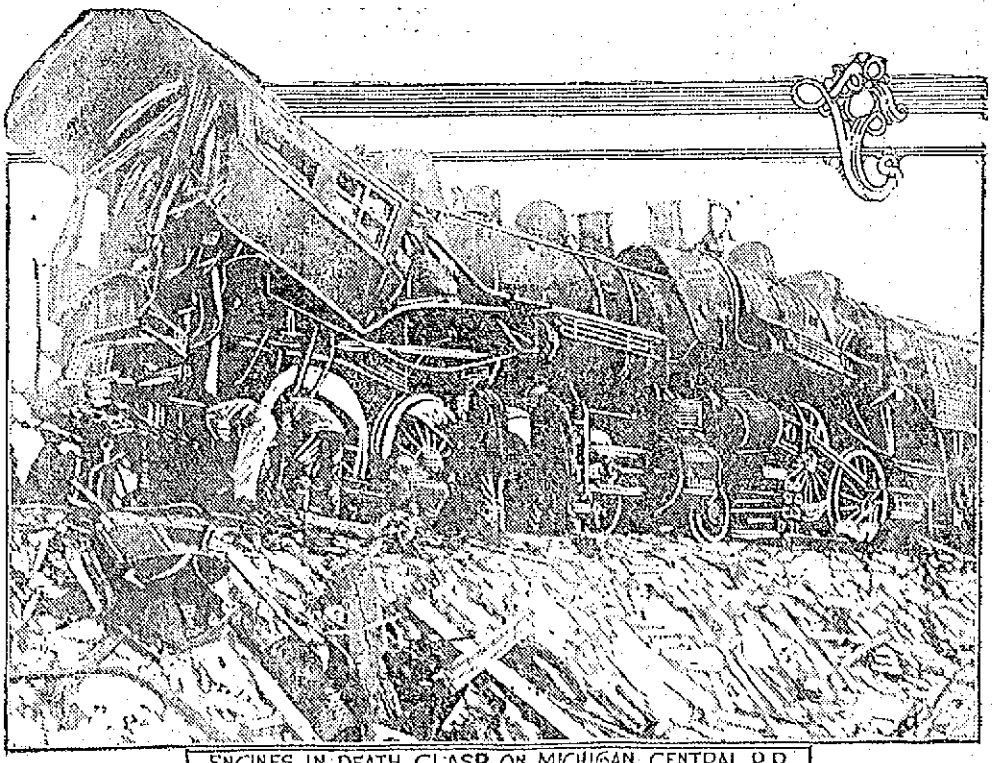

Cured of Indigestion and Constipation

Dear Doctor's Daughter:

I must tell you how thankful I am to you for helping me. I had indigestion, accompanied by a sour stomach, headache and constipation. I took only two boxes of your Stomach-Rite tablets and feel that I am entirely cured. Yours truly,

A. J. ELLIOTT, 3 Washington St., Hanson, Mass.

Huge Engines Telescoped by Force of Head-On Smash on Michigan Road

ENGINES IN DEATH CLASP ON MICHIGAN CENTRAL R.R.

JACKSON, Mich., Jan. 30.—The entire state has been aroused by the head-on collision between a passenger train and a freight on the Saginaw division of the Michigan Central railroad, which cost several lives and injured many. The two big engines smashed into each other with such terrific force that they were partly telescoped and were battered into junk. A federal inspection is under way. The accident was apparently due to a bad blunder on some one's part.

they are spread out in small colonies. If 200 were kept in one house they would cause much greater loss. The scattering of the flock in small colonies increases somewhat the labor of caring for them, and the hopper method of feeding is almost a necessity if the flock is kept in this way.

The farmer often suffers loss with his chicks because he has fallen into the habit of raising them year after year in the same place without taking any precautions to purify the ground between seasons. If only one place is available, this may be kept in fairly good condition by the use of lime and by plowing and cropping between seasons. Even when cared for in the best possible manner, it is not as desirable as new ground or ground that has been used a season or two for growing crops.

Mr. Jeffery believes that the conditions and problems of the poultryman living in the city are somewhat different from those living on the farm. In the city the poultryman is confined in most cases to a rather small area, and does not have the same chance to move his poultry to fresh ground as does the farmer. Under these conditions it is even more necessary to keep

what land one has in good condition. Although the man in town does not have the range for his flock, the waste from the kitchen can be made to help out with the feeding. In many cases these waste products are warmed separately and mixed with corn meal and wheat bran for the fowls.

In many cases the man succeeding with a small flock makes the mistake of increasing the flock beyond the capacity of the yards. With the larger flock the kitchen waste forms such a small part of the feed as to be hardly noticeable, and he finds that his larger flock is not nearly as profitable as was the smaller one. It is quite common to find persons starting in a new place making a marked success at first and gradually doing poorer and poorer until a complete failure is reached, simply because the yard has been overstocked and not kept in a sanitary condition.

GETTING IT DONE RIGHT

"The manager is always preaching to me about his executive ability," said the office boy. "What is executive ability?"

"That's the art of getting other people to do your work for you," replied the bookkeeper.—Cincinnati Enquirer.

FIGHTING CONSUMPTION

Dr. Hawes Tells About Statewide Campaign Against Disease—35,000 Patients in the State

The following on the statewide campaign against consumption, its treatment and other matters will interest the people of Lowell, who are talking of a new hospital. It is by Dr. Hawes, secretary of the board of trustees of the Massachusetts Hospital for Consumption.

There are at least 35,000 cases of tuberculosis in all its forms in this state today. Of these cases, many are not discovered and very likely never will be. Many are not greatly in need of treatment and will entirely recover without treatment of any kind. It has been clearly shown that the time we have now is the best time to take action to protect others. Probably at least 10,000 patients out of the 35,000 in this state come in this class. What are we doing for them? How are we handling them so that they may be cured if possible, but at least so that they do not spread the dread disease broadcast throughout the community?

The solution of the tuberculosis problem is a most difficult task. We have no reason to be discouraged, however, for, though we still have a long distance to go before the time arrives

when tuberculosis will be a disease as rare and comparatively harmless as leprosy, we have already come a long way. Twenty-five years ago, out of every 10,000 inhabitants in the state, nearly 100 died of consumption; at present this number has been reduced to less than 13 per 10,000. If this steady decline continues, and there is no reason why it should not continue, in 25 years more tuberculosis will become a comparatively rare disease.

What are the leading factors which have brought about the great and rapid decrease in the deaths from tuberculosis? The first and greatest factor is that the public has been educated. By means of the daily press, by exhibitions, lectures, pictures and educational literature of all kinds everyone has come to know not only what tuberculosis does, but how it may be discovered, cured, and prevented.

At the office of the state board of health, every two weeks an article covering some phase of the tuberculosis problem is sent out to every newspaper in this state. The large tuberculosis exhibit of the Boston Tuberculosis association has traveled far and wide in every city and large town in Massachusetts; schools, tuberculosis exhibits have been formed and are in use in many of our public schools; legislation has been passed which makes it compulsory that tuberculosis and its prevention be taught as a part of the regular course. Every workman, every clerk and every stenographer and every child now knows that prevention is better than cure and that tuberculosis is a preventable disease.

The next great factor in stamping out tuberculosis has been the establishment of sanatoria and hospitals for consumptives. Massachusetts, always a leader in its health work, was the first state to establish a state sanatorium. This institution, the Eustis state sanatorium, situated on a beautiful plateau in the center of the state, has well earned the remarkable reputation in the minds of the people which it now possesses. It contains 350 beds, and is limited by law to early and favorable cases of pulmonary tuberculosis. In addition, it has a sanatorium for children, and a sanatorium for women. It is a beautiful institution, with splendidly equipped buildings, the North Reading, Lakeville and Westfield State sanatoria. At these there is no restriction as to the class of cases admitted; inpatient cases are placed in open air huts, while completely separated from them are closed wards where the sick patients can receive every care and comfort. These three new institutions contain about 175 beds each. It is important to bear in mind that the treatment and food at all of our state sanatoria is the same.

The Westfield state sanatorium, beautifully situated on a high bluff across the Connecticut river from Springfield, has been set apart as a sanatorium for children. Here, in addition to a certain number of adults, there are about 75 beds where little children from 4 to 15 years can sleep out of doors, play in the fresh air, receive the best of food, and at the same time keep up a certain amount of schooling. It is to be hoped that the present legislation will provide an appropriation for this institution to erect a special dormitory and a play and school room for these children. The price of board at the state sanatoria is \$4 a week; this, if the patient is unable to pay it, is collected from the town or city in which he has gained what is called a legal settlement or, in case of no legal settlement, it is paid by the state.

In addition to these state sanatoria there are many excellent local hospitals. There was a law passed in 1911 which requires the establishment of such local hospitals, and accordingly

How To Save Your Eyes

Try This Free Prescription

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription which has benefited the eyes of so many may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription: Go to the nearest wide-awake drug store and get a bottle of Optima tablets; fill a two-ounce bottle with water; drop in one tablet, and allow it to thoroughly dissolve. With the liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective, in multitudinous cases. Now that you have been warned don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription. Advertisement.

If Our Grandmothers Had Only Known MUSTEROLE!

How they would have welcomed it. For they knew the blessed relief that the old-fashioned mustard plaster gave for colds, aches and pains.

But they had to take the blister and the burn with the plaster. You can get mustard's wonderful effect, without the plaster and without the blister.

MUSTEROLE does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. Don't spread MUSTEROLE on a cloth. Don't bind it on with a piece of bandage. Just massage it in with the fingertips briskly. See how quickly it brings relief—how speedily the pain disappears.

And there is nothing like MUSTEROLE for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it prevents Pneumonia). At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid. J. T. G. Emery, M. D., So. Waterboro, Me., says: "Musterole is much better in every respect than the mustard plaster of the mustard plaster. It is now kept on hand for 1444 use as any time."

BUSINESS VS. SENTIMENT

"Don't take that job that is offered you, my girl. Take a good man's love instead."

"What does the job pay?"

"Sixty dollars, I think."

"What does the good man make?"

"Forty dollars."

"I'll take the job."—Baltimore American.

WHEN THE JUDGE BLUNDERED

Court (to prosecutor)—Then you recognize this handkerchief as the one which was stolen?

Prosecutor—Yes, Your Honor.

Court—And yet, it isn't the only handkerchief of the sort in the world. See, this one I have in my pocket is exactly like it.

Prosecutor—Very likely, Your Honor, there were two stolen.—Christian Register.

POOL OMAR

A girl went up to the desk in the public library and addressed the librarian.

"I should like 'The Red Boat,' please," said the girl.

The librarian diligently searched the card catalogue and he could not find the name of that book.

"I don't think we have the book," he said.

"O, excuse me," said the girl. "I made a mistake. The title is 'The Scarlet Yacht.'"

After another search, the librarian reported that he could not find that title was listed in the card catalogue.

"But I am sure you have the book," the girl insisted. Suddenly she opened her bag and produced a slip of paper, on which a name was written. Then she blushed. "O, I beg your pardon," she said. "It's the 'Hobbit,' I want."

—Glasgow Weekly Herald.

AUSTRIAN AND GERMAN EGGS

There are reports that the buyers of Austrian and German eggs are not very well pleased with the eggs they have received from those countries.

The quality has not been up to the standard and in many cases eggs bought as fresh laid had to be sold here at the price of the domestic No. 2s. Some of the consignments of European eggs could be told by the odor some of the eggs.

Trymen across the water had any great surplus of eggs they certainly are not shipping them this way.

FOR REPORT OF TODAY'S CLOSING
STOCK MARKET SEE LATER EDITIONSCONGRESSMAN ROGERS
ON TRADERS BANK

Congressman Rogers has written the subjoined letter to the comptroller of the currency relative to the great delay in straightening the accounts of the defunct Traders bank:

Jan. 28, 1914.
Comptroller of the Currency, Department of the Treasury, Washington, D. C.

Dear Sir:—The Traders National Bank of Lowell, Mass., was, on or about Oct. 20th last, placed in charge of a receiver appointed by you. Since that time it has remained closed, its assets have been gradually assembled for ultimate distribution among its depositors, but up to the present time no dividend has been declared.

I am informed that the collections upon the assets as made are deposited in the treasury of the United States and that however

long a period may elapse between the appointment of the receiver and even a partial distribution among the depositors, no benefit accrues to the depositors themselves. In many cases the amount thus lost through idleness of the money involved may not amount to a very substantial sum, but whether the sum be large or small it is not a real injustice that the depositors, already penalized through no fault of their own, are not permitted to get the benefit of the interest on their deposits, amounting to perhaps two or three or even four per cent of the total. Furthermore, if the receiver deposited the assets as collected, at a fair rate of interest, in the hands of the local bank, the money in circulation there would be increased by the amount deposited.

I am putting before you the case

of the specific bank in which I am especially interested, not however as a creditor or a depositor, but because it is located in the community where I reside and where so many people in moderate circumstances have been seriously inconvenienced and even severely crippled by the closing of the bank. The problem is, however, a general one equally applicable to the half dozen institutions with total nominal assets of several million dollars closed by you in the six months between April 15th last and Oct. 20th.

I should appreciate a reply stating whether some solution cannot be achieved which, while not interfering upon the safety and efficiency of the collections, may work out fairly to the depositors.

Faithfully yours,
John Jacob Rogers.

3 MEN KILLED Stock Market Closing Prices, Jan. 29th

Express and Freight
Trains in Collision—
Several Injured

JOHNSTOWN, Pa., Jan. 29.—Three men were killed today in a collision between the Cincinnati, Indianapolis and Chicago express on the Pennsylvania road and a freight train. Several persons were injured but none fatally.

The passenger train was running at a high rate of speed, when as it rounded a curve the engineer saw the freight train directly in front. He applied the emergency brakes but the heavy engine crashed into the passenger train, killing A. L. Rittner, the conductor, a brakeman and a flagman. Another brakeman was injured.

The engine and mail car on the passenger train were derailed, blocking three tracks. None of the passengers was seriously hurt.

A heavy fog hung over the valley and the engineer of the passenger train was unable to see the signals of the automatic block system with which the division is equipped.

MOTHER OF LOWELL MAN

MRS. HARRIETT J. GOSS DIED AT
LYNN TODAY AT THE AGE OF 91
YEARS

Mrs. Harriett J. Goss, widow of John E. Goss, died this morning at the home of her daughter, Mrs. Edmund H. Buss, 61 Main street, at the age of 91 years, after an illness of three days from pneumonia.

She was born in Merrimack, N. H., April 16, 1822, and was married Dec. 29, 1842, to John E. Goss, who at that time was a Lowell miller. He died in Lowell road, after their marriage, in 1856. She spent most of her life in New Hampshire, but lived several years with her daughter here.

She leaves three daughters: Adelaide Call, widow of Merrill Call of South Braintree; Mrs. Ellen Fay, wife of James Fay of Milford, N. H.; Mrs. Clara K. Buss, wife of Edmund Buss, of Lynn. Two sons, John R. Goss, of Milford, N. H., and George W. Goss of Lowell, 13 grandchildren and several great grandchildren.

TRAGEDY AT CALUMET

C. H. TANNER BLAMES CITIZENS' ALLIANCE—HITS GRAND JURY, MILITIA AND GOVERNOR

LANSING, Mich., Jan. 29.—The mine owners of the Calumet region, the Citizens' alliance, the Houghton grand jury, the Michigan militia and Gov. Ferris were assailed today by Charles H. Tanner, auditor of the Western Federation of Miners in an address which he delivered before a conference of delegates representing every union affiliated with the Michigan State Federation of Labor. Tanner charged the Citizens' alliance with responsibility for the disaster at Calumet on Christmas eve and said evidence to that effect would be produced before the congressional investigators.

Tanner believes the persons responsible for the tragedy intended to kill anyone, he said. "They did, however, want to break up that celebration. But the Christmas eve tragedy is only one of a series of tragedies. Union men have been shot, militiamen, gunmen and deputies have driven women and children off the streets. When our members paraded they were cut from their staffs and trampled in the dust."

WASHINGTON, Jan. 29.—To honor the memory of the late Shelby Cullom, for many years chairman of the senate foreign relations committee, deliberations today postponed its deliberations on the general arbitration treaty with Great Britain and other foreign powers.

CAPE RACE, Jan. 29.—Str. Saxonia from Trieste for New York, 1230 miles east of Sandy Hook, at 10 p. m. 23th. Deck 435 p. m. Sunday.

Str. Acadia, from London, 564 at 8:30 p. m. 28th. Str. Kohn, from Bremen, 58th. Boston 540 miles east at 11 p. m. 28th.

WASHINGTON, Jan. 29.—Final consideration of the bill proposing federal regulation of radium production in the United States was undertaken by the house mines committee today with the expectation of sending the bill to the committee's approval before night.

PROVIDENCE, Jan. 29.—Michael Cucarelli shot and dangerously wounded himself today after wounding Alfred Booth, overseer at the Steere worsted mill. Booth was not seriously hurt. The shooting occurred after Cucarelli had been told that he could not return to work at the mill.

CINCINNATI, Jan. 29.—It was announced by the Cincinnati baseball club here this afternoon that Catcher Gonzales, the Cuban, had been signed for the coming season by the local club.

WASHINGTON, Jan. 29.—Administration rural credit bills were introduced simultaneously in the senate and house today by Senator Fletcher of Florida and Rep. Mess of Indiana. Wilson sent abroad last summer to study foreign systems.

WASHINGTON, Jan. 29.—First public hearings on the new trust bills were begun today before the house judiciary committee. The bill defining restraints of trade prohibited by the Sherman law was taken up.

WASHINGTON, Jan. 29.—Louis Marshall, Dr. Cyrus Adler and Abraham Elihu of New York conferred this afternoon with President Wilson about a prospective new Russian

2000 BANDITS BURN CITY
SHANGHAI, China, Jan. 29.—A force of 2000 bandits this afternoon sacked and virtually burned the entire city of Lan in the province of Szechwan. W. P. Enns, of the China inland mission, with his wife and children succeeded in escaping to Luichow-ku but the Catholic missionaries are still in the locked city and it is believed they have not been injured. The brigands are apparently connected with the hands called the "white wolf," who have for a considerable time been ravaging the eastern part of the province of Ho-Nan.

3 ALARM FIRE IN LYNN

Owens Block Burned and Shoe Factories Threatened — Loss Estimated at \$75,000

LYNN, Jan. 30.—Many big shoe factories on Broad and Washington sts., containing stock and machinery valued at several millions, were seriously menaced early last night by a spectacular fire which totally destroyed the three-story wooden block of John Owens & Co., shoe manufacturers at 32-35 Farnam st., badly damaged the building of the Suffolk garage at 33-37 Suffolk st., and caused considerable damage to tenement houses at 39 and 41 Suffolk street.

Estimates of the losses on the buildings which were burned ranged from \$50,000 to \$75,000, but it is believed that numerous shoe manufacturers in the eight-story Realty building No. 2, at Washington and Farnam streets, suffered damage of at least \$25,000, because of the fire water which flooded the rear section of the building, when automatic sprinklers were set in operation.

Occupants and Losses

The occupants of the Owens Building were the box company, the Lynch Heel Company, which carried insurance of \$10,000 and whose stock is a total loss, and the Sewell Shoe Form company, whose loss is figured at \$5000, but a few minutes after 7 o'clock a passerby saw flames breaking through the roof and sent in an alarm at 7:05. District Chief Welch ordered a second alarm at 7:07, and Chief Chase ordered a general alarm at 7:15.

Cronin and Vincent Talamini was damaged to the extent of \$500 and the dwelling at 41 Suffolk street, owned by the Treason heirs was damaged about twice as much.

Three alarms in rapid succession from box 414 summoned the entire Lynn department and an auto engine from Swampscott and for almost two hours the firemen used every available stream. The fire was fought from three sides and on the fourth side the brick wall of Realty building No. 2 stopped the spread of the flames.

Flames Lick Window Frames Negligence of employees in leaving a few heavy iron window shutters open permitted the flames to attack the wooden window frames and in almost every place where the shutter was open the woodwork of the windows was burned. The flames shot up high into the air, and the firemen on the eighth floor were ignited. The heat within the big block was so intense that the automatic sprinklers were set in action within five minutes after the discovery of the fire and the firemen, not daring to take any chances, allowed the water to run for almost an hour.

Head-On Collision

The Nantucket from Boston for Norfolk with freight would ordinarily have been running to seaward of the Monroe but no early reports indicated the positions of the ships.

A dense fog enveloped the entire coast and mariners here do not doubt that the two liners met in a head-on collision. The position of the ships, which was reported about 15 miles southwest of Cape Cod, was not known until the collision occurred. One wireless report which said Captain Johnson of the Monroe was among the rescued leads to the belief that the Monroe sank very rapidly and that her passengers, roused in the dead of night by the shock of a collision, had little time to prepare for leaving a ship rapidly sinking in waters. The Nantucket, a much lighter ship than the Monroe, about half her tonnage, probably rammed a hole in the passenger liner's iron hull that flooded her lower compartments and sent her down by the head in much less than an hour.

5, 0, 5" Calls Sent Out

The Old Dominion liner Hamilton, bound down from New York for Norfolk could not have been far from the scene when the operators from the Nantucket and the Monroe began sending out the 5, 0, 5" calls, some of which reached as far north as Boston and also were relayed up and down the coast by the stations. Almost immediately every agency of rescue within striking distance was set in motion.

Within a half hour the revenue cutter Onondaga was pointed toward the coast but as the collision occurred fully five hours run away for her she could hope to do little more than aid the Nantucket or stand by for the fog to lift with daylight in the hope that more of the Monroe's passengers or crew might have got away in boats and were adrift in the night.

Early today officials of both lines here were pressing Captain Boyer of the Nantucket for a list of the survivors by which to check their passenger list.

The Monroe had a capacity of 245 first and second cabin passengers. She usually carried a crew of 51 men. At this time of the year Captain Leyland explained there was always a stimp in the passenger traffic, accounting for the small number aboard at the time of the accident.

The property loss, Captain Leyland thought, would be about \$225,000, exclusive of the freight carried and baggage of the passengers and crew.

MERCHANTS AND MINERS STEAMERS NANTUCKET SAILED FROM BOSTON ON WEDNESDAY

BOSTON, Jan. 30.—The Merchants and Miners steamer Nantucket, which collided with the steamer Monroe early this morning off the Virginia coast, sailed from Boston at 5 o'clock Wednesday afternoon for Newport, News and Baltimore. No information as to the number of passengers she carried or their identity was available before the local office of the company was opened today.

Charles H. Maynard, the Boston agent of the line, had received no word from the Nantucket, which was in command of Captain Henry H. Walker. The Nantucket, which has been in Baltimore-Boston service for a number of years, collided with a coal barge off Chatham on July 4, 1905. No one was injured but a big hole was torn in the side of the steamer.

OFFICIAL CONFIRMATION OF SINKING OF STEAMER MONROE GIVEN BY PRES. OF LINE

NEW YORK, Jan. 30.—Official confirmation of the sinking of the steamer Monroe was given early today by J. B. Walker, president of the Old Dominion Line, in a telephone message to officers of the line here from Washington.

"It's the first accident we ever had," Captain Leyland, one of the fleet officials, said as he spoke to his eyes. "And we can only hope that the loss of life is not as great as reported."

So news of the collision was received at the offices of the Old Dominion line here except through President Walker.

SICK HEADACHE

Pinklets, the New Laxative, Gives Quick Relief in Most Cases

As a rule a sufferer from sick headache can tell hours in advance when an attack is coming on.

The trouble is caused by a gradual accumulation of poison generated in the digestive organs and when a certain point is reached this poison produces nausea and the attack follows.

In very many cases the use of a proper laxative before the condition of poison is reached will force the poisons from the system and the attack will be avoided. Pinklets are a laxative that does not sugar-coated dainties, but they are so gently that they are the ideal laxative to use in other do not upset the digestion, do not grip and have no unpleasant effect to make them objectionable.

The extra strong pink-headache variety will not do at all in such cases. For complete information regarding the treatment of sick headache send a card to the Dr. Williams Medicine Co., Schenectady, N. Y., for the Pinklet book. It is free.

Your own druggist can supply you with Pinklets in 25-cent bottles.

PRONOUNCED EARTHQUAKE

WASHINGTON, Jan. 30.—A pronounced earthquake was recorded on the seismographic instruments of Georgetown university last night. The disturbance began at 10:55 and continued until 11:41 o'clock. The tremors were about 2,000 miles distant.

N. Y. BAR ASSOCIATION

NEW YORK, Jan. 30.—The New York State Bar Assn. began its 47th annual meeting here today. The program included addresses by Alton B. Parker on "The Tribune of the People" and Charles H. Bull on "Some Features of the Income Tax Law."

COLLISION AT SEA

Continued

was near the collision, many have picked up more survivors and others may have been found by the revenue cutter Onondaga, which was hurried out to the rescue. The Nantucket will arrive in Norfolk about noon, according to her latest reports.

Steamers Met in Fog

No details of the accident were available early today. Witnesses on shore all along the coast, groping through the fog for some definite news of the lost and the saved, could learn only that the Monroe, bound for New York, on a regular trip from Norfolk, met the Nantucket in a fog about 2 o'clock. When the two ships separated the Monroe went down and the Nantucket with damaged bow stood by and began the work of rescue.

The Nantucket's boats scoured the waters and are said to have picked up 55 survivors. Early wireless reports did not say what members of the crew or first or second class passengers were among the number.

First news of the collision trickled in here through the wireless operator at Virginia beach. The lane of the Monroe, a passenger liner which also carried freight, put out of here at seven o'clock last night on a regular trip to New York. The lane of the coastal steamers between these ports is comparatively close together and on a clear night they never are out of sight of land.

Head-On Collision

The Nantucket from Boston for Norfolk with freight would ordinarily have been running to seaward of the Monroe but no early reports indicated the positions of the ships.

A dense fog enveloped the entire coast and mariners here do not doubt that the two liners met in a head-on collision. THE CHEAPEST PLACE TO BUY THE VERY BEST

HOW TO GROW TOMATOES

ADVICE ON HOW FARMER MAY MAKE CROP YIELD THE GREATEST PROFIT

The annual pack of tomatoes in the United States is probably not less than 10,000,000 cases, and the growing of tomatoes for canning is, therefore, an important agricultural industry. A large part of the crop for this purpose is grown by the general farmer rather than by the specialist, and as a rule not enough care is taken with it to yield the greatest profit.

Many growers believe that it is especially necessary that greater care be exercised in growing the young plants, and that millions of inferior plants are now set, either as the result of poor seed or unskillful growing, reducing greatly the yield and profit from the crop.

The safest and surest way of growing tomatoes is by the use of hotbeds. These can be constructed of two-inch planks nailed or bolted together in the form of a rectangular box, generally six feet wide and as long as desired. The box should be made so that the sash will slope one inch to the foot, which will make it six inches higher on the back than on the front. This slope allows the sun's rays to enter more freely and allows the water to run off quickly. The bed should be located on a southern slope if possible, and run east and west, with the lower side of the frame toward the south. The beds should also be near the house and near a plentiful supply of water, in order that the plants may be carefully and easily cared for.

Common stable manure containing no litter, mixed with from one-third to one-half its bulk of straw and leaves, is used for providing the

FRESH AIR AND HEALTH

Mental work calls an unusual supply of blood to the brain; the process of digestion calls the blood to the stomach. Brain work immediately after a hearty meal often causes indigestion because the brain has first call on a supply of blood that should be helping the stomach.

Whether in the economy of the body work is to be done there is a demand for bright red blood. Thin blood or blood dark with impurities will not do because it is the oxygen carried by the blood that does the work and oxygen-bearing blood is bright and red. This life-sustaining oxygen is taken up by the blood from the air which it meets in the lungs. Hence the great need of fresh air every hour of the day and night. But fresh air is useless if the blood cannot take up more oxygen which it gives. Dr. Williams' Pink Pills enable the blood to take up more oxygen because they make the part of the blood that carries the oxygen. This corrects the faulty, palpitating of the heart, shaky nerves and the paleness that are the results of thin, impure blood. You must have pure, rich blood to enjoy complete health. A booklet "Building Up the Blood" will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. All druggists sell Dr. Williams' Pink Pills.

MR. and MRS. F. N. LABELLE
Optometrists and Mfg. Opticians
306 MERRIMACK STREET

from Washington, who kept in communication with Norfolk.

Captain Leyland said the Monroe carried 16 first cabin and eight second cabin passengers and a crew of 70. He said that President Walker had confirmed press reports that of the 124 persons aboard 86 were rescued by the Nantucket. These figures, Captain Leyland said, probably would be subject to alteration and he expressed the fear that the death list would reach more than the 35 reported lost.

President Walker's message to his office here said that the Nantucket was proceeding slowly toward Norfolk, indicating that she, too, suffered some damage in the collision.

\$225,000 Property Loss
The Monroe was built at Newport News, Va., in 1902. She was 4704 gross and 3386 net tonnage. Her length was 345 feet.

SOCIAL AND FRATERNAL

Division 25, A. O. H., met in regular session last night in Hibernian hall with Patrick J. McCann, the president, in the chair. It was voted to celebrate the 31st anniversary of the organization, which comes on April 30, by holding a banquet and entertainment in the meeting rooms. The following committee was appointed to make arrangements for the observance: President, Patrick J. McCann; James O'Sullivan, Edward E. Slattery, Martin D. Sullivan, John Thompson and James L. Ellis. During the evening remarks were made by Patrick McCann, James O'Sullivan and Edward Slattery.

THEATRE VOYONS

"From Out of the Flood," a two-part Lubin, is today's feature of the Brothers Go to War, is another very interesting drama. "Two Aristocratic Penitents," by the Vitaphone company, is a society drama and will hold your attention during the progress of the play. The Public Weekly is always welcome. Miss Daggett will sing "Nights of Gladness."

AT DEATH'S DOOR TRUST REFORM

Duke and Duchess of Manchester Rescued From Death

NEW ORLEANS, Jan. 30.—Frederick W. Vanderbilt's big yacht Warrior, with a party, including Mr. and Mrs. Vanderbilt, the Duke and Duchess of Manchester and Lord Falconer, went on the rocks near Savannah, on the

WASHINGTON, Jan. 30.—Hearings on proposed trust legislation embracing President Wilson's recommendations for trust reform were inaugurated today by the house committee on interstate and foreign commerce.

While the committee had only the interstate trade commission bill before it in printed form, Chairman Adamson said information would be sought from the witnesses on general subjects, including the proposed railway securities bill and other phases of the trust question over which his committee will have jurisdiction.

Commissioner Davies of the bureau of corporations, Representative Clayton, chairman of the judiciary committee which will shortly hold hearings on the trust bills coming under its jurisdiction and Louis D. Brandeis of Boston had requested to be heard today.

Chairman Adamson explained that the draft of the trade commission bill was only tentative and that the committee would change its present form materially before it finally passed judgment.

Hundreds of letters from railroad representatives, business men and others interested expressing a desire to be heard by the committee have been received and a long list of witnesses has been prepared.

Members of the committee said today it would be impossible to estimate the time the hearings will continue.

MY TIRED FEET ACHED FOR "TIZ"

Let your sore, swollen, sweaty feet spread out in a bath of "TIZ."

Just couldn't wait to take my bat off!

Just take off your shoes and then put those weary, shoe-crinkled, aching, burning, corn-pested, bunion-tortured feet of yours in a "TIZ" bath. Your feet will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—all tired out—just try "TIZ." Its grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which build up your feet and cause foot lumps.

Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you do. —Judge.

ASSISTED SPORTSMAN

"That distinguished member of the hunting party always wants to shoot. He never cares to fish."

"Well," replied the guide, "you see we can get out into the woods and chase animals his way, so that he's almost sure to get something. But you can't do anything with a fish."—Washington Star.

1914 MODEL

Imagine I suppose this is even a more remarkable baby than the one you had last year.

Auto Friend—O, you bet he is! Far better model. Got a longer wheel base, a better pair of lamps and a very much lower horn.—Judge.

TEXTILE SCHOOL WORK

THE LOWELL TEXTILE SCHOOL

Great Activity Among the Pupils and the Attendance Larger Than Ever Before—Examinations Being Held

The faculty and students of the Lowell Textile school are very busy these days, for this is the time of the semi-annual examinations, which are being held this week and which will not come to a close until the latter part of next week. Pupils of all departments are interested in these tests, for it means a lot in the advancement of the various courses. One of the busiest men, however, is President Charles Eames, who is kept constantly on the jump, going from one department to the other.

The attendance at the school this year is by far the largest ever attained and more students are filling their applications for admittance daily. The Lowell Textile school has a world wide reputation for the learned men it turns out and the present crops of students consists of young men from all parts of the states. One of the latest to ask admittance was a young Greek from a little Rhode Island city, who called yesterday afternoon. The young man although but 22 years of age is a graduate of a high school in Rhode Island and has also attended college in New York. His parents are still in the old country, as he termed it. The day students now number 113, while the evening classes have between 600 and 700 young men.

There are various courses taught at the school and among them are the following, which are known as "our courses," consisting of three years

study. Cotton manufacturing, worsted manufacturing, designing, chemistry and dyeing and engineering. The degree courses, four years, are textile engineering, chemistry and dyeing. Speaking about the various courses, Principal Eames said "It is our idea to make these thorough and so complete that a fellow after graduating can step into any branch of the work," and as an example he cited many cases, where young men took up "certain" courses and are now employed in different kinds of work all combined. Some of the graduates have taken civil service examinations and some of them are now employed in the bureau of standards at Washington, D. C. with fairly high salaries, while others are employed by Uncle Sam in the custom house and other paying departments.

The first term of the year now being completed the second term will be started in a couple of weeks, or on Feb. 2, and with it will be started the cotton finishing department, and for this purpose a part of the Colonial building was set aside and fitted up with machinery, the total cost of which is between \$12,000 and \$13,000. These machines are of the kind that will finish all kinds of cotton goods. A part of the building is occupied by the worsted department, another by chemistry and dyeing and the third part by the finishing department.

The new course of cotton finishing will be taken up only by students of the engineering classes, who number between 15 and 18, and the course will be given to the day students only. A portion of the day only will be devoted to this particular study and during the other hours the young men will be taught yarn manufacturing, weaving, designing, engineering, etc.

The engineering laboratory has also been enlarged and now it will include all of the regular apparatus, electrical apparatus such as motors and generators and for this purpose double space in the basement of Kilton hall will be utilized. A recent addition is also an electrical testing laboratory for all kinds of instruments, and also for taking electrical measurements of resistance and electrical motive force.

and current measurements, as well as photometric measurements of electric lights.

The students of the school have started a hockey practice and in order to master the art of this winter sport the campus adjoining the school building was flooded and is now covered with a fine coating of ice. The strong team of the school was to have a match game with the second team of Harvard last Saturday at the stadium in Cambridge, but at the last minute the match was called off on account of the ice having thawed away. The match will be held as soon as the cold weather sets in.

UNION DE CHAMPLAIN

Observed the Tenth Anniversary of Its Organization at C. M. A. C. Hall Last Night

The members of the Union Samuel de Champlain, F. P. A. observed the tenth anniversary of the founding of their society last night. The affair being in the form of a social and whilst the observance being held at C. M. A. C. hall in Pawtucket street. The attendance was very large and all spent a pleasant evening. The proceeds of the evening which were very substantial will be turned to the pastor of St. Joseph's parish for the reconstruction of St. Jean Baptiste church.

David A. Parthenais, president of union presided over the whist and musical program and at the close of the contest numerous valuable prizes were awarded the winners. Those who took part in the entertainment program were the following: Jolly club quartet, Alfred Paquette, George Labranch, Miss Marie B. Chouinard, Miss Marie Antoinette, Miss Emma St. Onge, Miss Antoinette, and others.

The committee in charge of the affair was composed of the following members: Chairman, Alfred Lebel; secretary-treasurer, J. L. Tessier; Joseph Parent, J. H. Lippe, Francois Deschenes, Edmond Lambert, Camille Ayotte, Narcisse Foucher, Hippolyte Gauthier, Armand Champou and David Parthenais, ex-officio.

Sulpholac

Reaches and aids in removing skin troubles

Of all skin troubles, doctors say 75 per cent are due to eczema in one form or another. For this distressing condition, physicians successfully prescribe SULPHOLAC.

This combination makes SULPHOLAC remarkably successful in treating skin ailments. Even the most stubborn cases of eczema are quickly controlled. The itching, burning, irritation is dispelled and skin is healed and restored to normal health.

NEW YORK, N. Y. WORCESTER, MASS. LOWELL AND LAWRENCE, MASS.

A Saving of \$5.00 to \$10.00 On Each P. & Q. Garment You Buy

THIS is the season, when so-called "bargain" sales in clothes are being held everywhere. This means one of two things — either the stores that advertise "bargain" sales have lost confidence in the quality of their goods and their ability to sell on their own merits, or else an unreasonable profit was tacked on to the clothes at the beginning of the season.

Why pay \$25.00 elsewhere for a garment you can get at the P. & Q. Shop for \$15.00? Why pay \$15.00 elsewhere for a garment you can get at the P. & Q. Shop for \$10.00?

P. & Q. Clothes sell for \$10. and \$15. ALWAYS. They are bargains all the time and represent values far greater than any "bargain" clothes you can buy at anywhere near the same price.

ALEXANDER H. BILL & CO., BOSTON

49 PERISH WHEN LINER SINKS

MAY SINK NEW WELLS
ALONG HALE'S BROOK

Lowell's Water Supply at Present Time Not at Its Best — The Boulevard Water Contains Iron and Manganese

Commissioner Carmichael is satisfied that a grant deal of what his predecessor, Andrew E. Barrett, said about Lowell's water supply was true and that something must be done to relieve the boulevard wells. The boulevard water contains iron and manganese in great quantities and while neither of these substances are injurious to the human system, they render the water unfit for domestic purposes. The iron turns the water a reddish yellow and manganese turns it black. The best plan in sight now for the improvement of the water supply includes the putting in of a new belt of wells in Meadowbrook valley.

The commissioner and Supt. Robert J. Thomas are convinced that it is not practicable to drive any additional wells on the boulevard to connect with the present plant. There may be some field beyond which can be tapped and which may yield a quantity of water. Of this, however, they know nothing and are bending their energies toward the plan not only of freeing the water from the excess of iron, but in reducing the manganese.

The state board of health which has been appealed to in the matter says that there is more manganese found in the boulevard supply than in any other supply in the entire state. The only other supply thus far located which has manganese is that in Middleboro and it is understood that in Middleboro the water contains one-half a part of manganese per million parts of water, while in Lowell manganese is six times as prevalent or in the proportion of three parts to one million parts of water.

Commissioner Carmichael and Frank A. Barbour will go to Middleboro to see

the tests which are being carried on there just as soon as Mr. Barbour returns from Montreal where he was summoned to assist in straightening out the very serious conditions attending the water supply which was caused by the breaking of the main to the city from the St. Lawrence river.

Tests have been going on at the boulevard station for over three months, these tests consisting of filtration through various sizes of sand. The sand will remove the iron from the water but does not touch the manganese and the commissioner is convinced that if any considerable amount of water is to be used some additional method of purifying it will have to be adopted.

Cook Well Water
At the Cook wells the water is being treated to neutralize the carbonic acid which is in it and this neutralization is accomplished exclusively by aeration. As far as putting new wells in the Meadowbrook valley this plan offers greater promise than any attempt to free the boulevard water from iron and manganese. Mr. Barbour has recommended that wells be sunk beyond the present hydraulic plant. The officials of the state board of health believe that 4,000,000 gallons per day may be obtained which will require no treatment at all. Their reason for this recommendation is based on the fact that the water which is being used in Chelmsford Centre's new system shows no carbonic acid although it comes from the same general source of supply. It may be that with the drag on such a supply occasioned by the pumping of 4,000,000 gallons daily deposits of carbonic acid will come to the surface.

The Cook wells were shut down on Wednesday night at 10 o'clock, after being run continuously since May 29, 1913, a period of about eight months. This is the longest period of continuous pumping from this supply of which there is any record.

Supt. Thomas says that since shutting down the Cook wells there have been fewer complaints about the quality of the water and he accounts for this by saying that the two supplies, the boulevard and the Cook well supplies, coming together, have caused much of the turbidity which has been complained of.

It was intended to shut down the Cook well supply two weeks ago but the cold wave pushed up the daily consumption so much that the boulevard wells couldn't supply the demand, and therefore it was necessary to continue the Cook wells in operation.

REV. V. C. CHOQUETTE ILL

PASTOR OF ST. JOSEPH'S CHURCH, MALDEN, IS ENROUTE FOR CUBA TO BENEFIT HIS HEALTH

Rev. Victor Choquette, pastor of St. Joseph's church, Malden, and son of Mrs. Jerome Choquette of Moody street, this city, is on his way to Cuba, where he will spend a month for the benefit of his health.

The reverend gentleman has been in poor health for some time and the work of establishing a new parish has made his condition worse. Some time ago he was advised by his physician to take a trip down south, but he could not decide to leave his work. Finally he was ordered to go and he left yesterday for Cuba, where he will spend the coming month. He has many local friends are praying for a speedy recovery.

Hazel Sullivan of 45 Wamesit street, while returning from the Moody grammar school yesterday afternoon, slipped on the sidewalk and received a compound fracture of the right arm.

LINER MONROE SUNK
BY BOSTON STEAMER

Old Dominion Liner Monroe Sunk Off Virginia Coast by the Merchants & Miners Liner Nantucket—25 Passengers and 24 of Crew Were Drowned—85 Were Rescued

NORFOLK, Va., Jan. 30.—Fifty-nine persons were drowned today when the Merchants & Miners Liner Nantucket sank the Old Dominion liner Monroe.

Wireless lists forwarded by Capt. Johnson of the Monroe, returning with the survivors on the Nantucket, show:

Lost—Passengers 25, crew, 24; total, 49.

Saved—passengers, 30, crew, 55; total, 85.

Passengers Who Perished

The following is a list of passengers who perished on the Monroe:

BOLTON, Mrs. W. L., Newark.

CLAUSEN, W. C., Milwaukee, Wis.

CURTIS, Lieut. I. B., Second Coast Artillery, New York.

DAVIS, F. C., Brooklyn.

EDWARDS, J. A., United States Navy.

GERMAN, Edward, Philadelphia.

GIBSON, Mrs. D., New York.

HASKELL, J., Cortlandt, N. Y.

HAYLAND, Miss, Macaria Theatrical Company.

JINGRAM, W. H., Sumter, S. C.

JELLEFF, Mr., Macaria Theatrical Company.

LEWIS, Mr., Macaria Theatrical Company.

JYONS, E. P., New York.

MARLOW, Mr., Macaria Theatrical Company.

OKAKAMATO, J.

POOLE, C. W., and wife, Gray, Va.

RAY, J. E., and wife, New York.

SEVILLE, Miss, Macaria Theatrical Company.

SNYDER, Miss, New York.

VERNON, Mr., Macaria Theatrical Company.

WAGNER, O., United States Marine Corps.

WILLIAMSON, G., New York.

HARRINGTON, Mrs. Thomas R., died after rescue.

LINERS IN HEAD-ON COLLISION

OFF VIRGINIA COAST—MONROE

SUNK BY NANTUCKET

NORFOLK, Va., Jan. 30.—Forty lives were lost when the Old Dominion liner Monroe was sunk off Winter Quarter Lightship just before 2 o'clock this morning by the Merchants & Miners liner Nantucket.

The Nantucket, with her bow crumpled and otherwise damaged, was slowly groping her way to Norfolk early today with about 85 survivors. As the Monroe carried a passenger list of 54 and a crew of 70, the loss of life from the wreckage was reported as indicated as about 40.

There is a possibility, however, that the Old Dominion liner—Hamilton, bound down from New York and which

SAYS GOMPERS WAS

"GLORIOUSLY DRUNK"

Duncan McDonald Scores President of A. F. of L.—Latter Jumps to His Feet and Called Speaker "Liar" and "Slanderer"

INDIANAPOLIS, Jan. 30.—That Samuel Gompers, president of the American Federation of Labor, was "gloriously drunk" at the Seattle convention of the federation was the charge made by Duncan McDonald of Illinois at the convention of the United Mine Workers. During the prolonged cheers "liar," "slanderer" were hurled at McDonald by Gompers, who sat on the platform.

"I am glad Mr. Gompers is here so I can say what I want to," said McDonald, in beginning his reply to the speech made yesterday by Mr. Gompers. "I said there were booze-fighters in charge of the American Federation of Labor, and I'll prove it. At the Seattle convention I had a room with my wife at a hotel next to the room reserved by the resolutions committee. The first Saturday night we could not sleep for the noise made by a bunch of drunkards in the next room. 'I appealed to the clerk of the hotel and the noise grew louder. Then I went down to the hotel office and the night manager called Jim Duncan on the phone and told him they would have to get out of the room, that they were disturbing all on the floor. 'The noise grew fiercer and I finally knocked on the door of the room and was asked to come in and have a drink. 'When the door was opened there sat Sam Gompers at the head of the table gloriously drunk, with a bottle of booze in his hand. 'The statement threw the convention in an uproar and it was some time before order was restored. While the conclusion was at its height Gompers called McDonald a liar and a slanderer."

THE SATURDAY FEATURES

SUN READERS ARE REMINDED OF LIVE ARTICLES FROM SPECIAL CONTRIBUTORS TOMORROW

Those who are interested in tenement property, business blocks, assessment and taxation should read "The Spellbinder" in tomorrow's Sun. The men who hold property for the increased increment get a well deserved knock and the slump in the value of tenement property in the last 20 years is explained. The hospital site and other matters pending at city hall receive attention.

"The Man in the Moon" tells of John McNabb's experience in Europe, deals with the Choral society concert, the anniversary of Burns, and other interesting musical, literary and artistic.

"Lady Lookabout" as usual has something not only interesting but instructive to the women.

GOOD POSITION IS OPEN

CIVIL SERVICE COMMISSION WILL HOLD EXAMINATION FOR ENGINEER OF THE BOARD OF HEALTH

A competitive examination for the position of sanitary and hydraulic engineer in the service of the commonwealth, principally under the state board of health, will be held at the state house, Boston, Feb. 28, 1914.

From the eligible list established by the examination, names will be certified to fill vacancies as they may occur in the service of the state board of health and other similar vacancies as they may occur. The salaries range from \$60 a month up.

The examination will consist of a sworn statement of training and experience; mathematics; engineering theory; papers on water supply; water purification; sewerage work; sewage disposal, sanitation and design of some sanitary engineering work. Only citizens of the United States who have been residents of Massachusetts for the past year will have a right to apply.

Persons desiring to take this examination may secure application blanks by applying, in person or by letter, at the office of the civil service commission, Room 150, state house, Boston. Applications must be filed on the office of the commission or before 5 p. m., Feb. 18, 1914.

CARD OF THANKS

The undersigned desires to express his heartfelt appreciation for the many beautiful floral and spiritual offerings, as well as sincere sympathy shown him in the demise of his dearly beloved wife, Elizabeth E. Hawright.

Signed, George W. Hawright.

ACCEPTANCE OF \$720 LOT

Would Cost City More Than \$25,000—Ward Land Burdensome Trap, Says Pawtucketville Man

The prominent Pawtucketville resident who gave an interview to The Sun a few days ago relative to the contagious hospital question came across again this forenoon with another burst of indignation and made the following statement:

"The desperate effort of the Andover street remonstrants to the Pillsbury property to lead the public to believe that any comparison can be made between the Pillsbury property of eleven and one-half acres—all graded and developed, with beautiful trees and buildings worth at this moment more for hospital purposes than the \$21,000 asked for the property—and the four acres of bare waste land without streets, sidewalks, sewers, water or lights, adds to the feeling of suspicion and distrust of these Andover Street remonstrants and to the general condemnation of their behavior. It will not be forgotten that the conflict into which the community is now plunged is the result solely of the attitude of two or three Andover street residents after the matter had been fully settled. The complaint that the city is now to be subjected to the cost of a special election comes with poor grace from them, as they were the first to circulate petitions for a special election on the referendum.

Behind Woman's Skirts

Hiding behind the skirts of a woman, Mrs. Dexter, who, with money

subscribed by the Andover street people becomes the nominal donor of this little, insufficient area of waste land, these people seek to trap the city into its acceptance, with the consequent tremendous expenditure which immediately would be needed. At the least calculation, a sewer 1200 feet long would have to be run to Varnum avenue through hills and valleys at a cost of not less than \$10,000. Beyond that, a farther run of sewer would have to be made in Varnum avenue as far as Brookside street, a further distance of about 2000 feet. A street with cuts and fills would have to be built across private land which would have to be purchased a distance of 1200 feet from Varnum avenue in to the Ward land. Sidewalks, water mains and lights would all have to be provided, because it will not be forgotten that this Ward land is only a ledge pasture. It is at once apparent that this Ward land, by the time it was in condition even to begin the digging of cellars, would have cost the city much more than the entire Pillsbury property in its present splendidly developed condition. On the Ward land, too, recent visitors have discovered that not more than one acre of it could be used for building purposes, as it falls rapidly away toward a swamp and brook.

Not only would the city be subjected to all the costs of developing this property for any use, but immediately would be compelled to buy additional land in the neighborhood which is filled with ledge which would subject the city to still further ruinous expense.

It is well for the voters to understand the trap that was being set for

Real Estate and Insurance Business FOR SALE

The real estate and insurance business for more than 30 years conducted by William E. Potter & Sons, and more recently by the late Thomas H. Lawler, will be sold to close Mr. Lawler's estate. Sale includes the agencies for several first class companies, and all the office appointments necessary for the conducting of a growing business. LAND OF PROMISE.

"Do not today what can be put off till tomorrow." Is the first commandment in the unwritten constitution of the Mexicans. Beware of the Mexican who engages to do something for you "tomorrow." "Tomorrow" merely means some time in the future. Because of this peculiar point of view Mexico has been humorously dubbed "The Land of Tomorrow." It is the land of procrastination; the land of "wait and see" or "wait awhile."

An appointment may be kept 15 or 20 days, or even 40 or 50 days. In the morning may be kept at 11 a. m., or perhaps not until afternoon. The Mexicans never cease wondering at the remarkable energy and promptitude of Americans. When it is intended to make an appointment promptly the words "in ten days" are added to signify that the appointment is

AYER CITY INDUSTRIES

Shaw Stocking Co., Comb Co.,
Insulated Wire and Phonograph
Needle Factories Busy

A Sun reporter while in "Ayer City" visited a few of the thriving industries giving the result of his observations in the following story which shows that some of the smaller industries are growing rapidly. The Shaw Stocking company, of course, is not in this class:

SHAW STOCKING COMPANY
Incorporated in 1877 by Benj. F. Shaw, with a capital of \$30,000, this flourishing manufactory has greatly exceeded the original investment, and has developed a world wide business and a world wide fame. Starting in hired rooms on Broadway, business increased so rapidly that in 1879 new buildings were erected at the corner of Smith and Chelmsford streets, the present location. The wisdom of this venture was at once apparent, as the increased demand and subsequent production of Shawknit goods testify. Where nine looms originally were used this company now boasts 700 knitting machines and 12,432 spindles (cotton machinery). In addition to these the company has its own electric power, does its own dyeing and bleaching and sells direct to retailers.

agreement in establishing these necessities is due the success of the enterprise. Originally manufacturing seamless stockings, this concern now produces the famous "Shawknit" hosiery for men, women and children, carded and combed cotton yarns, paper boxes and has recently added a department for printing. The plant at present occupies about 14 acres of land with four large mills. While the bulk of the products is used in this country, exporting is carried on to a very considerable extent.

The hosiery stocks are quoted in New York city and San Francisco, which fact in itself is an excellent advertisement for the Spindle City.

The president of this company is Frank J. Dutcher; treasurer, William F. Hall. The board of directors consists of Frank J. Dutcher, Anson Pratt, Geo. S. Motley, Josiah Butler, Frank E. Dunbar, Edward W. Thomas and Wm. E. Hall.

WEB MANUFACTURERS

The firm of T. Martha & Bro., with home offices at Chelsea, Mass., manufactures elastic and non-elastic webbing. Originally intended as a branch of the main company, this concern, while still affiliated with the home office, has taken such strides as to

Kondon Mfg. Co., Minneapolis, Minn.

exceed the fondest hopes of the owners, so that at the present time shipments are made direct to all parts of the world.

In the two buildings at present occupied on Cambridge street, 70 looms are constantly in use. The floor space of these buildings is between five and six acres. About five acres of additional land is available for further development which may come about in the near future.

The manager, Mr. F. H. Maker, is proud of his position as an industrial center. He has been a keen observer of the city's growth in this respect, and feels that if the Merrimack river is made navigable, as at present contemplated, Lowell will have reached a stage at which she can maintain her industrial supremacy in a great many lines of manufacture.

THE IDEAL COMB COMPANY

'One of Lowell's leading enterprises is the Ideal Comb company situated on Lincoln street. This concern besides manufacturing combs of all kinds, also engaged in the production of celluloid novelties.

Though originally not organized in Lowell, the management, realizing the opportunities afforded by this city, transferred its entire plant to the present location, and in a comparatively short time has built up a business which will soon compel further additions to the factory. The building now occupied contains about 15,000 square feet of floor space. Whereas the first employees numbered about 15 men, producing goods for a limited radius, at the present time 100 are given steady employment and shipments are made to all parts of the United States. A ready market is found for high grade goods, and in this regard, results have shown that the local product is second to none.

The manager of this growing manufactory is Hon. James B. Casey, former mayor of this city. Much of the success of the company has been due to the associations and firm friendships formed by Mr. Casey while acting as Lowell's chief executive.

The Lowell Insulated Wire Company

This useful industry situated on Lincoln street was established in 1902 on the present site and by the present owner and manager, Mr. H. Dunsford. The principal production of this company is insulated wire, which finds a market in all parts of this country and in some sections of Europe. Through able management and solid business principles, the output has been increased over 300 per cent. in ten years and is still growing. The number of employees has taken a proportionate rise, until at the present

time about 100 men are regularly engaged.

The manager, Mr. Dunsford, has devoted much of his time to the technical end of the business, always with a view to new ideas. He feels that the field, especially as regards safety, is still very large and with this object in mind is ever on the alert for improvements. That he is highly pleased with Lowell as a manufacturing center is best shown in the fact that he is contemplating a newer and larger plant to meet the steadily increasing demand for this product.

Talking Machine Needles

With an ideal location on Wilson street, the W. H. Bagshaw company is engaged in the manufacturing of needle pointed wares, the preparation of textile fibers, and in talking machine needles. The company has the proud distinction of being the largest manufacturers in the world of this latter product. Besides being the original makers of the first needles ever used they have to their credit the world's record of producing these needles, having turned out \$3,000,000 in 10 days.

Originally organized in 1870 by W. H. Bagshaw, the firm is still known as the W. H. Bagshaw company. With the under growth and improvements, and ever increasing demand for talking machines of all kinds, the company has more than kept pace with this industry. At the present time about 100 employees are steadily occupied in the spacious plant, covering over 25,000 square feet of floor space. Since the work is of a delicate nature it requires that the men employed be very expert in their various occupations. This enterprising company may well feel proud of the fame that its splendid record has given Lowell to the outside world, since by the very nature of the work it reflects great credit on the high intelligence of her citizens.

LOOKING FAR AHEAD

That the lawyer builds largely on the future was demonstrated the other night by a story told by Congressman Byron F. Harrison of Mississippi.

Some time ago, so related the congressman, a handsome young woman entered the office of a prominent lawyer. Immediately the legal one rose to greet her.

"I am glad to tell you, Miss Smith," he pleasantly remarked, "that your breach of promise suit has been settled. The defendant has expressed a desire to compromise the case by marrying you."

"I am very glad to hear that," was the smiling response of Miss Smith. "It is much better than taking a chance on losing the verdict. You have managed the case very well. How much do I owe you?"

"Let me see," thoughtfully mused the lawyer. "Shall we make it \$100?"

"We shall not," was the emphatic rejoinder of the fair plaintiff. "It is entirely too much."

"Well, then, I will tell you what I will do, Miss Smith," responded the lawyer. "I will just cut that bill in half if you will promise to retain me as your counsel when you sue for a divorce."

SHINE 'EM UP, BOYS

"Where can I find the chief of police?" asked the stranger in Slocumville.

"The native pointed. 'That's him over the Vander by the hotel, shining that grocery drummer's shoes.'—Judge.

CONTEST COMING

Over Will of Late Timothy J. Murphy—Lowell Men Interested

The following appeared in a Fall River paper:

It is likely that there will be a bitter contest over the will of the late Timothy J. Murphy of New Bedford, when that instrument comes up for probate next month.

Mr. Murphy's heirs-at-law, his widow, daughter and son, are allied in opposition to the will; while on the other side of the controversy are Geo. E. Mahoney of Lowell, who is named as executor of the will, and Edward E. Murphy, a nephew of the deceased, who has been conducting the undertaking business and ticket agency in which Timothy J. Murphy was engaged. Mr. Mahoney is a nephew of Miss Emma Fogarty of New Bedford.

Frank Vera, Jr., is counsel for Mrs. Murphy in the case, and John B. Lowrey is acting for Daniel J. Donahue, a Lowell attorney who represents the executor.

Mrs. Isabelle T. Murphy, widow of the testator, separated from her husband nearly 20 years ago, when she secured separate maintenance on an order from the court.

Charges that Edward E. Murphy is fraudulently concealing property of the deceased have been filed with the probate court by Mrs. Murphy and a citation has been served upon Mr. Murphy to appear in court Feb. 8, at a hearing to be given in the matter, to answer the charge made against him.

Mr. Murphy died Dec. 11 and after waiting 30 days after his death, which is the time prescribed by law for wills to be filed with the probate court, his widow, through her attorney, applied to the probate court for appointment as administratrix of the estate and filed a bond of \$3000. Letters of administration were issued Jan. 16, giving her charge of the estate, and vested with the authority thus attained who went to the undertaking shop at 1075 Purchase street, and made a demand upon Edward E. Murphy for possession of the property of her husband.

Murphy refused to surrender the property, claiming he had a bill of sale for the business given to him by Mr. Murphy in September, 1912.

At-law, the widow, the daughter, Isabelle E., and the son, William E., of the deceased.

A few days after Edward E. Murphy was cited to appear in court, however, a document purporting to be the last will and testament of Timothy J. Murphy was filed at Taunton.

By this document George E. Mahoney of Lowell is named as executor of the estate.

When this will filed, Mrs. Murphy surrendered her letter of administration issued Jan. 16 and an appearance as a contestant of the will has been filed for her by Attorney Vera.

WAS FROZEN TO DEATH

Body of Lowell Man Found at the Railroad Bridge in Kennebunk, Me.

Joseph Tatarosouk, a former resident of this city was frozen to death in a brook near the Kennebunk bridge in Biddeford, Me. Wednesday. A railroad employee who happened along found the body and he immediately notified the coroner, who worked for some time with a pick and axe before he could remove the body from the ice.

Tatarosouk was employed at the Laundry division of the Pepperell Mills Co.

STATE FERTILIZER BULLETIN

The Massachusetts agricultural experiment station at Amherst has just issued its fertilizer bulletin, No. 147. It contains the analysis of all fertilizers and lime compounds sold in the state during the year. Interesting information is given regarding the economy of purchasing high-grade fertilizers, and there is a discussion of the plant food found in the mixed goods as well as in the unmixed materials. The bulletin also contains the results of a field experiment with ground-rock fertilizers.

Have Beautiful Hair

A Simple Way to Stimulate Its Growth and Remove Dandruff.

No hair can be beautiful and glossy without thorough brushing daily to excite the oil glands and remove dust. To keep your hair in best condition also apply to the scalp a small quantity of the excellent crude petroleum preparation, CRUDOL, odorless and stainless.

CRUDOL does not make the hair oily, and therefore, the hair does not have to be washed after its use. Leave it on, it penetrates right down to the roots of the hair.

CRUDOL will destroy dandruff, stop

falling hair, promotes its growth, stimulates the roots, prevent itching scalp, and make fine, luxuriant hair.

The secret of CRUDOL—it contains no alcohol like most hair tonics. Alcohol in time will turn the hair gray, and should never be used on the head. Feed the hair roots with CRUDOL. Just try CRUDOL—in TUBES only. Sold by drug and department stores everywhere. Smaller size 25c, larger also 60c. If your druggist cannot supply you, send 25c or 60c and we will mail you a tube postpaid.

Use CRUDOL ANTISEPTIC SHAMPOO, a delightful scalp and hair cleanser. Not like other shampoos that leave the hair brittle after washing, but leaves it in a soft, fluffy, lustrous condition, due to the crude petroleum contained in it. Large tube 25c. Crudol Products Corporation, 1777 Broadway, New York.

FINNERAN WITH FEDERALS

Lowell Hurler Who Led New England League Pitchers Signs With Baltimore "Outlaws"

Joseph Finneran, the crack pitcher, who led the "little old league" in the pitchers' percentage column last season, will wear a Baltimore uniform of the Federal league next season, according to the announcement made by Otto Knabe, manager of that club, yesterday.

Finneran, it will be remembered, was procured by Manager Gray from the Phillies as a farm product last year toward the end of the season. His work, however, was of such a high order that Knabe recalled him at the close of the New England league season.

The fans will remember the spirit of elation which was felt here when it was learned that Finneran would report in Lowell for the post-season series with Hartford of the Eastern association and what a wonderful game Finneran pitched in the first contest. Without Finneran Lowell would have had a difficult time in sewing up the inter-league series.

Manager Knabe of the Phillies, al-

though he recalled Finneran, did not think well enough of him to retain him for this season and ordered him to report to Birmingham, Ala. Finneran started his baseball career in the south and has been afflicted with malaria since that time as a result of the change in climate. Consequently the ex-Lowell pitcher informed Knabe that he would not report in the spring to the Alabama team.

However, Knabe evidently thought, as most managers do, that a ball player changed his mind over night and paid no attention to the futile kicks registered by Finneran. The latter, nevertheless, set about in his own way to effect a change and yesterday's announcement by Knabe is the result.

That Finneran will make good in his new company, the fans in Lowell entertain small doubt, for he showed everything here last year that gives him a classy box artist. His greatest asset was his out curve which broke with wonderful speed. Finneran will receive a far larger salary with Baltimore than he would have gotten had he been retained by the Phillies.

Fragrant—
Mellow—Fresh—Cool—
Smooth—Mild.
So delightfully satisfying in so many ways.

FRANKLIN LOST

Lowell Basketball Five Defeated the Home Team in Furious Contest—Grant Featured

A basketball team composed of Lowell players traveled to Franklin, N. H. last night and took the team of that town into camp by the score of 18 to 5. The contest was one of the best seen in that place this season. Lowell was superior in all departments of the game but their unfamiliarity with the floor handicapped them; Grant was the star of the game for Lowell. The lineup:

LOWELL:
Mansur, rf
Cunningham lf
Murphy c
Malvanity rb
Grant lb
Score: Lowell 18, Franklin 5. Goals from the floor: Grant 4, Cunningham 2, Malvanity 2, C. Thompson 2, Hamilton 1. Goals from fouls: Lowell 2, Franklin 2. Referee, Barnaby. Time, 15 and 10 minute periods.

BOB FITZSIMMONS WON
WILLIAMSPORT, Penn., Jan. 30.—Bob Fitzsimmons celebrated his return to the ring in rather good fashion in his bout with Dan Sweeney of Cleveland last evening. Bob demonstrated that he is at least better than one "welly long."

During the six rounds Sweeney dropped to the floor 11 times and Bob received only one blow. This came in

STEAMER TRAFFIC TIED UP

NEW YORK, Jan. 30.—New York and its adjacent waters were again enveloped in a heavy fog this morning. Water traffic in the early hours was suspended and the movement of trains and cars in and near the city was slow and uncertain.

Down the bay and in the lane to the ocean, the fleet of steamer traffic was absolute. Not a liner came in over night and the marine stations, for the first time in years had nothing to report at daybreak.

NOW JUDGE SULLIVAN
Hon. Charles F. Sullivan of Charlestown, who has been confirmed as judge of the municipal court in that part of Boston, is well known in Townsboro where he has his summer home. He was chairman of the lawn party conducted at the hotel last summer where he met many Lowell people and made many warm friends.

RECORD BROKEN LIVE BITS OF SPORT

By Calvary Baptist Team in Baraca League—Kennedy High Man

The Baraca league rolled off two scheduled games last night. The Calvary Baptist team broke the high team total record of the league, which was held, by themselves, in their match with St. Paul's team. The score was 1507 to 1223. In the other contest the First Presbyterian five were returned the winners over the Highland M. E. bowlers by a margin of 23 points. Kennedy of the Calvary Baptist was high man with 313 and 116.

The Blues won their C. M. A. C. league game with the Orange rollers last night by the score 1261 to 1200. Blanche was high man in this match but was pushed hard for premier honors by Bourque.

The Riverbros were defeated in the Concord league by the Invisibles in a close and interesting contest. The Riverbros were high man with 300. One game was rolled off in the Manufacturers' league between the Hamilton quiliat and the Appletons in which the latter team was beaten by the score of 1213 to 1254. Van Zant was high. The scores are as follows:

BARACA LEAGUE
Calvary Baptist: Myrick, 287; Davis, 204; Kennedy, 313; Perrin, 305; Moudy, 298; totals, 1557.

St. Paul's: Hurt, 287; Esley, 282; McElroy, 216; Shepard, 284; Richardson, 274; totals, 1523.

Trinitarian: Hoban, 273; Barlow, 261; Hibbs, 273; Culparkie, 242; Brown, 268; totals, 1316.

Jighland M. E.: Harrison, 255; Holden, 245; Marshall, 250; Abbott, 279; Maguire, 255; totals, 1234.

CONCORD LEAGUE
Invisibles: Choquette, 265; McMahon, 278; Hamersley, 263; Rogers, 269; Burns, 255; totals, 1330.

Riverbros: B. Currier, 270; J. Currier, 219; Forbes, 245; Wilkes, 290; T. Doyle, 272; totals, 1312.

MANUFACTURERS' LEAGUE
Hamilton: A. Mosher, 234; Van Zant, 279; M. Mosher, 239; Paul, 254; Hudson, 277; totals, 1313.

Appletons: Dunning, 256; Maraden, 247; Reine, 241; Graves, 271; Provancher, 235; totals, 1254.

PLANNING BOARD
Major Fitzgibbon of Boston, Names Four of the Five Members—To Name a Woman

BOSTON, Jan. 30.—Four of the five members of the new city planning commission which was provided for under an ordinance recently passed by the city council, were named by Mayor Fitzgerald yesterday. The city planners appointed are: Ralph Adams Cram, president of the Boston Society of Architects; William C. Ewing, an engineer, who is the head of the chamber of commerce city planning committee; Henry Abrahams, secretary of the Boston Central labor union, and John Jackson Walsh, an East Boston attorney.

Under the city planning ordinance one member of this board must be a woman. The mayor stated yesterday that he had the name of three or four women under consideration for this place. He would not say who these women are.

SALEM GIRL ATTACKED
SALEM, Jan. 30.—The condition of Miss Mildred Nook, the young nurse who was brutally assaulted on Essex street, this city, yesterday morning, is reported as being much improved. In the early part of the afternoon she was suffering a complete nervous collapse and was attended by two nurses. Walter J. Ward, Jr., 21 years old, of 11 Essex street, was identified by her as the man who had assaulted her. Judge Dennis W. Quinn, in the local district court, held him in \$200 for the grand jury on the charge of criminal assault.

WORK OF ENEMIES
"Well, what did your wife say to you?"
"She said plenty."

"You always seem to have friends to take you home after these binges."

"Not friends. My enemies do it."

Louisville Courier-Journal.

RECORD BROKEN LIVE BITS OF SPORT

A fast game of basketball is looked for at the Lawrence armory tomorrow night when the local Y. M. C. I. team plays the Armory A. A. of that city. The Institute boys are in good shape for the game, but realize that their opponents have a classy aggregation of shooters. A large delegation will accompany the local quintet.

It looks as though boxing was done in New Bedford for a time, at least. The principals in the Yelle-Mohr bout were all laid in the police station after the bout and the police station has announced that such will be the procedure whenever a fight is staged in that city. There are very few clubs in New England today which are staging bouts.

Edile Riley has at last been appointed secretary to the Red Sox for the coming season. Riley is a great favorite with both the Lannin and Taylor factions and has been serving as temporary secretary since the new regime went into effect at American league headquarters in Boston.

Lawrence is getting to be as bad a town for raw decisions as several of the other places in New England which have been put on the scrapers' black list. It is too bad for a promoter of Jim Crilly's reputation to have to put up with the sort of referee performance that have been pulled off at his club lately. Last night Johnny Glover gave Joe Nelson of Lawrence a vicious pounding during the entire twelve rounds of their battle and only received a draw. Glover mixed it in every round and had the Lawrence boy groggy in three rounds.

JUDGE HALL DEAD
AUGUSTA, Me., Jan. 30.—Oliver Gray Hall, judge of the Kennebec county superior court for 21 years until his retirement three years ago, died today after an illness of several weeks. He was born at South Thomaston in 1834.

ECZEMA ITCHED AND BURNED BADLY
Appeared as Pimples, Scratched and Made Sores. Couldn't Sleep. Used Cuticura Soap and Ointment. Cured in Three Weeks.

164 Main St., Spencer, Mass.—"My husband's trouble began by chapped hands like, then they started to itch and it was bad. They said all he could do was to keep them out of water; that it was eczema. The eczema appeared as pimples and it itched and burned so badly that he would scratch it and it made sores. It turned to scabs and he couldn't sleep. It itched and burned all the time. He wore gloves to prevent dirt from getting in his hands."

"I used all kinds of remedies that everybody told him but they never did any good. The trouble lasted five years. I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. I tried that and it began to look better so I bought a cake of Cuticura Soap and a box of Cuticura Ointment. I washed his hands with the Cuticura Soap and then put on the Cuticura Ointment and he was cured in three weeks." (Signed) Mrs. George J. Frudeau, Sept. 27, 1913.

It costs nothing to learn how pure, sweet, effective and satisfying Cuticura Soap and Ointment are in the treatment of poor complexion, red, rough heads, itching scalp, dandruff, dry, thin and falling hair, because you need not buy them until you try them. Although sold everywhere, sample of each will be mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

12 Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

DIAMOND NOTES

By cable from the other side of the world comes the news that Comiskey and McGraw have signed their players who are trotting around the globe with them. Comiskey and McGraw first learned of the Fed's activity when they arrived in Australia.

Weightman of the Chicago Feds says he will keep Russell Ford, Cole, Packard and Brennan, all pitchers. Tinker can fill in the other positions with local players and walk the Federal league pennant in a walk if he can use these bexmen.

Fritz, one of Connie Mack's extra infielders, has been sold to the Troy club of the New York state league.

Cy Morgan, the former Athletics' pitcher, has signed with the Kansas City club of the American association. J. A. Gilmore, the fighting president of the Federal baseball league, has been in the front before. As a veteran of the Spanish war and of service in the Philippines, he knows military tactics. As a successful coal dealer and manufacturer, he knows something of business warfare.

James Cooney's signed contract was received at the Red Sox's office. Cooney played a brilliant game at shortstop last season with the Worcester team and will be taken south with the team March 6.

"Birdie" Cree, the New York American league outfielder, announced that the Pittsburgh Federal league team has offered him \$5000 a year for three years and has promised to deposit half of that amount if he signs a three-year contract. Cree has not given his decision.

Bill Steele and Rol Perritt, pitchers, have sent in their signed contracts to play with the St. Louis Nationals during the 1914 season.

The Philadelphia National league club announces that it had accepted the terms of Fletcher Seaton, outfielders Brock and Devore and Infielder Reed. Reed formerly played with the Davenport, Ia., team.

Another signed contract, that of Luther Cook, the young Texas outfielder, has been received by the New York American league club.

Frank Owens, catcher for the Minneapolis American association club last year, who was drafted by the Washington Americans, has signed a three-year contract with the Federal league.

It has been announced by the Detroit American league management that the signed contracts of George Moriarty, third baseman, and H. E. Hellman, first baseman from the Portland, Oregon club, had been received.

Chester Chabourne, outfielder of the Portland club of the Pacific coast league, is reported as having signed with the Kansas City Federals.

Larry Gilbert, the hard-hitting outfielder obtained by the Boston Nationals from Milwaukee, has sent his contract to the Boston team. He was reported as having signed with the Federals.

The Buffalo Federal league club has been incorporated with a capital of \$200,000.

Henry Johnson, umpire in the Three I league last year, has signed a National league contract.

ST. JOHN'S WON
St. John's A. C. basketball five went off Riley's feet last night and got them by the close score of 27 to 20. St. John was in the lead most of the way in every department although the local put up a stiff battle. Greenwood and Duole featured. The summary:

ST. JOHN'S
Fielding, Whitaker 15
McNulty 15
Duo 15
Greenwood 15

RILEY'S PETS
Fielding, Whitaker 15
McNulty 15
Duo 15
Greenwood 15

Score: St. John's, 27; Riley's Pets, 20. Baskets from the floor: Greenwood 6, Duo 5, Mitchell, Whitaker, Riley 2, O'Loughlin 2, Constantineau 2, McNulty 3, Eagan. Points on fouls: St. John's, 1; Riley's, 1. Time: Two 15 minute periods.

AD WOLGAST WON
FOND DU LAC, Wis., Jan. 30.—Rudolph Unholz, the Boer, was knocked out last night by Ad Wolgast, former lightweight champion in the second round of a scheduled 15 round bout after a game but hopeless fight. Unholz took the count of nine four times in the first round and once in the second and was feeling helplessly around the ring when, after one minute and 35 seconds of fighting in the second round, his seconds tossed a towel into the ring.

SOUTH END CLUB

Second Annual Dancing Party Held Last Night —A Great Success

Associate ball last evening was the scene of a very pretty dancing party when the members and friends of the South End Social club gathered to the number of nine hundred, for the second

Marion Studio.
Floor Director

annual social and dance of the organization. The affair proved to be one of the most successful informal events that has been seen here this season.

The light fantastic was merrily tripped by the large number of young people present until midnight and the hearty manner in which the last waltz was danced demonstrated conclusively that those present had thoroughly enjoyed themselves during the evening.

Those who had charge of the dance were, as follows: General manager, Thomas H. Donoghue; assistant general manager, Joseph E. Donoghue; floor director, Edward L. McMahon; chief aid, Rep. John J. Gillibride.

The officers and members of the club are as follows:

President, Thomas H. Donoghue; vice president, Joseph E. Donoghue; treasurer, John A. Quinn; recording secretary, Arthur T. Cull; financial secretary, J. Henry Gillibride; sergeant-at-arms, Walter Lyons; board of directors, James O'Dea, Frank Corcoran, William J. Gargan, William McCarter, Frank J. Donnelly, chairman.

Members of the club: Thomas H. Donoghue, John Quinn, Rep. John J.

Gillibride, Edward McMahon, Joseph Donoghue, Thomas Buckins, John McMahon, Joseph Muldoon, John L. McDonough, Andrew Dowd, Charles Kinsella, Francis J. Roane, Frank J. Donnelly, Herbert Maguire, Michael Gookin, Charles Connors, William Gargan, Terrance Owens, Charles Donahue, Peter McGreevey, Benjamin J. Moloney, Cornelius Shea, Edward J. Hanley, Thomas Sullivan, Bert Connors, William McCarter, Paul Clark, John Gargan, Peter Gilman, Cornelius O'Neill, Thomas Gargan, Daniel O'Dea, William Devine, William J. Collins, Thomas Mooney, James Grant, John Frayley, John Donnelly, William Howe, Terrance Casey, Frank Owens, Joseph E. Donoghue, Arthur Cull, Abel R. Campbell, John Mahoney, James H. Gillibride, James Holand, James McArdle, Walter Lyons, Paul Roane, Frank Smith, Alvinus Howe, Frank P. White, Frank Ginty, Joseph Devlin, Frank Guthrie, Paul Doherty, Frank Corcoran, Joseph Dwyer, John McArdle, John J. Donnelly, James O'Dea, John F. Roane, Jr., Arthur McMahon, John Devlin, Michael A. Qualey, John Sullivan and John A. Cahlan.

PROMINENT FIGURES IN DISPUTE OVER CURATIVE POWERS OF RADIUM IN CANCER CASES

1. MME. CURIE—2. EUGENE CHRISTIAN—3. DR. KELLY

NEW YORK, Jan. 30.—The nation wide dispute over the use of radium as a cure for cancer has stirred the scientific world to its depths, and the testimony taken before the house committee on mines in Washington is expected to finally solve many of the perplexing problems that have arisen. One of the latest witnesses, Dr. William H. Campbell, director of the radium clinic of Pennsylvania hospital, states that radium as a cure for cancer

is still in an experimental stage and its use in the treatment of internal cancer results fatally in a large percentage of cases. A statement issued by Eugene Christian, the prominent New York food scientist, has caused

considerable comment. Dr. Christian assails the alleged curative properties of radium in cancer cases and states the use of the costly mineral is merely an endeavor to cure an existing disease without eliminating the cause, and that such a procedure is palpably fallacious and unsound. He states that cancer arises primarily from improper foods and that proper foods and proper eating will not only prevent cancer from forming, but will actually arrest the growth when once started. This radical view has aroused a storm of criticism in the medical world, but Dr. Christian quotes some of the leading cancer experts in the world, who substantiate his views. A part of the Christian statement is as follows: "Here is the true cause of cancer, and the thinking people must admit that it is so deep seated in the very vitals of the human organism that no external force or agency can hope to cope effectively with its dread results. When either animals or vegetables are deprived of pure food, pure air and sunlight they each tend to revert back to nature—that is, to die. The vegetable becomes fungus and diseased, and the animal becomes tumorous, fungus, cancerous and tuberculous. Cancer is a fungoid or a malignant tumorous growth which becomes a pseudo parasite and which preys upon the animal tissue. It is produced by lowly organized nitrogenous matter, just as the vegetable fungus (mushroom) comes from the decaying body of the tree. Cancer in its final analysis is merely one of nature's methods of disposing of effete, decaying matter that cannot be passed through the anabolic or constructive process. In one person nature may create a tumor, cyst or cesspool, as it were, into which it empties all foreign, useless and poisonous matter, while in another case it may dispose of this matter in malignant tumorous form called carcinoma (cancer). The logical inquiry now is, What causes the blood to become so charged with poisons that nature takes these desperate steps to eliminate them? Named in the order of their importance they are as follows: (1) Overeating; (2) flesh eating; (3) the consumption of alcoholic stimulants, tobacco, tea and coffee; (4) the overconsumption of sweets; (5) the overconsumption of salt; (6) inactivity and lack of fresh air. The avoidance of the evils named and the consumption of foods having the proper qualities and combinations of the necessary elements thoroughly well known to geologists will not only render impossible the formation of cancer, but will absolutely cure it after its growth begins by removing the cause." Dr. Howard A. Kelly of Baltimore, a noted surgeon

and radium expert, is one of the leading men who assert that radium will cure cancer, and he is urging congress to take control of all lands containing deposits of the mineral from which it is extracted. Mme. Curie, the well known French scientist, who discovered radium, was the first to claim that it would remove cancerous growths.

Tonight: Manhattan Club, Asso.

SOVING A PROBLEM

This was the note which was handed to one of the grade teachers the other day:

"Dear Mum—Please excuse Johnny today. He will not be at school. He is acting as timekeeper for his father. Last night you gave him this example. If a field is 4 miles square how long will it take a man walking 3 miles hour to walk 2 1/2 times around it Johnny said no man, so we had to send his daddy. They left early this morning and my husband said they might be back late tonight that it would be hard going. Dear Mum, please make the next problem about ladies as my husband can't afford to lose the day's work. I don't have no time to loaf, but I can spare a day off occasionally better than my husband can."

"Mrs. Jones."
—Atlanta News.

PROF. BOSWORTH WILL RECOVER
—Mrs. Edward Martin, of 231 Fletcher street, is in receipt of a telegram from the doctors of a hospital in Chicago to the effect that her only brother, Prof. Thomas Johnson Bosworth, who was mysteriously and brutally assaulted by burglars a few days ago, will recover. According to a Chicago dispatch the professor had his throat slashed by two negro burglars in the office of the Chicago "Tribune" school, where he was employed as teacher.

YOU'RE CONSTIPATED, BILIOUS!—CASCARETS

Clean Your Waste-Clogged Liver and Bowels Tonight! Feel Bulky!

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to the headache, biliousness, dizziness, nervous, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gassy and constipated matter which is producing the misery.

A ten-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

GREECE AND BULGARIA

When the little nations of the Balkan states allied themselves against their common enemy, the Turk, the sympathy of all Christian nations went out to them, for it was generally conceded that they fought to throw off a yoke that had become unbearable, and were striving valiantly against the worst forms of tyranny. Consequently when their efforts were crowned with success, there was general rejoicing, and it was felt that the power of the Moslem in Europe had been broken beyond hope of repair. Within a short time, however, a little cloud arose to mar the glory of the victory, and the cupidity of Bulgaria threw the brave and struggling countries once more into the horrors of war and gave to Turkey an opportunity to wrest from the victors some of the territory so bravely won.

The second war was the means of bringing on all the countries which participated in it a great deal of suffering and misery, the effects of which are in evidence to this day. At the present time, Bulgaria is making an effort to arouse the sympathy of the world and is collecting funds here in order to repair some of the damage. While there is no doubt that there is urgent need in that country, its attitude only serves to throw into stronger relief the nobler attitude of the other Balkan states, Greece, for instance, which is striving to meet the needs without recourse to world pleas for assistance. Furthermore it was due to the selfishness and greed of Bulgaria that the other nations are now so distressed.

A great deal of sympathy was turned from Bulgaria by the undoubted atrocities committed by her soldiery during the war for spoil. These were such as to shock the civilized world. The Bulgarian leaders felt ashamed of these excesses when the war was over and strove to lessen their gravity but the very protests of church and army dignitaries of Bulgaria may be cited abundantly to prove that license ran unchecked in the Bulgarian army and that wholesale murder and robbery was the order of the day. Much of the want and destitution of Bulgaria would be relieved were the government to insist on the surrender of the blood stained booty robbed from mosque and pillaged home during a war that has left deep stains on the national honor of Bulgaria.

It is a relief to turn from the misery of Bulgaria and her present dependence on the charity of the world, to Greece, which though sorely stricken, is doing so much to get back her former prosperity and to heal the wounds left by the Bulgarians as well as the Turks. She has respected the religious feelings of the Mohammedans conquered and given them back their mosques. She has given government protection to hundreds of thousands of refugees and provided them with the comforts scarce enough for her own. Her people have shown unselfish patriotism and devotion to high principles. She has far greater claims on the sympathy of the world than has Bulgaria, stricken by wars that were largely the result of her own misdeeds.

CURE OF DRUNKENNESS

The committee appointed by the legislature to study the question of drunkenness in this state has just made its report and has given many suggestions on what it considers the best means to correct and control the habit, which, according to the committee is growing in Massachusetts. Last year there were more than 100,000 arrests for drunkenness in this state. With the exception of first offenders, most of these were sent to jail or fined. According to observation and the report of the committee, this method of correcting the evil or punishing the offender for what is still legally considered a crime is wholly inadequate, if not unjust, and it is a question if fines or jail sentences do not do more to foster drunkenness than to cure it.

The Boston Herald traces the effect of jail sentences on the character and habits of the drunkard and shows that they but confirm him in his unfortunate tendency. The individual who has been confined to jail for drunkenness usually loses his position and the respect of his acquaintances. Often he loses the sympathy of his family. The result is discouragement, and discouragement is the compelling influence that leads him back to the saloon. The statistics compiled by the legislative committee reveal that of those who had been arrested and imprisoned during the year, fully two-thirds had already been committed from six to fifteen times. More than a thousand had served from sixteen to thirty sentences, and there were several who had served up to fifty sentences.

The recommendations of the committee are in line with those of advanced humanitarian bodies everywhere, that is that drunkenness should be considered more as a disease than as an offense against law. Fines and imprisonment are still retained for the criminal type, but those early in the game are recommended to the care of the state. This, it is said, would

result in the cooperation of the drunkard while the present system only makes him determined to get back to the vice that has enslaved him. If the recommendations are followed, many drunkards will be sent to state hospitals instead of jails. Incredible as it may seem, this system would not be as costly as that now followed, for the cost to the state at present is enormous. The suggestions of the committee deserve the closest attention.

CHRIS. CALLAHAN FOR JUDGE

The appointment of Christopher Callahan to the vacancy on the superior court bench is one of the very best that could be made; and Governor Walsh is to be congratulated upon the excellence of his choice. While he has long been active in democratic politics, Lawyer Callahan is too broad minded and he stands too high in his profession to allow political bias to sway his judgment in the discharge of his judicial duties. His fairness as district attorney has given proof of this, so that his appointment for that reason is applauded by republicans as well as democrats. While Christopher Callahan's services to the democratic party deserved recognition, yet it was not this consideration that swayed Governor Walsh, but rather the candidate's distinction as a lawyer, his eminence as a public speaker and a statesman, together with his experience as district attorney and a general all-round equipment for the highest, clearest and ablest exercise of the judicial functions.

The appointment can elicit only the highest commendation for the good judgment and faithfulness to his high responsibility shown by the governor in this his first appointment to the bench.

MERRIMACK RIVER

The waterways committee of the Lowell board of trade is acting wisely indeed in striving to stir up local enthusiasm in the project for the navigation of the Merrimack river and impressing on the legislative committee on rivers and harbors the advantages of the great improvement to this city. It is an important project of national significance and it should be given support in accordance with the issues involved. It is not given to this city every year to share in the good accomplished by an appropriation of five millions, and it would be a lasting reproach were the navigation scheme to fail in any particular through the apathy of our citizens. It is to be hoped that the waterways committee of the board of trade will be able to get a representative committee of 75 or more, and that furthermore they will surround their mission with all the business atmosphere that it calls for. The opportunity for Merrimack river navigation has never looked more rosy than at the present time.

ANOTHER BANK RUN

Owing to the unfounded rumors that went the rounds in South Boston a few days ago hundreds of people withdrew their money from one of the savings banks there and were it not that other institutions gave prompt assistance and that the alarm was quelled in time, the results would have been serious. It so happened, however, that things righted themselves speedily, and as the Boston Post remarked truly the only losers were those who by their unthinking haste lost six months' interest on their deposits—about \$1000 in all. The regulations regarding the depositing of money in the savings banks of Massachusetts are so searching and the protection is so thorough that there should be little fear of bank failure in the public mind, and the stories of those who would announce disaster ahead should be listened to with incredulity. Under the revised currency act, there will be reason for still greater public assurance.

VALUE OF COURTESY

A circular just issued by the St. Louis and Southwestern railroad urges upon all employees of the road the necessity for courtesy. "Courtesy is to be distinguished from civility," it says, and continues: "The latter won't do; it is short of the mark." It sums up the whole argument in favor of courtesy on the part of the employees of public service corporations as follows: "It means dollars to us; preference to you. In their application the advantages of courtesy work both ways. And remember, no man is too big to be courteous—rather many men are too little." How many there are who would wish the lessons of this circular to be taken to heart by a discourteous conductor, expressman, letter carrier, or clerk in a store. Courtesy soothes many a wound that not all the blaudishments of expert service can heal when it is lacking.

THE NAVY SCHOOLS

It must be gratifying to Secretary Daniels that the navy schools advocated by him are proving so successful. Though in operation but a month or so, there is no lack of pupils, and the enlisted men are showing great eagerness to avail of the new opportunities.

It is also a matter for congratulation that the favorite courses are those of a mechanical nature in line with the work of the men, for in taking up such branches they show a desire to advance themselves and to more of a benefit to the service. The educational cruises and the naval schools will certainly have a powerful effect for good on the personnel of the navy.

EDITORIAL COMMENT

A GOOD SIGN

Lowell Courier-Citizen: "Seats" on the New York stock exchange are now quoted at \$55,000. The latest sale showed an advance of \$1000 over the last previous sale, which in turn was the same amount higher than its predecessor. The tendency is clearly upward for obvious reasons. There is now more business on the exchange than for months, and that means profits for the brokers. It is a pretty good sign of reviving prosperity.

JUDGE CALLAHAN

Boston Herald: In the selection of Christopher T. Callahan of Holyoke, as Judge of the superior court, to take the place made vacant by the death of Judge Pratt of Lowell, our new governor has made an excellent choice. Mr. Callahan is a lawyer of ability and attainments, and has been long identified with the better aspirations of his party.

SEAMEN'S BILL

Chamber of Commerce News: Ever since the Titanic disaster a seamen's bill has been a live issue, not only with maritime people, but also with the mass in the street. There have been half a dozen general bills, and now one of them has passed the senate and is up for consideration in the house. Adverse criticism of this bill comes from many quarters. An interesting comment on it is found in the interview with the chairman of the chamber's committee on maritime affairs, which we publish in this issue. Another interesting comment is in a letter to the New York Herald by Capt. H. C. McClellan of the revenue cutter service, retired, now in command of the construction of lifeboats and apparatus for the lifesaving service. He condemns the provision of the bill requiring passenger vessels to carry "two able seamen" for each lifeboat.

THE RIDER

Worcester Post: The national good roads-adding proposition, whatever its merits of itself, is properly defeated in congress as a "rider" on an appropriation bill. When measure came up without resort to this method of black-mailing legislation and executive signature, they ought at least to wait for enactment.

THE PRISONER'S FAMILY

Boston Post: It is easier to sympathize with Julia Hawthorne and others who desire to have prison life made less dreary for the inmates, if one can succeed in forgetting the prisoners' wives and children somewhere in the world outside of prison walls, and shelter during the enforced absence of the family's natural wage earner. At least, the prisoner has enough to eat and a place to sleep, each of its kind; but what of the dependent ones he has left outside? Are they factors in the prison reform problem, too?

Seen and Heard

A friend, father of a girl of high school age, tells this: She liked a certain boy, and another boy attempted to ingratiate himself with her, frequently calling her upon the telephone at her home to which her father objected. Meeting him on the street, she asked why he had not "phoned" lately. With a boy's bluntness, he said he had five cents with which to "phone," but had bought a "hot dog" instead. It is hardly necessary to say he never called again.

Congressman W. S. Greene of Fall River owns an interesting and valuable copy of a speech which was delivered in the house of representatives at Washington by Abraham Lincoln in 1847. In his address Lincoln speaks of the fact that the Washington's administration cost in eight years but \$18,000,000 and contrasts with the fact that Van Buren expended \$40,000,000 in one year. Mr. Greene asserts that this speech is not included in the published biographies of Lincoln and that, therefore, the copy in his possession is of great value.

Placing the family photograph on the library table, Mrs. Ravensyep said to her husband: "I have an old record here, Henry, and I want to see if you can guess what it is." When a weird succession of sounds

Hyomei Relieves in Five Minutes

If your head is all stuffed up from a cold or catarrh, you suffer with dull headaches and seem lacking in vitality, or are constantly sniffling and coughing, you need a remedy that will give the quickest, most effective and lasting relief possible—something that will go right to the spot, clear the head and throat and end your misery. Surely use Hyomei—all druggists sell it. It is just such a remedy, and is entirely harmless and pleasant to use—you breathe it—no stomach dosing. The antiseptic oils of Hyomei mix with the air you breathe—its health-giving medication immediately reaches the sore and inflamed mucous membranes—you feel better in five minutes. It is practically impossible to use Hyomei and not feel relieved and permanently benefited. Ask for the complete outfit—\$1.00 size.

began to come from the horn of the instrument, Ravensyep knitted his brow and tried to identify them.

"It's a buzz saw plowing through a knot," he ventured.

"Guess again," said Mrs. Ravensyep. "A slide trombone in full cry."

"Hurray!"

"Hoot owl with his toes in a trap." Smiling grimly, Mrs. Ravensyep shook her head in the negative.

"Give it up," finally said Ravensyep. "On one last guess I'll say that is sounds very much like a siren whistle with the pip."

"I will agree that it is as bad as all you have named," Mrs. Ravensyep remarked, "and I hope it will save a lot of argument in the future."

"But what is it?" insisted Ravensyep.

"It's a record I made in your bedroom the other night," replied Mrs. Ravensyep. "To prove to you that you really do snore in your sleep and to let you know just how awful it sounds."—Judge.

A strong plea for higher scholarship requirements, and drastic action in the case of the man who fails

Sick Children Made Well

Every mother likes to see her children the picture of health and vitality. I find that the stomach is a source of constant trouble to some children and there is a constant need of some safe remedy. A disordered stomach, too, frequently breeds worms or pinworms.

You can absolutely depend upon Dr. True's Elixir to expel worms and tone up the stomach, bowels and general health.

Dr. True's Elixir, the discovery of my father, has been on the market for over 60 years. That's proof of its efficiency. Get the time-tried Dr. True's Elixir, the Family Laxative and Worm Expeller. Good for adults and at your dealer's, 36c, 60c and \$1.00. Advice free. Special treatment for tapeworms. Send for book.

Auburn, Maine. Dr. True.

to maintain a passing mark in his studies is made by The Yale News. It advocates the expulsion from college of a student who has failed in his studies, instead of dropping him to the class below, as is the custom now.

Referring to the intellectually legged as "the dregs," The News declares: "In the treatment of the deficient, Yale university shows too much mercy. The passing mark is within the reach of everybody, not publicly confessed. It is ridiculously low. Yet, for not achieving it, either through indifference or superhuman dullness, almost nobody is ever expelled. The dregs merely gravitate. The expulsion of the dregs might have a beneficial effect upon those nearing that level."

Recently a child after listening to his Sunday school teacher tell how the devil is around everywhere, always trying to get children to do wrong things, put up his hand and asked:

"Teacher, who minds hell while the devil is out?"

A practical joker carried an onion in his pocket to the depot when bidding farewell to a young lady and took a bite now and then to induce tears. Before the train departed he had eaten the entire onion. The young lady, perceiving the situation, remarked: "Ah, you have swallowed your grief!"

"Can any of you tell me," the Sunday-school teacher asked, "why Daniel, when he was cast into the den with the lions, was unharmed?"

"I can, please," piped the juvenile lead who always figures in this brand of anecdote.

"Well?"

"Cause, teacher, he belonged to the show."

Did you ever mislay anything, not know where to find it and have it turn up at an unexpected moment, sometimes to your embarrassment? A lady living in this city was visiting in a neighboring city and was invited to stop to dinner. The meal progressed finely until it came to the dessert, when the hostess brought on a large dish of custard—one of those old-fashioned custards made with real eggs laid by real hens on a farm—and the visitor's mouth watered. A large spoon was procured and a goodly portion of custard was just about to be removed when some-

thing was encountered and it was explained by the good lady of the house as she exclaimed:

"There, I wondered all day where I laid my dish towel, but didn't think I had turned that custard over it!"

GOOD BUSINESS REASON

"But why," asked the observer of men of the itinerant musician, "why do you play an accordion? Nobody likes the accordion any more."

"Ah, signor, I have da reason. Da keen who no lika da accord pay me da big mon to stoppa ma noise!"—Judge.

CASH REWARDS OF LITERATURE

"In this day and time," says a Georgia editor, "the literary fellows don't wear their hair falling in curls over their shoulders. Why, they make enough now to have it trimmed as regularly as other human beings; and still our foreign critics say there's no such thing as 'American literature!'"—Atlanta Constitution.

HEARD HIM SAY IT YESTERDAY

What has become of the old-fashioned man who used to say, "I says, says I?"—Toledo Blade.

SKIM MILK AN EGG PRODUCER

A farmer in Massachusetts figures that skim milk fed to pullets is worth 1½ cents per quart. Having some milk that he could not sell he gave it to the pullets, and noticed that their egg production immediately increased. "When he found a market for the milk and stopped giving it to the hens, they began to lay less. He again started with the milk, and in a short time the egg yield had almost doubled."

ONE OF THE FEW WITHOUT COLD

"How many handkerchiefs a day are you using now?" asks the Boston Globe. I am using an average of a dozen a week and they are larger than postage stamps, too.—Lawrence American.

HORNE COAL CO.

MISREPRESENTING GREEKS

Bulgarians Appealing for Money in This Country as if All the Patriotism Was on Their Side

The following story is from Attentive, the Greek paper published in this country, and it is here reproduced because a certain Boston paper has grossly misrepresented the Greek cause, charging the Greek armies with responsibility for much of the strife with Bulgaria and in various other ways belittling the noble and patriotic part she took in the late war. Appeals are made in behalf of Bulgarians while reflecting upon the Greeks and to this the Greek reply is "Give the Bulgarians your money, we ask only your justice." The article follows:

For some time past the suffering and starving of Bulgaria have been called to the attention and sympathies of the American public with emphasis and persistence—great suffering and distress undoubtedly exists—the consequence of devastating war, and the unwillingness or inability of a grasping government and a people lacking both patriotism and co-ordination to grapple with conditions and bring order out of chaos. Let generous America give generously if she will—Greece does not ask for alms. She is voicing her protest against the accusations of wholesale atrocities, murder and rapine publicly and officially brought against her by Bulgaria, in an effort to excite sympathy, and most of all, to distract attention from the proved and acknowledged atrocities committed by her troops, which shocked and incensed the whole civilized world.

By declaring themselves the victims, not the perpetrators, of unspeakable cruelties and wanton destruction, they

have sought to "put the shoe on another's foot." Their activities in the broadcast dissemination of defamatory literature concerning the Greeks have reached every country on earth. In America they have been given unwarranted publicity and credit—unwarranted in that the dreadful results of Bulgarian ferocity are a matter of public record and are at the disposal of any one who will give the time to ascertain them.

Unfortunately the "lurid allegations" proved so colorful that they were seized upon with avidity by certain newspapers (a chain of yellow journals) and, with no thought of the injustice involved, set forth as facts to the public. The Greeks of America are righteously indignant—they have not asked help from any other country for their destitute thousands at home—they have co-operated in strenuous self-sacrifice to suffice to these pressing needs—but they do demand and expect common justice and a fair hearing from the American people. The very paper that is now conducting a whitewashing campaign and passing around the hat for Bulgaria printed in its columns not six months ago the following:

"With the exception of the Greeks, who observed the principles of humanity and Christian warfare, the Balkan peoples have shown themselves to be hordes of murderers and savages." Let the sympathizers with the "Heroes of the Balkans" urge their readers to help the stricken nation, but when it comes to denunciations of those responsible for the prevailing misery existing now, not only in Bulgaria but all over the Balkans, let them place the blame where it belongs or else pass silently over the whole tragic subject.

Mr. Pichon, minister of foreign af-

SAYS RHEUMATISM YIELDS TO THE GREAT KIDNEY REMEDY

I have been troubled with rheumatism for the last five years. Suffered with much pain in the limbs, back and feet and my joints have been badly swollen. Also suffered from constipation. Besides having a regular physician, I had tried every remedy without receiving the least benefit until I accidentally came across a bottle of Dr. Kilmor's Swamp-Root. I began taking it, never thinking it would help me, but must acknowledge it has done wonders for me. Have taken more than a dozen bottles and feel that it has been a God-send to me. I am recommending it to all my friends. Yours very truly,

IRA ALDRICH, Holyoke, Mass. Personally appeared Ira Aldrich and made oath that the statement subscribed by him is true, before me, D. J. HARTNETT, Justice of the Peace.

Letter to Dr. Kilmor & Co. Binghamton, N. Y.

PROVE WHAT SWAMP-ROOT WILL DO FOR YOU. Send ten cents to Dr. Kilmor & Co., Binghamton, N. Y., for a sample size bottle. It will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention The Lowell Sun. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

fairly, unqualifiedly confirmed the accusations and the protest of the Greek government against the Bulgarian army, when with the close of the second Balkan war, they began in their retreat the systematic slaughter of the Greek non-combatants in Macedonia and the looting and total devastation of the country.

Even the few Bulgarian inhabitants of the devastated area gave testimony to the insane fury of their constitutionalists, denouncing them as assassins and bandits who spared neither non-combatants nor their own countrymen. The wholesale and inhuman slaughter of the Mohammedan population by the Bulgarians during the Greco-Turkish war was officially confirmed by the British foreign minister. Nowhere is there even a question of "Greek atrocities."

"Forgive us, oh, ghosts of the Huns, if, in an undisciplined and barbaric Bulgarian atrocities, we have wronged you by comparing their deeds to the traditions of horror you have left to posterity," wrote Signor Luciano Magrini, war correspondent of the Messaggero of Rome and the Secolo of Milan, after his visit to Macedonia and Thracia.

The fiendish fury of the Bulgarian is peculiar to his race—the Tartar. He has no place among European nations. He is of the same stock as the Huns and vandals that overrun Europe.

For more than a thousand years, since he invaded and held the territory he now occupies, he has shown himself, once the surface of European civilization is scratched, to be the ferocious, blood-mad descendant of the ancestors whose boast and glory was war, torture, pillage and rapine, to whom the ideal of truth was a laughing stock and the oath of honor but a means of duping an enemy.

No European could have committed or permitted such deeds as Bulgaria has set to her discredit. At her door alone lies the incredible but only too well verified slaughter of a hundred and fifty thousand non-combatant Mohammedans—women and children—drowned, burned, shot or bayoneted in his gory advance against the Turks at Loule-Bourgas. He turned his murderous frenzy against the non-combatants of Greece when the armies of that nation were driving him from Macedonia. All this is no secret. By letters, photographs, official examinations national investigations, it is all verified. Like the Tartar that he is, the Bulgarian enjoys with stolidity from sheer lust of slaughter and national enthusiasm, and when defeated he raped, tortured and slew in sheer hysteria of revenge. The Greeks are the outcasts of European civilization of which Greece herself was the mother. Never in all her annals has she shown one evidence of

110-12 MERRIMACK STREET

Tartar brutality. On the contrary, a national spirit of force and idealism, a respect for the laws that were even the expression of the aspirations of the whole people have from time immemorial been hers. Her armies fought against an army, barbaric in its methods—she fought beside an army even more inhuman—yet she conducted her campaign according to the rules of warfare laid down by the nations of Europe.

Bulgaria now is awake to her disgraceful position among the nations. Shall she be permitted to endeavor to clear her garments from the stain of innocent blood by heaping false accusations upon her neighbors? What must we think of those who assist her in this last and most cowardly crime? The three hundred thousand Greeks of America call upon the millions of Americans, "Give the Bulgarians your money; we ask only your justice!"

POULTRY RAISING

Abundant Range a Great Advantage—Suggestions in Regard to the Colony System

That the great bulk of the poultry raised throughout the country is raised on farms where it is only a small part of the investment is the opinion of an expert on this subject, Mr. J. S. Jeffery. He believes that poultry raising, however, under proper conditions, is one of the most profitable of the small industries. Statistics gathered in the county of New York state showed that for the money invested poultry was more profitable even than the dairy cow.

Mr. Jeffery believes that the farmer has a great advantage over the town poultryman in having abundant range for his stock, where it should be able to get plenty of green feed and insects. Many farmers do not get as much advantage as they should from their conditions on account of a fear that the fowls will injure the growing crop.

Unless portable houses are used so that the fowls can be moved to suit the crops and conditions, it will be advisable generally to have a yard in which the flock may be confined when necessary. If portable houses are used, yards will not be necessary. Fowls ranging on a grain crop just coming up will kill out a great deal of it, while if kept off for a month or two till the young plants get a good start,

ARRESTED AS A LUNATIC

PROVES TO BE A FRENCH COUNT

Policeman John Dougherty while doing his duty in Merrimack street the other day met with a very strange experience. While walking up the street he noticed a man jumping and limping about the street without any shoes on. The man appeared well dressed, wearing a nice black dress suit and silk hat. But his white stockings which he wore made him look queer. Policeman Dougherty thinking either the man was crazy or else drunk, stepped up to him and asked him what the trouble was.

But instead of answering him the man began to shout and quarrel in an unfamiliar tongue to the officer. Pointing to his feet he made a jump and limped forth again. This was about all Officer Dougherty could stand and his "German" blood began to boil up. "Come back you critter! You belong in the crazy house and not on the street," shouted the popular bluecoat. Saying this he ran after this "crazy man" and seized him. Being only a short walk to the station the officer decided to walk the distance with the crazy man. When Officer Dougherty brought his dangerous captive into court, Captain Cook wanted to know the reason for the arrest, and Policeman Dougherty promptly pointed to the captive's feet and said "Your Honor, this man is crazy and is likely to be dangerous to anyone on the street. Why? I just caught him dancing an Irish jig in Merrimack street. Captain Cook after these charges, asked the man what he had to say and again the man began shouting and screaming in his foreign tongue. The captain finally decided that the man wasn't a very dangerous lunatic, but couldn't speak a word of English and so he sent for an interpreter. The interpreter, Mr. Jennings, was told the following story by the "proposed lunatic": This man was no other than the famous French Count Bond de la Cour, who had arrived here the other day with his family. The count was very indignant for being arrested as he was not doing anything or breaking the law. When he was told that policeman took him for a crazy man he laughed very much and told the following story: The Count is known throughout the wide world as a restless and very nervous man, being always on his feet, going back and forth, "traveling at all times," so that he can be called a real and natural born traveler. But of late the Count and family had been greatly troubled with sore feet, corns and callouses and he can't get shoes to fit him. He had just bought a pair of \$4 shoes for himself, but the boxes in the toes fell down and hurt his toes painfully. So saying, the Count heaped a pile of abuse against the shoes. Just then Phil McGuire, the doorkeeper, butted in, and asked the traveling Count if he ever tried a "Traveler Shoe." The Count said no. The famous Phil offered to take the Count, who readily accepted, to the Traveler Shoe store at 163 Central street who carry nothing but Traveler shoes. Their shoes are known to be "Union Made" Factory No. 2 and of solid leather only.

Traveler shoes are sold under strict guarantee. Of course you have heard of the Nell Brinkley shoe for ladies and the new "New Haven" last for men. Try them and get leather shoes and a perfect fit. By the way, Nell Brinkley comes here the latter part of the week. Ladies expect this famous woman with Nell Brinkley shoes on your feet. We carry a line of leather shoes for little folks at reasonable prices. We mean leather shoes, not pasteboard. Bring your little folks to us and our expert salesman will fit them perfectly. Our store is open at 7:30 a. m. All invited to inspect our 121 styles of the most up to date shoes in the world. The Traveler Shoe Store, 163 Central street.

they will not injure the crop, if precautions are taken to prevent large numbers ranging on a small area. Twenty hens to the acre may be allowed to run on a wheat or oat crop with no apparent injury to the crop if

what land one has in good condition. Although the man in town does not have the range for his flock, the waste from the kitchen can be made to help out with the feeding. In many cases these waste products are warmed separately and mixed with corn meal and wheat bran for the fowls. In many cases the man succeeding with a small flock makes the mistake of increasing the flock beyond the capacity of the yard. With the larger flock the kitchen waste forms such a small part of the feed as to be hardly noticeable, and he finds that his larger flock is not nearly as profitable as was the smaller one. It is quite common to find persons starting in a new place making a marked success at first and gradually doing poorer and poorer until a complete failure is reached, simply because the yards have been overstocked and not kept in a sanitary condition.

GETTING IT DONE RIGHT. "The manager is always preaching to me about his executive ability," said the office boy. "What is executive ability?" "That's the art of getting other people to do your work for you," replied the bookkeeper.—Cincinnati Enquirer.

DOCTOR'S DAUGHTER Stomach-Rite Tablets

For the cure of Indigestion, Gas, Dyspepsia, Intestinal Indigestion, Sourness of Stomach, Torpid Liver, Constipation, Heart-Pressure, Bloating, Vertigo, Headache, Catarrh of Stomach, Drowsiness, Tired Feeling, Nervous Indigestion, Liver Spots and all forms of Stomach and Liver Trouble.

Indigestion and Constipation Go Hand in Hand

WHAT YOUR NEIGHBORS SAY OF STOMACH-RITE

Suffered From Infancy

Dear Doctor's Daughter: I am writing to say that your Stomach-Rite has been used most successfully in my family. My son was afflicted with gastritis from almost his infancy, so badly that in frequent attacks every muscle of the body would stiffen. Several physicians prescribed for him to no avail, but in the use of Stomach-Rite tablets we believe we have found a complete cure, as he has not had an attack for over four months. Sincerely,

GEORGE SWEET, 41 Bowdoin st., Boston, Mass.

Stomach and Liver Trouble

Dear Doctor's Daughter: I have had dyspepsia for several years and suffered terribly, and nothing has done for me what your Stomach-Rite tablets have done. I also had a liver trouble, and cannot say enough in praise for your medicine.

BUY A BOX TODAY AND JUST ONE TABLET WILL CONVINCE YOU. FIRST CLASS DRUGGISTS EVERYWHERE

Thanking you many times, I am, truly yours,

ALBERT WOOD, 51 Gray st., Boston, Mass.

Cured Him

Dear Doctor's Daughter: I have suffered for years with a distressing stomach cough. Stomach-Rite tablets have cured me of it, and I can heartily recommend them to any one with a stomach trouble. Respectfully,

ANTHONY HENNESSEY, 124 Middle st., Lowell, Mass.

Cured of Indigestion and Constipation

Dear Doctor's Daughter: I must tell you how thankful I am to you for helping me. I had indigestion, accompanied by a sour stomach, headache and constipation. I took only two boxes of your Stomach-Rite tablets and feel that I am entirely cured. Yours truly,

MRS. A. J. ELLIOTT, 3 Washington st., Hanson, Mass.

Huge Engines Telescoped by Force of Head-On Smash on Michigan Road

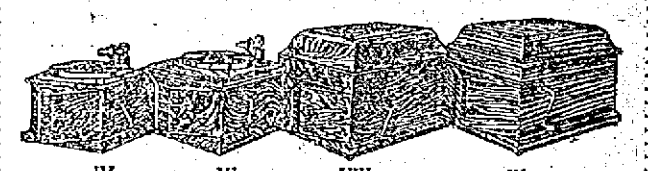

ENGINES IN DEATH CLASP ON MICHIGAN CENTRAL R.R.

JACKSON, Mich., Jan. 30.—The entire state has been aroused by the head-on collision between a passenger train and a freight on the Saginaw division of the Michigan Central railroad, which cost several lives and injured many. The two big engines smashed into each other with such terrific force that they were partly telescoped and were battered into junk. A federal inspection is under way. The accident was apparently due to a bad blunder on some one's part.

NEWS OF LEGISLATURE CHILD FALLS 20 FEET

PETITION REGARDING SALARY OF LATE JUDGE PRATT—FALL RIVER POLICE BILL POSTPONED

BOSTON, Jan. 30.—Before the committee on public health in the state house yesterday morning there was a long and serious contest on the dental examination bill. Other hearings developed points of interest that will eventually be displayed in open debate on the floor of the house.

Meanwhile the senate and house were involved in the routine reading of bills, committee reports and references to committees.

The Senate
Senator Morgan of Boston had the Fall River police bill postponed to Tuesday and then precipitated the first debate of the session by asking if the bill to appropriate \$25,000 for the directors of the port of Boston came out of the \$50,000 appropriated for the directors last year. Senator Ward of Rockland said that the appropriation for last year was to give the directors of the port of Boston \$75,000 to be spread over three years and this \$25,000 was the first annual payment under that act.

Senator Wells of Haverhill did not so understand it; he read the act to show that as framed the \$25,000 would be an additional appropriation to the \$50,000 already appropriated. Senator Fisher of Westford said that the act was plainly expressed and that it could not be construed under the act of 1913 as being in addition to that act. Senator Morgan thought that here was grave doubt as to the question raised and on his motion the matter went over to Tuesday next.

The House
Favorable report of the committee on legal affairs on bill of Representative Haines of Medford that if an appeal is taken from any judgment with reference to the maintenance of illegitimate children, the appeal shall not vacate the judgment as accepted by the judge.

The house rules committee reported leave to withdraw on bills of Benjamin F. Haines for an investigation of insane asylums, and of Roland D. Sawyer for an annual recess committee to investigate public institutions and the reports were accepted.

At the request of Mr. Booth of Fall River action was postponed on the report of the committee on elections recommending that William J. Nephew be declared the duly elected representative from the Sixth Middlesex district until next Tuesday.

Late Judge Pratt
A petition was submitted by Mr. Nephew of Lowell that the attorney and paid from the treasury of the commonwealth to the widow of Nathan Dexter Pratt, late a judge of the superior court of the commonwealth, who died on Jan. 15, 1914, the salary he would have received had he lived until the end of the current year.

GRAB FOR DOLL MAY COST LIFE—LANDS ON BRICK PAVEMENTS, FRACTURING HER SKULL

BOSTON, Jan. 30.—In an attempt to reach for her doll, which had fallen from her hands, Gertrude, the four-year-old daughter of Mr. and Mrs. Christie Jensen of 49 School street, Everett, lost her balance from the third floor piazza at her home yesterday afternoon and landed 20 feet below on the brick pavements, fracturing her skull.

The child is lying in a dying condition at the Whidden Memorial hospital, where little chance is held for her recovery. The mother, glancing out of the window, saw her daughter hurt through the air and land upon the pavements below.

She rushed down the stairs, but met Fred Bradley of 733 Tremont street, who picked up the small girl and was carrying her into the house. The girl had narrowly missed him in her fall and had landed upon her doll at his feet.

As the child was badly injured the police ambulance raced with the dying girl to the hospital. An operation was performed upon her skull, but it is believed that her life cannot be saved. She is the only daughter.

STEAMSHIP RATE WAR

IS ON FOR BOSTON STEAMSHIP PRICES ARE THE FIRST TO BE SLASHED

BOSTON, Jan. 30.—The transatlantic steamship rate war is on for Boston, according to an announcement made here yesterday.

Beginning Monday, the slashing of rates will start in steamer prices. The first break is to come in quotations to and from the European continent.

The British steamship lines announce a reduction of \$4.50 on eastbound tickets and \$2.50 on westbound. These cuts bring prices down to \$23 for a steerage ticket to the continent from Boston, and \$27 for the same class passage from there to this port.

As a bid to secure business, the lines have increased the commission to agents from 12 to 15 on continental steamer traffic. This increase will probably result in a protest from British agents, who have not yet been offered an advance.

The steamship lines involved are the Hamburg-American, against the North German Lloyd, White Star, Cunard and Allan. It is firmly believed in well informed circles that before the difficulty is settled between the fighting lines others will be drawn into the rate slashing. British ports are understood to be the next to receive cut prices offered on steamer business.

ALLEGED SLAYER HELD

PROVIDENCE, R. I., Jan. 30.—The first prosecution here under the Mann white slave act was begun yesterday with the arraignment before a federal commissioner of Joseph Pezzullo, charged with taking Florence Wylie of this city to Boston for immoral purposes.

Pezzullo is the son of a contractor. He is under bonds of \$500 for appearance in Boston February 3. The arrest was made on information furnished by Miss Wahl's mother regarding the alleged parentage of a child.

SMALLPOX IN BALTIMORE

BALTIMORE, Md., Jan. 30.—Twenty-three cases of smallpox, many in advanced stage, were reported by the Baltimore county health authorities yesterday. Of this number 21 were found at Warren, a mill village on the Gunpowder river, 15 miles north of Baltimore.

Mr. Meyer, several days ago, charged that if the copper strike in Michigan should be lost, it would be due to the inactivity of the executive board of the American Federation of Labor. Mr. Gompers declared it would be impossible to levy an assessment for the copper mine strikers of Michigan and denied that the organization is "reactionary, fossilized, worm-eaten and dead." He also repudiated the statement that the executive council is made up of "boozefighters."

"Of the 11 men who compose the executive council, eight are total abstemious who never touch a drop of liquor. Two of the men are no moderate drinkers as any man who ever takes a drink for myself, I take a glass of beer when the day's work is done. I challenge any man to prove otherwise than that I am as good a man, mentally and physically, as ever was and I reached my 55th year last August."

Mr. Gompers denied that the federation had placed obstacles in the path of industrial unionism, but, on the contrary, he said, had encouraged it wherever possible and had urged the amalgamation of kindred trades.

Mr. Gompers then asked Meyer if his speech had been correctly reported. Recalling an unfortunate reply, Mr. Gompers then turned to the charges that the executive board had been inactive in regard to the copper strike.

"I have given and will continue to give all that is in me to further the strike of the copper miners," he declared. "No accusation could be more unjust than that of Mr. Meyer. Talk about the American Federation not raising money. You may not know that the miners pay only nine cents a year to the American Federation of Labor. That is all the other organizations affiliated with the federation pay also. Do you think we can accumulate a large defense fund on that tax?"

RUN ON NEW YORK BANK
NEW YORK, Jan. 30.—Millions of dollars of the resources of city financial institutions were offered to the bank for savings yesterday, when depositors began a run for which the bank's officers could not account, except that it might have resulted from malicious rumors circulated by enemies.

The bank, founded in 1812, is reputed to be one of the strongest in the state. After Trimble, its president, said banking firms had offered him sums aggregating \$50,000,000 in case the run should threaten to drop at the ready assets, but that he had informed them all that not a cent was needed.

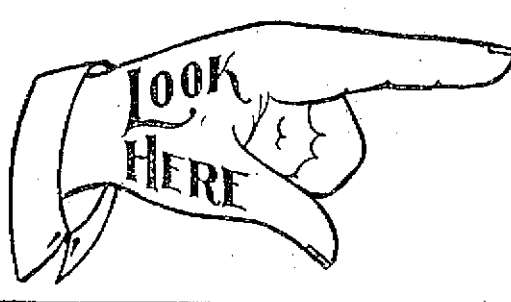

Several hundred depositors who requested their money yesterday were paid promptly.

BLACKHAND LEADER GUILTY

NEW YORK, Jan. 30.—A verdict of guilty was reached in five minutes last night by the jury which heard the case of Angelo Favara, a 23-year-old Italian boy charged with having been the leader of a blackhand gang which terrorized the East Side with bomb outrages. Favara was immediately taken to the Tomb.

A. G. POLLARD CO.

THE STORE FOR THRIFTY PEOPLE

The response to yesterday's underprice announcement was far ahead of any previous LOOK HERE SALE. Even better than our expectations—and we anticipated pretty strongly. For the lists were large and the prices more attractive than ever before. Two days more and this sale will past into history. Don't miss it. The index signs point to the best values ever offered in Lowell—Money savings you can't afford to discredit. Come to the LOOK HERE SALE.

BASEMENT

UNCONSCIOUS IN FIELD

Young Man Found at Tewksbury Had Walked From Springfield on Way to Concord, N. H.

A young man who refused to give his name was found in an unconscious condition in Tewksbury Centre a few days ago, and after he was brought to consciousness he told a pathetic story as to how he walked from Springfield to Tewksbury, he being on his way to Concord, N. H., where he expected to secure employment with the assistance of friends in the New Hampshire city. The young man who was about 22 years of age was seen wandering on a vacant lot by Deacon Eben Foster and Alden Haines, the town blacksmith. Suddenly he was seen to fall and when the men reached him he was unconscious. He was removed to the

LOCKED IN MINT VAULT

PHILADELPHIA, Jan. 30.—Facing what gave every indication of a slow death by suffocation, William Taylor, an employee of the United States mint, was rescued yesterday afternoon from one of the massive gold money vaults in the basement of the mint, where he had been accidentally caught by the sudden swinging of the doors. His rescue was effected after one of the workmen at the mint succeeded in boring a small hole through the lock on the door and through this passing a piece of paper on which was written the combination of the vault.

THE OWL THEATRE

As a good picture to follow the big attraction of the last two days, the management has secured a two-reel offering, telling a tragic story of love and sacrifice. "The Minister's Daughter" is a worthy offering and should be seen by all lovers of real well-acted photo-plays. The cast for this production is a picked one, and the acting is superb. Another two-act feature and four other pictures will be shown on the screen, and the Owl will show one of the best bills in town. This theatre has them talking.

If you want help at home or in your business, try The Sun "Want" column.

OTHER EXPENSES BOMB THROWER

Of New Haven Road Reported That Leader of Blackhand Gang Wants to Confess

BOSTON, Jan. 30.—In the absence of several prominent witnesses whose attendance had been requested, including former President Charles S. Mellen and former Vice-President Timothy E. Byrnes of the New Haven road and Mayor John F. Fitzgerald, the inquiry of the public service commission into the "other expenses" of the New Haven road today dealt again with newspaper articles.

Howard L. Ralph, the local manager of the American Press Association, said that articles on the New Haven road were sent to 315 papers in New England on stereotype plates, without expense to the papers. The New Haven road paid the American Press Association a certain fixed rate per line for handling the matter. Mr. Ralph was unable to tell the total amount received by his company from the New Haven road. The articles dealt with the activities of the road, numerous stories about Mr. Mellen and various projects of the company.

Frank Nevin, employed by the Boston Journal, testified that he had examined the files of that paper from December, 1912, to June, 1913, and filed with the commission an exhibit showing, editorially, pictures and articles favorable or unfavorable to the New Haven, Mr. Mellen and Louis D. Brandeis, an attorney prominent in criticism of the road. The exhibit was admitted in spite of a protest by counsel for the railroad.

600 FLEE FROM FIRE

NO LOSS OF LIFE IN \$300,000 FIRE IN CHICAGO—STARTED FROM AN EXPLOSION

CHICAGO, Jan. 30.—There was no loss of life in the \$300,000 fire which destroyed the New Bedford and the smaller apartment building in Oakwood boulevard here last night, so far as search of the ruins disclosed today. The fire started from a boiler explosion and 600 tenants were driven into the street.

CASWELL OPTICAL CO.

Registered Eyesight Specialists and Manufacturing Opticians

11 Bridge Street Lowell, Mass.

NEW YORK, Jan. 30.—Angelo Sylvestro, the young bomb thrower, reported leader of a blackhand gang that terrorized the East Side, lost all his bravado this afternoon and persuaded the court to postpone his sentence until he could see the district attorney. Although Sylvestro after his conviction last night went back to his cell snarling and threatening vengeance it was reported today that he wanted to make a confession and after consultation with the prisoner's attorney Judge Rosalsky deferred his sentence until Feb. 15.

Judge Rosalsky had signified his intention of giving the youth the maximum penalty, six years and a half in prison and a \$1000 fine. The police believe that Sylvestro can give evidence that will enable them to catch other members of the gang responsible for nearly a hundred bomb explosions.

LOCAL NEWS

There will be a month's mind high mass of requiem tomorrow morning at the Immaculate Conception church at 8 o'clock for the repose of the soul of Thomas H. Lawler.

Charles A. Deland, buyer for the white goods department of the A. C. Pollard Co., has returned from a week's trip to New York, where he was entertained by the International president of the Musicians' association, Joseph N. Weber.

The regular meeting of Branch St. Andre, A. C. F., will be held next Thursday evening at Grattan hall at which time the installation of the recently elected officers will be held. At the conclusion of the meeting the second game tournament with the members of Branch Pawtucketville will be held and the contest will prove most interesting inasmuch as the latter won the first match.

A successful whist and social was conducted last night at the Notre Dame de Lourdes parochial school hall by the pupils of the school and the receipts which were very substantial will be devoted to the church fund. A lively game of whist was enjoyed and at the close of the tournament a varied entertainment program was rendered by the following: Armand Boulard, Edouard Trudel, E. Boulard, Aime Gaudy and Emilie Langlais. Interesting remarks were made by Rev. Leon Lamotte, O. M. I., pastor; Rev. J. H. A. Barrette, O. M. I., and Rev. Joseph Magnan, O. M. I.

MILLIONAIRE BURIED

FUNERAL OF FRANK W. JONES ATTENDED ONLY BY HIS SON AND HALF DOZEN EMPLOYEES

NEW HARTFORD, Conn., Jan. 30.—Without committal services of any character and attended only by his son Frank and a half dozen employees, the body of Frank W. Jones, eccentric millionaire resident of the town and formerly prominent in the South American telephone field, who died Tuesday, was buried today in a rock hewn grave on a granite crag crowning the range of hills running through his estate. This was in accordance with his expressed wishes. Before being lowered into the grave the mahogany casket had been sealed in a steel vault. The tomb was closed with a concrete covering.

FUNERALS

WALKER.—The funeral of Mrs. Margaret Walker took place yesterday afternoon from her residence, 42 St. Vernon street. The services were conducted by Rev. Samuel Jobe, curate of St. Anne's Episcopal church. The bearers were all relatives of the deceased. Burial was in the family lot in the Mason cemetery. The funeral arrangements were in charge of Undertaker George W. Healey.

PARKER.—The funeral services of Frederick H. Parker were held at his home in Billerica Centre yesterday afternoon, and were largely attended. The services were conducted by Rev. Lyman V. Rutledge, pastor of the Congregational church of Billerica Centre. The bearers were Messrs. Stephen H. Parker, J. N. Parker, F. G. Parquhar, George Parker, E. A. Bartlett and F. J. Marley. Burial was in the family lot in the North cemetery where the burial services were read by Mr. Rutledge. The flowers were many and beautiful. The funeral was under the direction of Undertakers Young & Blake.

WEBSTER.—The funeral services of Enoch Webster were held at his home, 333 Mammoth road, yesterday afternoon. The services were conducted by Rev. George W. King, pastor of St. Paul's M. E. church. The bearers were Messrs. F. Smith, Walker, Smith, Isaac Washburn and William Smith. Burial was in the family lot in the Eden cemetery. The funeral was under the direction of Undertakers Young & Blake.

DUBOIS.—The funeral of Miss Marie Dubois took place this morning from her home, 75 Tremont street. Solemn high mass of requiem was celebrated at 9 o'clock at St. Joseph's church by Rev. C. A. Paquette, O. M. I., assisted by Rev. Arthur Bernache, O. M. I., and Rev. Armand Barre, O. M. I., as deacon and subdeacon. The bearers were D. Ducharme, Leon Marchand, F. Gato, H. Ducharme, Wilbert A. Rousseau, Notre Dame de Lourdes sodality, of which deceased was a prominent member, was represented by the following delegation: Misses Lena Leht, Emilie Aubert, Agnes Lemay, Florida Rousseau, Leontine Beaulieu and Emma Jacques. Among the out-of-town relatives attending the funeral were the following: Mrs. Simen Jacques, St. Antoine, Que.; Alfred Desjardins, St. Croix, Que.; Mrs. John Jacques, Ashton, Mass.; Mrs. Telephone Lamontagne, Mrs. J. Boisjoly and Mrs. Napoleon Lamontagne, Williamstown, Conn.; Mrs. E. E. Menchever, Manchester, N. H.; Mrs. Omer Dubois, Gonic, N. H.; and Miss L. Crocneau, Lawrence, Mass. Burial was in St. Joseph's cemetery where the committal prayers were read by Rev. Charles Desjardins, O. M. I. Funeral arrangements were in charge of Undertaker Amedeo Archambault.

MICHEL.—The funeral of Mrs. Hector Michel took place this morning from her home, 52 Elm street. Solemn high mass of requiem was celebrated at 9 o'clock at Notre Dame de Lourdes church by Rev. J. E. A. Barrette, O. M. I., assisted by Rev. Leon Lamotte, O. M. I., as deacon and Rev. Joseph Magnan, O. M. I., as subdeacon. The bearers were John B. Carboneau, Octave Leblond, Helonie Merle, Ephrem Lessard, Azarie Thibault and Edmund Malle. Among the floral offerings were pieces from the following: Hamilton dress room, family, Mrs. Lawrence and friends. Burial was in St. Joseph's cemetery where the committal prayers were read by Rev. Charles Desjardins, O. M. I. Funeral arrangements were in charge of Undertaker Joseph Albert.

CHARLTON.—The funeral of the late Mrs. Catherine Charlton took place this morning at 9:45 o'clock from her home, 108 Fayette street. The cortege proceeded to the Immaculate Conception church where at 10 o'clock a solemn high mass of requiem was sung by Rev. Owen McQuaid, O. M. I., assisted by Rev. Lawrence Tighe, O. M. I., as deacon and Rev. John O'Brien, O. M. I., as subdeacon. There were many beautiful floral tributes. The bearers were Anthony McCarran, James McLean, Patrick Nestor, William Campbell, Henry Deering and James Kilian. At the grave Rev. McQuaid read the committal prayers and the burial was in St. Patrick's cemetery in charge of Undertakers J. F. O'Donnell & Sons.

KANE.—The funeral of the late Mrs. Elizabeth A. Kane, wife of John J. Kane, took place this morning at 9:30 o'clock from her home, 180 Smith street, and was largely attended by sorrowing relatives and friends. The cortege proceeded to St. Peter's church where at 9 o'clock a mass of requiem was sung by Rev. John Burns. There were many beautiful floral tributes, including a pillow inscribed "Rest in peace" from the family, and pieces from Mr. and Mrs. Bert Fernley, Mrs. Flanagan and family, Mr. and Mrs. John Brennan and family, Mr. and Mrs. Peter Flanagan, Mr. and Mrs. W. H. and family, Mrs. McVey, Mrs. Rogers, Agnes Burns, the Hickson family, Mr. and Mrs. Joseph Fernley and family, Mr. and Mrs. Bernard Brady and family, Mrs. Staples, Mrs. Reynolds, Mrs. St. Louis, Mrs. Moore and family, Mrs. Skelton. The bearers were John Fernley, James Shugrue, John Kane, Alfred Grant, John Connolly and Frank Hickson. At the grave Rev. Fr. Burns read the committal prayers and the burial was in St. Peter's cemetery in charge of Undertakers J. F. O'Donnell & Sons.

FUNERAL NOTICES

KEITH.—The funeral of Albert Edward Keith will take place Saturday afternoon at 2:30 o'clock from the home of his parents, 261 Third street. Interment will be in St. Patrick's cemetery in charge of Undertaker James W. McKenna.

MAGUIRE.—The funeral of John J. Maguire will take place Saturday morning from the chapel of J. F. O'Donnell & Sons. A high mass of requiem will be sung at St. Patrick's church at 9 o'clock. Burial will be in St. Patrick's cemetery in charge of J. F. O'Donnell & Sons.

DEATHS

HILL.—John D. Hill, a veteran of the Civil war, died this morning at the home of his daughter, Mrs. John E. Willard, 42 Bellevue street, aged 77 years. He was a member of St. John's and St. William's churches, and one grandson, Harry J. Willard.

HOSPITAL FUND GROWING

Campaign for St. Elizabeth's Gains in Enthusiasm — List of Local Contributors

The local enthusiasm in the campaign in aid of St. Elizabeth's hospital, Boston, is only a mild reflection of that which obtains among the leaders of the movement in that city, for there the mercury in the big thermometers that register the rising funds, is soaring rapidly. Already over \$75,000 has been subscribed and if the proportionate increase continues as from the first, it is expected that over \$200,000 will have been collected this evening. Many of the leaders among the business men of Boston are striving might and main to reach the desired mark, and there is a great deal of effective rivalry among the teams that make up the collection force. Mayor Fitzgerald is one of the most interested supporters of the movement and yesterday he declared that he intends to put in the greater part of Monday, Tuesday and Wednesday in furthering the interests of St. Elizabeth's. When the parish reports come in from the outlying districts, the mercury will rise beyond expectations. Already Fitzgerald has reported over \$2000. Many of the pastors of the archdiocese have gone in individual contributions, among them being Dr. Kelleher of St. Peter's and Monsignor O'Brien of St. Patrick's this city, who each contributed \$1000. Lowell is not as yet represented in the lists of the Boston collection, but when the individual parishes are heard from by the end of the week, or the beginning of next week, there is no doubt but that the \$1000 pledged, will be added to the grand total of the archdiocese.

Local Campaign
The leaders of the various sub-committees in charge of the local collection campaign in aid of the new St. Elizabeth's hospital, met last evening at campaign headquarters, 300 North Main street, in the Chamberlain building, with Chairman Humphrey O'Sullivan in the chair. Practically all the priests who have charge of the work in the respective parishes were present and the reports from all parishes were very encouraging. These parishes that had reported a total of \$152.25 for the first day of the collection brought their contributions up to date with an additional sum of \$115.50, making the total reported at least \$267.75. As only three of the parishes have reported thus far it is expected that there will be a surprising increase in the report of Saturday evening by which time the several parishes will have their lists of contributors ready. The proportionate share of the amounts reported last evening from the different parishes

sent in a list of their collections to date are as follows:

St. Patrick's Parish
Humphrey O'Sullivan, \$100.00; Miss Ryan, \$1.00; Mrs. Margaret Queenan, \$1.00; Dennis Flynn, \$2.00; John J. Sullivan, \$4.00; Miss Minnie Keefe, \$1.00; John Dacey, \$20.00; John Callahan, \$2; Nora Lowright, \$2; Mr. and Mrs. Monney and Mary, \$10.00; Edward F. Saunders, \$10.00; Edward P. Siatore, \$5.00; Mrs. Mary Shea, \$2.00; Dennis J. Prondorgast, \$2.00; Mr. Thomas Mahoney, \$25.00; Grace Dunn, \$1.00; Mrs. Sarah A. Murray, \$1.00; John P. Saunders, \$100.00; Miss Nellie Donovan, \$1.00; Miss Hannah Ashe, \$1.00; Edward Murphy, \$5.00; Minnie Savage, \$1.00; Edward Boland, \$1.00; Dr. P. J. Neenan, \$5.00; Edward, \$5.00; Mr. Paul Green, \$1.00; Henry T. Gilday, \$1.00; Mrs. Margaret Sullivan, \$2.00; Mrs. James P. Kelly, \$2.00; Mr. Jeremiah Ryan, \$1.00; Mrs. James O'Brien, \$1.00; Miss Margaret McDonald, \$1.00; Mrs. James Lyons, \$2.00; Mr. Patrick Sullivan, \$1.00; Mr. James Carney, \$2.00; Mrs. D. P. Sullivan, \$1.00; Miss Mary Cowling, \$1.00; Miss Agnes T. Courtney, \$1.00; Friend, \$5.00; George J. Lawright, \$1.00; Mrs. Alice, \$1.00; Miss Mary, \$1.00; Mr. James Howe, \$1.00; Dennis J. King, \$1.00; Mary E. Murray, \$1.00; Margaret M. O'Connell, \$1.00; John Mulvey, \$5.00; Andrew Roach, \$5.00; Martin

Copley, \$2.00; John Donahue, \$1.00; Friend, \$5.00; St. Patrick's, \$25.00; Edward Hamill, \$2.00; Michael J. Burns, \$1.00.

Sacred Heart Parish

RAZOR ARBITRATION TREATIES
WASHINGTON, Jan. 30.—The senate foreign relations committee voted this afternoon to recommend immediate ratification of general arbitration treaties with Great Britain, Japan and other nations, 25 yeas in all. These have been pending since last summer when their original five year limitations expired.

LINGER LONGER CLUB

ENJOYED TURKEY SUPPER AT ST. JAMES' HOTEL LAST NIGHT—GOOD ENTERTAINMENT

The Linger Longer club had a very comfortable as well as enjoyable "out door" at the St. James' hotel last night, and the members were a unit in declaring that the proprietor of the St. James' hotel, John J. Dawson, is the king of entertainers. There were 12 members of the club present, and Chief George Cronetta was responsible for one of the best turkey dinners ever served in Lowell. Not a thing was missing, and the scalloped oysters were the best ever. The following members were present, with their appetites: Eddie Shea, James Spillane, Michael Markham, Joseph Burns, Timothy Donohue, John J. Dawson, Eddie Morris, John Lee, Anthony Hogan, James Hogan, Terrence Lennon and Freddie Meley.

After the turkey had been discussed, Mr. Dawson gave a very interesting talk on indoor sports. Mr. Markham entertained with a story of his coast to coast trip. Terry Lennon read a paper on city governments, past and present, and Eddie Shea favored with song and story. Other features of the entertainment included a duet by Joe Burns and Johnnie Lee of their own composition, entitled "Wonder if the Governor Will Come." The evening was one of great enjoyment and Miss Host Dawson assured his visitors that they could play a return engagement any old time.

ALPINE CLUB EVENT

Reception and Presentation to Mr. Joseph Farrell of the Treasurer's Office

Joseph Farrell, assistant treasurer of the city of Lowell, who also handles the finances of the Alpine club, of which he is a popular member, was honored a reception last night by his fellow members of the club, just before he has rounded up ten years of

efficient service in the capacity of treasurer of the club.

The affair took place at the club's headquarters in the Fiske building, and the majority of the members had made it their duty to be on deck to honor their faithful treasurer. In behalf of the club, William A. Hogan, Esq., presented the guest of the evening, a handsome cut glass punch bowl, and complimented Mr. Farrell for his long term of office. He spoke of the work of Mr. Farrell and the valuable service he has rendered the organization, and concluded by extending his best wishes as well as those of the members of the club saying he hoped the efficient treasurer would round up ten more years in the same capacity. Mr. Farrell responded in appropriate terms and expressed his gratitude in being so highly honored by his comrades and assured them that what he has done for the organization was simply his duty. He said it was his delight to be associated with such good fellows as compose the membership of the Alpine club and thanked them all for their valuable gift. The evening passed in jollification and the members partook of a dainty repast, at the close of which a varied entertainment was given by the talent of the club.

MATRIMONIAL

A very pretty wedding was solemnized Wednesday evening at the rectory of the Immaculate Conception church when Miss Anna J. Warensick and Mr. James F. Winn were united in marriage by Rev. Fr. Tighe. O. M. L. The bride wore a gown of white crepe de chine with pearl trimming and carried Killarney roses. The bridegroom wore a tuxedo and carried pink roses. The groom was attended by Mr. John McKel, his cousin. After the ceremony a delightful supper was served at the home of the bride's aunt, Miss Margaret Flynn, at 163 Concord street, Mr. and Mrs. Winn received many beautiful gifts. They left on the 8:55 train for Boston.

The many friends of Justin H. Kimball, floor walker in the Palmer street department of the A. G. Pollard Co., will be grieved to learn he is confined to his home in Humphrey street, suffering from blood poisoning.

3 ALARM FIRE IN LYNN

Owens Block Burned and Shoe Factories Threatened - Loss Estimated at \$75,000

LYNN, Jan. 29.—Many big shoe factories on Broad and Washington streets, containing stock and machinery valued at several millions, were seriously menaced early last night by a spectacular fire which totally destroyed the three-story wooden block of John Owens & Co., shoe manufacturers at 32-35 Broad st., badly damaged the building of the Suffolk garage at 35-37 Suffolk st. and caused considerable damage to tenement houses at 29 and 41 Suffolk street.

Estimates of the losses on the buildings which were burned ranged from \$50,000 to \$75,000, but it is believed that numerous shoe manufacturers in the eight-story Really building No. 2, at Washington and Broad streets, suffered damage of at least \$25,000, because of the water which flooded the rear section of the building, when automatic sprinklers were set in operation.

Occupants and Losses
The occupants of the Owens Building were the shoe company, the Lynch Heel company, which carried insurance of \$10,000 and whose stock is a total loss, and the Kellwell shoe firm, which lost the stock of \$25,000. In the Suffolk garage, three automobiles were practically destroyed, and the rear end of the one-story building was burned.

A dwelling house at 39 Suffolk street, occupied by the families of Patrick

COLLISION AT SEA

Continued

was near the collision, may have picked up more survivors and others may have been found by the revenue cutter Quonag, which was hurried out to the scene. The Nantucket will arrive in Norfolk about noon, according to her latest reports.

Steamers Met in Fog

No details of the accident were available today. Wireless operators all along the coast, groping through the fog for some definite news of the lost and the saved, could learn only that the Monroe, bound for New York, on a regular trip from Norfolk, met the Nantucket in a fog about 2 o'clock. When the two ships separated the Monroe went down and the Nantucket with damaged by and began the work of rescue.

The Nantucket's boats scoured the waters and are said to have picked up 85 survivors. Early wireless reports did not say what members of the crew or first or second class passengers were among the number.

First news of the collision trickled in here through the wireless operator at Virginia beach.

The Monroe, a passenger liner which also carried freight, put out of here at seven o'clock last night on a regular trip to New York. The lane of the coastal steamers between these two ports is comparatively close to shore and would clear right they never are out of sight of land.

Head-On Collision

The Nantucket from Boston for Norfolk with freight would ordinarily have been running to seaward of the Monroe but on early reports indicated the positions of the ships.

A dense fog enveloped the entire coast and mariners here do not doubt that the two liners met in a head-on collision. The position of the ships, which was reported about 15 miles southwest of the winter quarters light-house would have been just as indicated. One wireless report which said Captain Johnson of the Monroe was among the rescued leads to the belief that the Monroe sank very rapidly and that her passengers, rescued in the dead of night by the shock of a collision, had little time to prepare for leaving a ship rapidly sinking in icy waters. The Nantucket, a much lighter ship than the Monroe, about half her tonnage, probably rammed a hole in the passenger liner's iron hull that flooded her lower compartments and sent her down by the head in much less than an hour.

"S. O. S." Cries Sent Out

The Old Dominion liner Hamilton, bound down from New York for Norfolk could not have been far from the scene when the operators from the Nantucket and the Monroe began sending "S. O. S." calls, some of which reached as far as Boston and also were relayed up and down the coast by the stations. Almost immediately every agency of rescue within striking distance was set in motion.

Within a half hour the revenue cutter Onondaga was pointed toward the coast but as fog was so dense that fully five hours ran away for her she could hope to do little more than all the Nantucket or stand by for the fog to lift with daylight in the hope that more of the Monroe's passengers or crew might have got away in boats and were missing in the night.

Early today, when both liners here were pressing Captain Boyer of the Nantucket for a list of the survivors by which to check their passenger list.

The Monroe had a capacity of 243 first and second cabin passengers. She usually carried a crew of 81 men. At this time of the year Captain Leyland estimated there was always a stamp in the passenger traffic accounting for the small number aboard at the time of the accident.

The property loss, Captain Leyland thought, would be about \$225,000, exclusive of the freight carried and baggage of the passengers and crew.

MERCHANTS AND MINERS STEAMERS NANTUCKET SAILED FROM BOSTON ON WEDNESDAY

BOSTON, Jan. 30.—The Merchants and Miners steamer Nantucket, which collided with the steamer Monroe early this morning off the Virginia coast, sailed from Boston at 6 o'clock Wednesday afternoon for New York and Baltimore. No information as to the number of passengers she carried or their identity was available before the local office of the company was opened today.

Charles H. Maynard, the Boston agent of the line, had received no word from the Nantucket, which was in command of Captain Perry.

The Nantucket has been in Baltimore-Boston service for a number of years, colliding with a coal barge off Chatham on July 4, 1905. No one was injured but a big hole was torn in the side of the steamer.

OFFICIAL CONFIRMATION OF SINKING OF STEAMER MONROE

GIVEN BY PRES. OF LINE

NEW YORK, Jan. 30.—Official confirmation of the sinking of the steamer Monroe was given early today by H. B. Walker, president of the Old Dominion S. S. Co., in a telephone message to officers of the line here from Washington.

"It's the first accident we ever had," Captain Leyland, one of the fleet officials, said as tears sprang to his eyes, "and we can only hope that the loss of life is not as great as reported."

No notice of the collision was received at the offices of the Old Dominion line here except through President Walker.

SICK HEADACHE

Pinklets, the New Laxative, Gives Quick Relief in Most Cases

As a rule a sufferer from sick headache can tell hours in advance when an attack is coming on. When the trouble is caused by a gradual accumulation of poison generated in the digestive organs and when a certain point is reached this poison produces nausea and the attack follows.

In very many cases the use of a proper laxative before the condition of prostration is reached will remove the poisons from the system and the attack will be avoided. Pinklets are a daily laxative, they are sugar coated, and they act so gently that they are the ideal laxative to use in correcting a tendency to sick headache. They do not upset the digestion, do not grip and have no unpleasant effect to make them objectionable to the extra sensitive sick-headache sufferer. They do not do all in such cases. For complete information regarding the treatment of sick headache send for a copy of the Pinklet book. It is free.

Your own druggist can supply you with Pinklets in 25-cent bottles.

THE CHEAPEST PLACE TO BUY THE VERY BEST

HOW TO GROW TOMATOES

ADVICE ON HOW FARMER MAY MAKE CROP YIELD THE GREATEST PROFIT

The annual pack of tomatoes in the United States is probably not less than 10,000,000 cases, and the growing of tomatoes for canning is, therefore, an important agricultural industry.

A large part of the crop for this purpose is grown by the general farmer rather than by the specialist, and as a rule not enough care is taken with it to yield the greatest profit that it is capable of. Many growers believe that it is especially necessary that greater care be exercised in growing the young plants, and that millions of inferior plants are now set, either as the result of poor seed or unskillful growing, reducing greatly the yield and profit from the crop.

The safest and surest way of growing tomatoes is by the use of hotbeds. These can be constructed of two-inch planks nailed or bolted together in the form of a rectangular box, generally six feet wide and as long as desired. The box should be made so that the earth will slope one inch to the foot, with the back end six inches higher than the front. This slope allows the sun's rays to enter more freely and allows the water to run off quickly. The bed should be located on a southern slope if possible, and run east and west, with the lower side of the frame toward the south. The beds should also be near the house and have a plentiful supply of water in order that the plants may be carefully and easily cared for.

Common stable manure contains no litter, mixed with from one-third to one-half its bulk of straw and leaves, is used for providing the

FRESH AIR AND HEALTH

Mental work calls an unusual supply of blood to the brain; the process of digestion calls the blood to the stomach. Brain work immediately after a hearty meal often causes indigestion because the brain has first call on a supply of blood that should be helping the stomach.

Whereof in the economy of the body, work is to be done there is a demand for bright, red blood. Thin blood or blood that is impure will not do because it is the oxygen carried by the blood that does the work and oxygen-bearing blood is bright and red. This life-sustaining oxygen is taken up by the blood from the air which it meets in the lungs. Hence the great need of fresh air every hour of the day and night. But fresh air the blood cannot take up more oxygen which it gives. Dr. Williams' Pink Pills enable the blood to take up more oxygen, which it gives. This corrects the impure blood, and the result is of thin, impure blood.

You must have pure, rich blood to enjoy complete health. A booklet "Building Up the Blood" will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. All druggists sell Dr. Williams' Pink Pills.

MR. and MRS. F. N. LABELLE
Optometrists and Mfg. Opticians
306 MERRIMACK STREET

from Washington, who kept in communication with Norfolk.

Captain Leyland said the Monroe carried 18 first cabin and eight second cabin passengers and a crew of 70. He said that President Walker had confirmed press reports that of the 121 persons aboard 86 were rescued by the Nantucket. These figures, Captain Leyland said, probably would be subject to alteration and he expressed the fear that the death list would reach more than the 30 reported lost.

President Walker's message to his office here said that the Nantucket was proceeding slowly toward Norfolk and would reach that port about 10 o'clock indicating that she, too, suffered some damage in the collision.

\$225,000 Property Loss
The Monroe was built at Newport News, Va., in 1903. She was 4704 gross and 2505 net tonnage. Her length was 345 feet.

SOCIAL AND FRATERNAL

Division 25, A. O. H., met in regular session last night in Hibernian hall with Patrick J. McCann, the president, in the chair. It was voted to celebrate the 21st anniversary of the organization, which comes on April 30, by holding a banquet and entertainment in the meeting rooms. The following committee was appointed to make arrangements for the observance: President, Patrick J. McCann; James O'Sullivan, Patrick F. Slattery, Martin D. Sullivan, John Thompson and James Lillis. During the evening remarks were made by Patrick McCann, James O'Sullivan and Edward Slattery.

AT DEATH'S DOOR TRUST REFORM

Duke and Duchess of Manchester Rescued From Death

NEW ORLEANS, Jan. 30.—Frederick W. Vanderbilt's big yacht Warrior, with a party, including Mr. and Mrs. Vanderbilt, the Duke and Duchess of Manchester and Lord Falconer, went on the rocks near Savannah, on the

coast of Colombia, and was wrecked Mr. Vanderbilt and his party were taken off by boats from the United Fruit company's steamer Frutera and transferred to the Almirante of the same line and taken on their way to Colon, for which port the Warrior was bound. The Warrior left Charleston, S. C., late in December for a cruise to Cuba, Panama and along the South American coast, a favorite trip of Mr. Vanderbilt's, he having gone over it in his old yacht the Conqueror, which he sold to the Duke of Manchester. The Warrior is known as one of the finest of yachts. She is of steel construction, 253 feet long, has twin screws and is equipped with wireless apparatus. She was built for Mr. Vanderbilt in Troon, Scotland, at a cost of \$500,000 in 1904.

MY TIRED FEET ACHED FOR "TIZ"

Let your sore, swollen, sweaty feet spread out in a bath of "TIZ."

Just couldn't wait to take my hat off!

Just take off your shoes and then put these weary, shoe-crinkled, aching, burning, corn-pested, blunion-tortured feet of yours in a "TIZ" bath. Your feet will wiggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—sore, tired out—just try "TIZ." Its grand old glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which torture your feet and cause foot putrefaction.

Get a 25-cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel; how your feet wear shoes a size smaller if you do.

1014 MODEL

Friend—I suppose this is even a more remarkable baby than the one you had last year.

Auto Flood—O, you bet he is! Far better model. Got a longer wheel base, a better pair of lamps, and a very much louder horn—Judge.

ASSISTED SPORTSMAN

"That distinguished member of the hunting party always wants to shoot. He never cares to fish."

"Well," replied the guide, "you see we can get out into the woods and chase animals his way, so that he's almost sure to get something. But you can't do anything with a fish."—Washington Star.

FIRE DESTROYED TANNERY REPORT ON MERRIMACK

Am. Hide & Leather Co. Plant at Woburn Wrecked by Fire—Nearby Factories Threatened

Waterway Board Would Dredge Channel in River From Lowell to Dam at Lawrence

WOBURN, Jan. 30.—Fire today destroyed the tannery of the American Hide & Leather Co. on Fowle street, causing a loss of \$100,000. Several nearby leather factories and a number of dwellings were damaged. Ten families were forced to leave their homes hurriedly but no one was injured.

The Merrimack valley waterway board has submitted its final report upon the development of the navigation of the Merrimack river. A part report was issued some time ago giving the approximate cost of the proposition and the final report, which is really the engineering report, goes into the matter in detail.

The engineers conclude that the river could be opened for navigation by providing a channel 18 feet deep at mean low water from the sea to Ward hill, about one mile above Haverhill, and by providing a depth of 18 feet by means of a channel and by building canals and locks from that point to Haverhill in Lowell. Assuming that the U. S. government will improve the river to the head of tide water at Ward hill, the board submits plans and estimates for a project that would mean the dredging of a channel in the river from a point near Lowell to the dam at Lawrence to give a depth of 18 feet below low water level of the pool formed by that dam; then a lock to pass vessels by the dam into another channel not less than 18 feet deep which would follow the river to a point just above Kimball's island where it would enter the proposed Ward hill canal, a direct cut off around Mitchell's falls to the channel which, it is assumed, the government will provide in the tidal section of the river.

Just below Kimball's island a movable dam would be constructed from a pool at the highest level possible without interfering with power developments at Lawrence, so as to reduce excavation.

It is proposed to make all river channels 200 feet wide and to give the Ward hill canal 100 feet. The 200 feet wide and 18 feet deep are the same as recommended for the improved channel from Ward hill to the sea. Both locks will be 300 feet usable length, 45 feet wide and 18 feet in depth. The lock at Lawrence would have a normal lift of about 35 and would be located on the north shore. The gates would be of the mitering girder type, built of steel, the upper one about 41 feet high and the lower gate about 59 feet.

It is proposed at Lawrence to excavate a channel below the dam to compensate for restrictions caused by the lock and to further improve conditions by removing the Broadway bridge and substituting a double deck structure on the site of the B. & M. R. R. bridge to serve for highway and railroad. This scheme affords the advantage of only one draw over the lock and also eliminates a dangerous grade crossing.

The studies also included a power plant to develop power for lock operations and to light canal and river channels. It would also furnish power to pump back over the dam in Lawrence any amount of water used in the lockages.

The estimated cost from Ward hill to Lowell is \$5,142,000, exclusive of land damages at Ward hill, and of bridge charges in Lawrence. This distance is about 15.3 miles.

SAMUEL B. CAPEN DEAD

CHAIRMAN OF BOARD OF TRUSTEES OF WELLESLEY COLLEGE DIED AT SHANGHAI, CHINA

BOSTON, Jan. 30.—The death at Shanghai, China, of Samuel B. Capen, chairman of the board of trustees of Wellesley college and president of the American board of commissioners for foreign missions, was announced in a cablegram received here today. Mr. Capen, who was making a tour of the board's missions in the Orient, was taken ill with pneumonia on Jan. 26, and died yesterday.

TWO LOWELL MEN

Sec'y Yarnell and Physical Director Wicke Attend Boston Meeting

Dr. D. E. Yarnell, general secretary, and Physical Director A. J. Wicke, both of the local Y. M. C. A., attended the joint conference of presidents, chairmen of physical department committees, general secretaries and physical directors of Young Men's Christian Associations of Massachusetts and Rhode Island, held at the Boston City club yesterday afternoon and evening. Over 100 men were present, representing nearly every city and large town in the two states.

The meeting which was held to increase the efficiency of the Y. M. C. A. workers was the one large and important gathering of association leaders in physical work on the 1913 calendar. At 2:30 o'clock a devotional service was conducted by Dr. George W. Tupper, immigrant secretary of the state committee. The next number on the program was an address by Fred L. Willis of Worcester on "What the General Secretary Has a Right to Expect from the Physical Director," and then John W. Waters of Cambridge spoke

BODY OF WOMAN FOUND

RECOVERED IN BOSTON HARBOR—VICTIM MAY BE MISS ARLEN OF COLEBROOK

BOSTON, Jan. 30.—The body of a young woman was found on the East Boston side of the harbor today. The identification was awaited with considerable interest as it was thought the victim might be Miss Eleanor Arlin of Colebrook, N. H., who has been missing for several days from her boarding place in Brookline. The body had been in the water less than 48 hours.

SALE OF WABASH R.R.

220 CENTRAL STREET

205 FINE WINTER OVERCOATS AND FANCY SUITS

Priced at \$20 and up to \$35, go into a three days'

Choice-of-the-House Sale

at \$15

Every Winter Overcoat that sold at \$20 and higher, and every fine fancy Suit goes into the Choice-of-the-House-Sale until Saturday night at one price—\$15.00.

The garments are mostly Stein-Blocks—and every one is of high character. You can't pick one worth less than \$20, and they'll average nearer \$25. Do you know where you can put \$15 to as good advantage?

Here's how they line up:—

138 Suits

Young Men's and Men's models—mostly fancies—a few blues.

The Smart Clothes Shop 222 MERRIMACK STREET

IN POLICE COURT

Matthew J. Davis was again brought up this morning before Judge Enright. Supt. Welch announced to the court that the Revere police have no record against Davis and that the young man's story yesterday was substantiated by the facts. The family of the pretended weight inspector is in destitute circumstances, the Revere police say. Davis was placed on probation, and left the court with tears welling from his eyes and protestations of a better life in the future upon his lips. Although John Cassidy was in for nonsupport, his wife pleaded with the court this morning to give him another chance. The charge against Cassidy was nonsupport of his wife and family. He was released on a suspended sentence with six months at the house of correction ahead of him if he breaks out on another drinking bout. Patrick Meade pleaded guilty to the charge of drunkenness and attempted to make a speech when his case was called. The officer who made the arrest said that a complaint had been made to him relative to the actions of the defendant in lower Belvidere. He was released after passing over \$5 to Clerk Trull.

Joseph Duprez was very drunk last night and landed at the police station. His wife took the witness stand this morning and informed the court that the defendant drank so heavily that he neglected his nine children, as well as his wife. He was given a suspended sentence of three months in jail and this suspension will be revoked if Duprez starts in drinking again. The cases of Tekla Grondalski, alias Smith, and Carol Smith, charged with illicit cubitation, came up for trial today. Both defendants pleaded guilty and presented no defense. State Officer Mailbox testified that the defendants had been living together for several years as man and wife. Later defendants admitted that they were not married. The woman was given a suspended sentence of four months in jail, the suspension to remain active for two weeks. If the woman does not leave for Poland before the expiration of the two weeks she will be committed. Smith was sentenced to the house of correction for a term of six months.

DISCOVERED
Little question for today: In what English word are the combinations "ick," "ee" and "ee" all found?—Boston Globe.
Our bookkeeper says that is too easy.—Franklin Journal-Transcript.

MR. OVIDE E. LEDOUX

WELL KNOWN HERE, TO EMBARK IN BUSINESS AT SHERBROOKE, QUEBEC

Mr. Ovide E. Ledoux of the firm of Pelletier & Ledoux in Merrimack street, has purchased a large business place in Sherbrooke, Que., and he will remove there with his family next week. He is to take possession of his new property on Feb. 9. Mr. Ledoux has been in business in Lowell for the past twelve years. He was formerly in partnership with Fortunat Pelletier and both were conducting the Maple Leaf store in Merrimack street. A few years ago Mr. Pelletier sold his interests in the Merrimack street store to his brother, Ephrem Pelletier, and the business firm has been known since as Pelletier & Ledoux.

Mr. Fortunat Pelletier then removed to Montreal, Que., where he is now conducting a successful business. He is to retain his interests there and will also form a partnership with Mr. Ledoux in the Sherbrooke store. The Pelletier & Ledoux store in Merrimack street, this city, was gutted by fire a

short time ago and that is why Mr. Ledoux decided to try his luck in the Dominion. Mr. Ephrem Pelletier with his son will continue the store in Merrimack street.

Tonight, Manhattan singers, Asso.

CARD OF THANKS
To our many kind friends, who through their assistance, spiritual and moral offerings and heartfelt sympathy, lessened, in a measure, our sorrow in the loss of our dear daughter, Eveline Sauvageau, we wish to express our sincerest thanks and deep obligation.
(Signed)
Mr. and Mrs. Ernest Sauvageau and Family.

ORRINE

MONEY TO LOAN

You Can't Buy Happiness HEALTH or good looks with money. They are mostly nature's gifts. But money goes a long way toward promoting happiness and contentment.

THE TROUBLE IS, everyone does not have a bank account, and consequently they have no way to overcome temporary financial troubles without appealing to friends, which is more or less humiliating. THEN WHY NOT OPEN AN ACCOUNT WITH US?

Our company has an established reputation for fair dealings, courteous treatment and consideration for our clients' welfare.

WE HAVE CATERED to the borrowing public for many years, always giving pleasing and satisfactory service and an absolutely square deal to all. A short talk with us will convince you that there is no better proposition than ours. Try us and see.

MERRIMACK LOAN CO. Room 3, 81 Merrimack St., 17 John st. Hours: 8 a. m. to 5 p. m. Monday and Saturday until 9 p. m. Tel. Con. License No. 61.

49 Lost in Head-On Collision at Sea

MAY SINK NEW WELLS ALONG HALE'S BROOK

Lowell's Water Supply at Present Time Not at Its Best—The Boulevard Water Contains Iron and Manganese

Commissioner Carmichael is satisfied that a great deal of what his predecessor, Andrew E. Barrett, said about Lowell's water supply was true and that something must be done to relieve the boulevard wells. The boulevard water contains iron and manganese in great quantities and while neither of these substances is injurious to the human system, they render the water unfit for domestic purposes. The iron turns the water a reddish yellow and manganese turns it black. The best plan in sight now for the improvement of the water supply includes the putting in of a new belt of wells in Meadowbrook valley.

The commissioner and Supt. Robert J. Thomas are convinced that it is not practicable to drive any additional wells on the boulevard to connect with the present plant. There may be some field beyond which can be tapped and which may yield a quantity of water. Of this, however, they know nothing and are bending their energies toward the plan not only of freeing the water from the excess of iron, but in reducing the manganese.

The state board of health which has been appealed to in the matter, says that there is more manganese found in the boulevard supply than in any other supply in the entire state. The only other supply, thus far located which has manganese is that in Middleboro and it is understood that has been dissipated by filtration through coke and sand. In Middleboro the tests show that the water contains one-half a part of manganese per million parts of water, while in Lowell it is six times as prevalent or in the proportion of three parts to one million parts of water.

Commissioner Carmichael and Frank A. Barbour will go to Middleboro to see

the tests which are being carried on there just as soon as Mr. Barbour returns from Montreal where he was summoned to assist in straightening out the very serious conditions attending the water supply which was caused by the breaking of the main to the city from the St. Lawrence river.

Tests have been going on at the boulevard station for over three months, these tests consisting of filtration through various sizes of sand. The sand will remove the iron from the water but does not touch the manganese and the commissioner is convinced that if any considerable amount of water is to be used some additional method of purifying it will have to be adopted.

Cook Well Water
At the Cook wells the water is being treated to neutralize the carbonic acid which is in it and this neutralization is accomplished exclusively by aeration. As far as putting new wells in the Meadowbrook valley this plan offers much greater promise than any attempt to free the boulevard well water from iron and manganese. Mr. Barbour has recommended that wells be sunk beyond the present hydraulic plant. The officials of the state board of health believe that 4,000,000 gallons per day may be obtained which will require no treatment at all. Their reason for this recommendation is based on the fact that the water which is being used in the Merrimack Centre's new system shows no carbonic acid at all. It comes from the same general source of supply. It may be that with the drag on such a supply occasioned by the pumping of 4,000,000 gallons daily deposits of carbonic acid, will come to the surface.

The Cook wells were shut down on Wednesday night at 10 o'clock, after being run continuously since May 23, 1913, a period of about eight months. This is the longest period of continuous pumping from this supply of which there is any record.

Supt. Thomas says that since shutting down the Cook wells there have been fewer complaints about the quality of the water and he accounts for this by saying that the two supplies, the boulevard and the Cook well supplies, coming together, have caused much of the turbidity which has been complained of.

It was intended to shut down the Cook well supply two weeks ago but the cold wave pushed up the daily consumption so much that the boulevard wells couldn't supply the demand, and therefore it was necessary to continue the Cook wells in operation.

THE SATURDAY FEATURES
SUN READERS ARE REMINDED OF LIVE ARTICLES FROM SPECIAL CONTRIBUTORS TOMORROW

Those who are interested in tenement property, business blocks, assessment and taxation should read "The Spelunker" in tomorrow's Sun. The men who hold property for the unearned increment get a well deserved knock and the stump in the value of tenement property in the last 20 years is explained. The hospital site and other matters pending at city hall receive attention.

"The Man in the Moon" tells of John McNabb's experience in Europe, deals with the Choral society concert, the anniversary of Burns, and other matters musical, literary and artistic.

"Lady Lookabout" as usual has something not only interesting but instructive to the women.

MR. AYER'S OBJECTIONS
At the meeting of the municipal council, to be held tomorrow, F. P. Ayer's opposition to the erection of a Ward land in Pawtucketville will be presented to that body for consideration. The matter will be in writing and will be presented by the trustees of the Lowell General Hospital.

Telegraphic Brevities

SUGARLAND, Tex., Jan. 30.—The Imperial Sugar Co.'s large mill and warehouse here were destroyed by fire today. The loss is given at \$500,000.

BOSTON-ON-DOON, Russia, Jan. 30.—Cash amounting to the equivalent of \$50,000 was stolen here this afternoon while the mails were being transferred from a railroad train to the postoffice.

BALTIMORE, Jan. 30.—To the agents of the Merchants and Miners line at Norfolk the commander of the Nantucket sent a request by wireless asking clothing for 50 men and 20 women.

JAMESTOWN, N. Y., Jan. 29.—Poor Master J. W. Putnam, shot by Ed. Rensselaer, the Sumnerdale outlaws, was said this afternoon to be out of immediate danger.

RICHMOND, Va., Jan. 30.—Edward F. Lyons, lost with the steamer Monroe, was a native of Albany, N. Y., and formerly was a sporting writer in New York.

WASHINGTON, Jan. 30.—Secretary Daniels told the house naval committee this afternoon that the government should develop its own oil supplies for battleships.

CHARLESTON, W. Va., Jan. 30.—The plant of the Morgan Manufacturing Co., makers of desks and furniture, was destroyed by fire early today with a loss of \$200,000.

ROME, Jan. 30.—The appointment of the Rev. Louis J. O'Leary, chancellor of the diocese of Chatham, N. Y., as auxiliary bishop of Chatham, was signed this afternoon by the pope.

BOSTON, Jan. 30.—One of the most mellow days of the year reached Boston today and under the benign influence of a bright sun, a clear sky and a balmy southerly breeze, the official thermometer marked 52 at noon.

PITTSBURGH, Jan. 30.—One man was killed and ten persons were injured in an apartment house fire in the Lawrenceville district here early today. Of the ten six were small children.

FALL RIVER, Jan. 30.—The speedier tenders of the Pocasset mill struck work this afternoon for higher wages. The discharge of an overseer also aggravated the situation. About forty speedier tenders left their work.

BOSTON, Jan. 30.—It was announced today that holders of \$3,200,000 of the \$10,000,000 of notes of the Boston & Maine road coming due Feb. 2 have consented to an extension of four months.

BOSTON, Jan. 30.—The contribution of Mayor-elect James Curley to his successful campaign was \$4,000, acc. land.

cording to the returns filed today. The inauguration of the new mayor will take place on Monday.

BOSTON, Jan. 30.—Legislation requiring every hunter to wear a hat and coat of bright red was urged before a legislative committee on fish and game by Dr. Carter Tobey of New York this afternoon.

MILFORD, Jan. 30.—George H. Macuen, a candidate, and William Hayes, a chauffeur, were killed today through the overturning of an auto truck in which they were returning from Norwood.

BUFFALO, N. Y., Jan. 30.—Burglars broke into the residence of W. C. Warren, president of the Buffalo Commercial Pub. Co., some time during the early hours today and stole silverware and jewelry amounting to over \$2500, according to the police.

CAMBRIDGE, Jan. 30.—John Riley and Mike Mitchell, who claimed to have saved 150 while working in a lumber camp near Skowhegan, Me., reported to the local police today that they had been robbed at the point of a pistol by an unknown man whom they met in Portland.

CAMBRIDGE, Jan. 30.—Mrs. Allen Roosevelt Longworth is bequeathed one-sixth of the estate of grandmother, Mrs. Caroline H. Lee, under the will filed for probate today. The value of the estate is not known, but Mrs. Longworth is one of ten grandchildren to receive a special bequest of \$1000.

NEW YORK, Jan. 30.—The Inexplicable run on the Bank for Savings, the oldest established and one of the strongest savings institutions in the state, continued this afternoon. Nearly \$1,000,000 has been paid out by the bank since the run started on Tuesday.

LIVERPOOL, Jan. 30.—At a conference today between the British and the Scandinavian agents the shipping lines engaged in the transatlantic trade it was decided that they should act together in the threatened passenger rate war. An organization was created to take the measures necessary to protect the interests of the lines.

NEW YORK, Jan. 30.—There was filed in the federal court here this afternoon a final decree in the settlement of a government's equity suit against the National Wholesale Jewelers' association; the National Association of Manufacturing Jewelers and some 200 individual defendants. The defendants are enjoined from continuing certain practices in restraint of trade.

CAPETOWN, S. A., Jan. 30.—Heated alterations today marked the opening session of the parliament of the Union of South Africa in the course of which General Botha, the premier, and the cabinet ministers are to be called upon to justify to the country the iron handed methods they adopted in dealing with the recent strike of workers, ten of whose leaders were this week deported secretly to England.

THE WAG ABROAD

Inserts Humor in Serious Matter—Historical Tablet on Ward Land

Some wag has injected a little humor into the contagious hospital situation and it may be that a little humor is needed for it is generally conceded that the situation is becoming quite serious. Just why the erection of an isolation hospital should raise such ructions it is hard to conceive but the fact remains that neighbor has turned against neighbor and it was only the other day that a man who had the temerity to express himself in favor of the Pillsbury estate was threatened with complete annihilation by a man opposed to the purchase of that estate.

Two doctors who this morning visited the Ward land in Pawtucketville, the land offered the city for a hospital site, discovered that a wag had preceded them and on a board in the center of the lot the doctors read the following, type written, and lacked to the board:

CONTAGIOUS HOSPITAL SITE
Land discovered by Harry Howe, 1912. Presented to the city of Lowell by Ellen J. Dexter, January 27th, 1914. Upon this site the Indians built their wigwams. Over this land the Wampanoet tribe roamed. The soil was filled by the Varnums and Ancestors during the 15th and 19th centuries.

Columbus discovered America.
Bulfinch discovered the Pacific.
Ponce de Leon discovered Florida.
Capt. John Smith discovered Plymouth.
Howe discovered the hospital site.
Dunbar discovered that he was on the wrong trail.
Guyette discovered that he lost his commission.
Others discovered that they lost a graft.

COMING TO BILLERICA

It has been announced that Lowell Morgan of Fitchburg, who has had charge of the Boston & Maine repair shops in Fitchburg and Worcester for the past 14 years, has been appointed general foreman of the new shops that will soon open in Billerica. Mr. Morgan will have complete charge of all mechanics at the new plant and will have nearly 1000 men under his charge. It is believed that he will move his family to Billerica shortly.

Third Edition SAYS GOMPERS WAS "GLORIOUSLY DRUNK"

Duncan McDonald Scores President of A. F. of L.—Latter Jumps to His Feet and Calls Speaker "Liar" and "Slanderer"

INDIANAPOLIS, Jan. 30.—That Samuel Gompers, president of the American Federation of Labor, was "gloriously drunk" at the Seattle convention of the federation was the charge made by Duncan McDonald of Illinois at the convention of the United Mine Workers. During the prolonged cheers "Liar," "slanderer" were hurled at McDonald by Gompers, who sat on the platform.

"I am glad Mr. Gompers is here so I can say what I want to," said McDonald, in beginning his reply to the speech made yesterday by Mr. Gompers. "I said there were boozefighters in charge of the American Federation of Labor, and I'll prove it. At the Seattle convention I had a room with my wife at a hotel next to the room reserved by the resolutions committee. The first Saturday night we could not sleep for the noise made by a bunch of drunks in the next room.

"I appealed to the clerk of the hotel and the noise grew louder. Then I went down to the hotel office and the night manager called Jim Duncan on the phone and told him they would have to get out of the room, that they were disturbing all on the floor.

"The noise grew fierce and I finally knocked on the door of the room and was asked to come in and have a drink.

"When the door was opened there sat Sam Gompers at the head of the table gloriously drunk, with a bottle of booze in his hand.

"The statement threw the convention in an uproar and it was some time before order was restored. While the confusion was at its height Gompers called McDonald a liar and a slanderer.

He declared the statement libelous.

TWENTY YEARS MARRIED

MR. AND MRS. GLOSET WERE HONORED BY THEIR FRIENDS LAST EVENING

On the occasion of the 20th anniversary of their marriage Mr. and Mrs. J. C. Gloset, well known residents of this city, were last night honored by their many friends who gathered at the couple's home, 14 Spaulding street, to congratulate them on the happy event. There were over 60 guests present and among them were Rev. J. J. Concan, assistant pastor of St. Louis church, an old friend of the family.

Mr. and Mrs. Gloset were the recipients of numerous costly gifts among which were a 12-piece china dinner service and several handsome pieces of furniture. The presentation speech was delivered by Maxine Lepine, who later was appointed master of ceremonies. The presentation came wholly by surprise, but nevertheless Mr. Gloset responded in appropriate terms and secured his guests that the event would be long remembered by himself and family.

A dainty luncheon was served and an elaborate musical program was carried out, much to the delight of the large attendance. Rev. Fr. Concan, who presided at the event, extended his best wishes to the family. Among those who contributed musical selections were Louis N. Gullbault, Arthur and Albert Gloset, Leonce Gloset, Edward E. Grogan, Miss Stella Lepine, Miss Marie Jeanne Morrisette, Mrs. Alice Gloset, Alexandre Dubois, E. J. Laroche, Blanche and Merline Morrisette, Pierre Leblanc and Arthur Groux.

Mr. and Mrs. Gloset were united in marriage on Jan. 16, 1894, the ceremony being performed at the Catholic

church of Bathurst, New Brunswick. Eleven children were born to them, of whom are living, namely: Eveline, Aurea, Maria, Ella, Yvonne, Leonce, Arthur, Albert, Edmond and Armand. The family removed to this city 17 years ago where they have been living since. Mr. Gloset is a popular agent for the Metropolitan Insurance Co., and the entire family are held in high esteem by their many friends.

AMUSEMENT NOTES

MERIDIAN SQUARE THEATRE.
Beginning Monday matinee at 2 o'clock sharp there will be inaugurated at the Meridian Square Theatre a new era in low priced amusement. It will mark the commencement of a policy which if merit and cheapness in price count for anything has never before been equalled in this city. There will be eight big vaudeville acts shown and these will be seen in conjunction with photo-plays far above the ordinary kind. A complete new show will be given twice a week. The Exposition Four, matinee of mirth and melody, will headline a bill of the best vaudeville, while there will be a double reel feature photo-play also shown along with several other magnificent motion picture subjects. The prices will be ten cents, matinee and night, with reserved seats five cents extra. There will be the usual Sunday concert, and for the coming Sunday the management has arranged for an unusually attractive program. The last performance of the stock company are being given and tomorrow is "Goodbye" night.

THE OPERA HOUSE.
Neil O'Brien and his great American Minstrels, now on their second annual tour and again under the able direction of Oscar F. Hodge, will drop in at the Opera House today for two performances, there being a special bargain matinee.

Neil O'Brien, for many years one of America's best known minstrel comedians, achieved remarkable success last season as a star and producer and succeeded admirably in presenting what was considered by many the best

minstrel show of a decade. This year Mr. O'Brien and his manager, Mr. Hodge, announce an organization and production which is proclaimed as being even superior to their first effort. Everything from start to finish is brand new and only those members of last year's company who proved exceptionally worthy have been retained. All the feature acts of the old are new and include two new comedy one-act sketches by Mr. O'Brien, which are said to be in the author's best vein of humor. One is called "Parade Post" in which Mr. O'Brien appears in the leading character. The other is entitled "Who's Boss? or Taming the Millant," and will have Eddie Mazur and Little Major Novak for its principal funmakers. There is also a new song and dance number conceived and staged by Pete Dezel, which he calls "The Ebony University or Class Day on the Campus." Like last year's dancing act with this show, this is also a terpsichorean novelty, which is expert and original dancing told. Its story is plainly as though words were used.

In addition to the favorites of last year's organization, Eddie Mazur, Pete Dezel, Major Novak and Gen. Faust, who will assist Mr. O'Brien in holding up the comedy end of the program, a valuable addition has been made in Eddie Ross, a monologist, who has been getting London fame for the past year with his original and cleverness, scoring in the British metropolis one of the biggest hits ever made by any American performer to visit that country. The vocal contingent includes many well known singers, prominent among whom are James Barzoff, tenor; Ward Barton, the yodler; Al Fontaine, bass; Lerlie Barry, baritone; Walter Lindsay, tenor; and George Haggen, the juvenile contra-tenor who scored such a sensation last season with his remarkable vocal powers.

B. F. KEITH'S THEATRE.
A most pleasing combination of acts is presented at the B. F. Keith theatre this week, and the theatregoers will be given but four more chances to see it. The greatest of all Lilliputians, Little Billy, is the specially engaged star of the program. He is as talented as a normally tall person, and his dancing is a source of real delight. Many children have been to see this very interesting little person during the week. Ward and Curran, in "The Terrible Judge" have an offering which has made many thousands laugh, and it is accomplishing its original purpose this week. "Col" Ward is still the inimitable judge—irascible at times too—who has the habit of making comment on his merited affairs, while he is talking to prisoners brought before him. Frankie Carpenter, Jere Grady and Edmund Manley, in Jimmy Barry's sketch, "The Grouch," furnish much good entertainment, and Dugan and Raymond are makers of fun in a variety of ways. Flood & Bria are versatile young women, and Jimmie Lucas is an excellent parodist. Bartholomew's cockatoos are pretty and do some difficult things. Good seats may be obtained for the remaining performances. Phone 28.

WONT LOSE SCHAEFER.
Manager Clark Griffith isn't taking any wild chances on Comedian "Germany" Schaefer, betting that with the vaudeville stars of an oriental kingdom. Accordingly, Schaefer will receive his 1914 contract when the world's tourists land at Colombo late this month. The Washington club realizes the tremendous attraction of "Germany" and takes this added precaution to assure his services the present season.

A BRAVE STAGER AT IT.
Little question for today: "What is the meaning of 'Lepadotemachosachognokeokranololepsanodimmoiprismatosilphipariolmelitakatechumenochienl kosappho photoperistoralaktronop tegkephalokighlelelofongstrafaphetraganopethugon'?"—Boston Globe.

After duly considering the matter in care in all directions, the Boston Globe has decided to print the above as a joke. It is a good one, and the theatregoers will be given but four more chances to see it. The greatest of all Lilliputians, Little Billy, is the specially engaged star of the program. He is as talented as a normally tall person, and his dancing is a source of real delight. Many children have been to see this very interesting little person during the week. Ward and Curran, in "The Terrible Judge" have an offering which has made many thousands laugh, and it is accomplishing its original purpose this week. "Col" Ward is still the inimitable judge—irascible at times too—who has the habit of making comment on his merited affairs, while he is talking to prisoners brought before him. Frankie Carpenter, Jere Grady and Edmund Manley, in Jimmy Barry's sketch, "The Grouch," furnish much good entertainment, and Dugan and Raymond are makers of fun in a variety of ways. Flood & Bria are versatile young women, and Jimmie Lucas is an excellent parodist. Bartholomew's cockatoos are pretty and do some difficult things. Good seats may be obtained for the remaining performances. Phone 28.

FR. LYNCH TRANSFERRED

FORMER CURATE AT ST. MARGARET'S SENT TO BROCKTON—TWO NEW PASTORS APPOINTED

Two pastors of the diocese have been transferred from the parishes over which they have had charge for several years, and two of the senior curates of the diocese have been advanced to pastorates by His Eminence Cardinal O'Connell.

Six curates in different parts of the diocese, one of whom was formerly stationed in Lowell, have been changed about, due to the transfer and appointments of pastors. The changes will take effect beginning with next week and the changes will be officially recorded in the Pilot, the official organ of the diocese, this week.

The appointments and transfers are as follows:

Pastors Transferred.
Rev. Fr. Francis X. Dolan, D. D., from St. John's church, Hopkinton, to the pastorate of St. Gregory's church, Dorchester Lower Mills.
Rev. Fr. Francis W. Maley from St. John's church, East Bridgewater, to the pastorate of the church of the Annunciation, Danvers, Mass.

Curates Appointed Pastors.
Rev. Fr. William E. Keating of St. Patrick's church, Brockton, advanced to the pastorate of St. John's church, Hopkinton.
Rev. Fr. Francis X. Hart of St. John's church, Canton, advanced to the pastorate of St. John's church, East Bridgewater.

Curates Transferred.
Rev. Fr. James F. Lynch of St. Mary's church, Ayer, transferred to St. Patrick's church, Brockton.
Rev. Fr. Patrick A. Sharkey of St. Ann's church, Gloucester, transferred to St. Mary's church, Ayer.

Rev. Fr. Daniel S. Sherrin of the Church of the Most Holy Redeemer, East Boston, transferred to St. John's church, Hopkinton.
Rev. Fr. Francis H. Houston of St. John's church, Hopkinton, transferred to St. Ann's church, Gloucester.
Rev. Edward J. Clary of St. Patrick's church, Stoneham, transferred to St. Michael's church, North Andover.
Rev. Fr. Joseph C. Burns of St. Michael's church, North Andover, transferred to the church of the Most Holy Redeemer, East Boston.
Rev. Fr. Maley, who has been transferred from a pastorate in East Bridgewater to the pastorate of the church in Danvers formerly held by the late Rev. Fr. Sullivan, is well known here. He will be remembered by the parishioners of St. Margaret's church as the clergyman who delivered the eloquent eulogy at the funeral of Rev. Fr. Harkins, first pastor of the Highlands parish. Rev. Fr. Lynch who has been transferred from Ayer to St. Patrick's church in Brockton is well and favorably known among the parishioners of St. Margaret's having been stationed there for about a year during the absence of Rev. Henry C. Beardon in Europe. Since going to Ayer, Rev. Fr. Lynch has built up the membership of the church societies, particular attention being paid to the Holy Name society and his departure from that place will be regretted by all. Rev. Dr. Dolan, who has been appointed pastor of St. Gregory's church, Dorchester, is well known among the clergy of Lowell. For a time he acted as secretary to Cardinal O'Connell while the latter was co-adjutor archbishop. He is widely known as a speaker of much ability and as an organizer.

THE MEISTERSINGERS HEARD

In Fine Concert at the First Universalist Church Before Large Audience Last Night

The Meistersingers, one of the country's foremost organizations of male vocalists, gave a delightful recital of songs at the First Universalist church last night before a large and very appreciative audience. The concert program was one of exceptional merit and each number consisting of some of the best compositions was rendered in such a way that encores were often demanded. The members of the Meistersingers are as follows:

First tenors, Jewell Boyd, Harold S. Tripp, Allan C. Prescott; second tenors, Arthur E. Cole, Charles W. Swaine, Lester Bartlett; baritone, Wirt B. Phillips; George H. Woods, William W. Walker; basses, Wilbur E. Davison, A. Cameron Steele and John L. Thomas.

The ushers were: Harry C. Briggs, head usher; George Rueland, George Robertson, Harry Woodman, Alvin Weaver, Stewart Redman, Harry Mulino and William Saunders.

LAND OF PROMISE.
"Do not today what can be put off till tomorrow" is the first commandment in the unwritten constitution of the Mexicans. Beware of the Mexican who engages to do something for you "tomorrow." For "tomorrow" merely means some time in the future. Because of this peculiar point of view Mexico has been humorously dubbed "The Land of Tomorrow." It is the land of procrastination; the land of "poco tiempo" "wait awhile."

An appointment made for 10 o'clock in the morning may be kept at 11 or 12, or perhaps not until afternoon. The Mexicans never cease wondering at the remarkable energy and promptitude of Americans. When it is intended to keep an appointment promptly the words "a la inglesa" are added to signify that the appointment is to be kept after the English or American fashion.—Christian Herald.

AYER CITY INDUSTRIES

Shaw Stocking Co., Comb Co.,
Insulated Wire and Phonograph
Needle Factories Busy

A Sun reporter while in "Ayer City" visited a few of the thriving industries giving the result of his observations in the following story which shows that some of the smaller industries are growing rapidly. The Shaw Stocking company, of course, is not in this class:

SHAW STOCKING COMPANY
Incorporated in 1877 by Benj. F. Shaw, with a capital of \$30,000, this flourishing manufactory has greatly exceeded the original investment, and has developed a world wide business and a world wide fame. Starting in hired rooms on Broadway, business increased so rapidly that in 1879 new buildings were erected at the corner of Smith and Chelmsford streets, the present location. The wisdom of this venture was at once apparent, as the increased demand and subsequent production of Shawknit goods testify. Where nine looms originally were used this company now boasts 700 knitting machines and 12,432 spindles (cotton machinery). In addition to these the company has its own electric power, does its own dyeing and bleaching and sells direct to retailers.

agreement in establishing these necessities is due the success of the enterprise. Originally manufacturing seamless stockings, this concern now produces the famous "Shawknit" hosiery for men, women and children, carded and combed cotton yarns, paper boxes and has recently added a department for printing. The plant at present occupies about 14 acres of land with four large mills. While the bulk of the products is used in this country, exporting is carried on to a very considerable extent.

The hosiery stocks are quoted in New York city and San Francisco, which fact in itself is an excellent advertisement for the Spindale City. The president of this company is Frank J. Dutcher, treasurer, William E. Hall. The board of directors consists of Frank J. Dutcher, Amasa Pratt, Geo. S. Motley, Josiah Butler, Frank E. Dunbar, Edward W. Thomas and Wm. E. Hall.

WEB MANUFACTURERS
The firm of T. Martin & Son, with home offices at Chelsea, Mass., manufactures elastic and non-elastic webbing. Originally intended as a branch of the main company, this concern, while still affiliated with the home office, has taken such strides as to

Kondon Mfg. Co., Minneapolis, Minn.

exceed the fondest hopes of the owners, so that at the present time shipments are made direct to all parts of the world.

In the two buildings at present occupied on Cambridge street, 70 looms are constantly in use. The floor space of these buildings is between five and six acres. About five acres of additional land is available for further development which may come about in the near future.

The manager, Mr. E. F. Maker, is head in the grade of Lowell as an industrial center. He has been a keen observer of the city's growth in this respect, and feels that if the Merrimack river is made navigable, as at present contemplated, Lowell will have reached a stage at which she can maintain her industrial supremacy in a great many lines of manufacture.

THE IDEAL COMB COMPANY

One of Lowell's leading enterprises is the Ideal Comb company situated on Lincoln street. This concern besides manufacturing combs of all kinds, also engaged in the production of celluloid novelties.

Though originally not organized in Lowell, the management, realizing the opportunity afforded by this city, transferred the entire plant to the present location, and in a comparatively short time has built up a business which will soon compel further additions to the factory. The building now occupied contains about 15,000 square feet of floor space. Whereas the first employees numbered about 15 men, producing goods for a limited radius, at the present time 100 are given steady employment and shipments are made to all parts of the United States. A ready market is found for high grade goods, and in this regard, results have shown that the local product is second to none.

The manager of this growing manufactory is Hon. James B. Casey, former mayor of this city. Much of the success of the company has been due to the associations and firm friendships formed by Mr. Casey while acting as Lowell's chief executive.

The Lowell Insulated Wire Company

This useful industry situated on Lincoln street was established in 1905, on the present site and by the present owner and manager, Mr. R. Dunford. The principal production of this company is insulated wire, which finds a market in all parts of this country and in some sections of Europe. Through able management and solid business principles, the output has been increased over 200 per cent. in ten years and is still growing. The number of employees has taken a proportionate rise, until at the present

time about 100 men are regularly engaged.

The manager, Mr. Dunford, has devoted much of his time to the technical end of the business, always with a view to new ideas. He feels that the field, especially as regards safety, is still very large and with this object in mind is ever on the alert for improvements. That he is highly pleased with Lowell as a manufacturing center is best shown in the fact that he is contemplating a newer and larger plant to meet the steadily increasing demand for this product.

Talking Machine Needles

With an ideal location on Wilson street, the W. H. Bagshaw company is engaged in the manufacturing of needle pointed wares for the preparation of textile fabrics, and in talking machine needles. The company has the proud distinction of being the largest manufacturer in the world of this latter product. Besides being the original makers of the first needles ever used they have to their credit the world's record of producing these needles, having turned out \$3,000,000 in 10 days.

Originally organized in 1870 by W. H. Bagshaw, the firm is still known as the W. H. Bagshaw company. With the under growth and improvements, and ever increasing demand for talking machine needles of all kinds, the company has more than kept pace with this industry. At the present time about 100 employees are steadily occupied in the spacious plant, covering over 35,000 square feet of floor space. Since the work is of a delicate nature it requires that the men employed be very expert in their various occupations.

This enterprising company may well feel proud of the fame that its splendid record has given Lowell to the outside world, since by the very nature of the work it reflects great credit on the high intelligence of her citizens.

LOOKING FAR AHEAD

That the lawyer builds largely on the future was demonstrated the other night by a story told by Congressman Byron P. Harrison of Mississippi. Some time ago, so related the congressman, a handsome young woman entered the office of a prominent lawyer. Immediately the legal one rose to greet her.

"I am glad to tell you, Miss Smith," he pleasantly remarked, "that your breach of promise suit has been settled. The defendant has expressed a desire to compromise the case by marrying you."

"I am very glad to hear that," was the smiling response of Miss Smith. "It is much better than taking a chance on losing the verdict. You have managed the case very well. How much do I owe you?"

"Let me see," thoughtfully mused the lawyer. "Shall we make it \$100?"

"We shall not," was the emphatic rejoinder of the fair plaintiff. "It is entirely too much."

"Well, then, I will tell you what I will do, Miss Smith," responded the lawyer. "I will just out that bill in half if you will promise to retain me as your counsel when you sue for a divorce."

SHINE 'EM UP, BOYS

"Where can I find the chief of police?" asked the stranger in Stearnsville. The native pointed. "That's him over the yonder by the hotel, shining that grocery drummer's shoes." Judge.

FOR CHILDREN'S ECZEMA

Mary E. Bailey, a trained nurse of Brooks, Me., says: "Obstinate cases of children's eczema yield to Comfort Powder." The genuine bears the signature of E. S. Sykes on the box.

CONTEST COMING

Over Will of Late Timothy J. Murphy—Lowell Men Interested

The following appeared in a Fall River paper:
"It is likely that there will be a bitter contest over the will of the late Timothy J. Murphy of New Bedford, when that instrument comes up for probate next month."

Mr. Murphy's heirs-at-law, his widow, daughter and son, are allied in opposition to the will; while on the other side of the controversy are Geo. E. Mahoney of Lowell, who is named as executor of the will, and Edward E. Murphy, a nephew of the deceased, who has been conducting the undertaking business and ticket agency in which Timothy J. Murphy was engaged. Mr. Mahoney is a nephew of Miss Emma Fogarty of New Bedford.

Frank Vera, Jr., is counsel for Mrs. Murphy in the case, and John B. Lowrey is acting for Daniel J. Donahue, a Lowell attorney who represents the executor.

Mrs. Isabelle T. Murphy, widow of the testator, separated from her husband nearly 20 years ago, when she secured separate maintenance on an order from the court.

Charges that Edward E. Murphy is fraudulently concealing property of the deceased have been filed with the probate court by Mrs. Murphy and a citation has been served upon Mr. Murphy to appear in court Feb. 6, at a hearing to be given in the matter, to answer the charge made against him.

Mr. Murphy died Dec. 11 and after waiting 30 days after his death, which is the time prescribed by law, will be filed with the probate court, his widow, through her attorney, applied to the probate court for appointment as administratrix of the estate and filed a bond of \$3000. Letters of administration were issued Jan. 16, giving her charge of the estate, and vesting with the authority thus attained she went to the undertaking shop at 1075 Purchase street, and made a demand upon Edward E. Murphy for possession of the property of her husband.

Murphy refused to surrender the property, claiming he had a bill of sale for the business given to him by Mr. Murphy in September, 1912. The next step taken by Mrs. Murphy under her authority as administratrix was on Jan. 20, when she filed charges with the probate court against Edward E. Murphy, alleging that he was concealing property of the deceased, and four days later notice was served on Murphy obliging him to appear in court Feb. 6 and answer the charges.

at-law, the widow, the daughter, Isabelle T., and the son, William E., of the deceased.

A few days after Edward E. Murphy was cited to appear in court, however, a document purporting to be the last will and testament of Timothy J. Murphy was filed at Taunton.

By this document George E. Mahoney of Lowell is named as executor of the estate.

When this will filed, Mrs. Murphy surrendered her letter of administration issued Jan. 16 and an appearance as a contestant of the will has been filed for her by Attorney Vera.

WAS FROZEN TO DEATH

Body of Lowell Man Found at the Railroad Bridge, in Hingham, Me.

Joseph Tataroski, a former resident of this city was frozen to death in a brook near the Kennelbunk bridge in Biddeford, Me. Wednesday. A railroad employee who happened along found the body and he immediately notified the coroner, who worked for some time with a pick and axe before he could remove the body from the ice.

Tataroski was employed at the Lacombe division of the Pepperell Mfg. Co.

STATE FERTILIZER BULLETIN

The Massachusetts agricultural experiment station at Amherst has just issued its fertilizer bulletin, No. 117. It contains the analysis of all fertilizers and lime compounds sold in the state during the year. Interesting information is given regarding the economy of purchasing high-grade fertilizers, and there is a discussion of the plant food found in the mixed goods as well as in the unmixed materials. The bulletin also contains the results of a field experiment with ground-rock fertilizers.

Have Beautiful Hair

A Simple Way to Stimulate Its Growth and Remove Dandruff.

No hair can be beautiful and glossy without thorough brushing daily to excite the oil glands and remove dust. To keep your hair in best condition also apply to the scalp a small quantity of the excellent crude petroleum preparation, CRUDOL, odorless and stainless.

CRUDOL does not make the hair oily, and therefore, the hair does not have to be washed after its use. Leave it on, it penetrates right down to the roots of the hair.

CRUDOL will destroy dandruff, stop

falling hair, promotes its growth, stimulate the roots, prevent itching scalp, and make fine, luxuriant hair.

The secret of CRUDOL—it contains no alcohol like most hair tonics. Alcohol in time will turn the hair gray—and should never be used on the head. Feed the hair roots with CRUDOL. Just try CRUDOL.

In TUBES only. Sold by drug and department stores everywhere. Smaller size 25c.

larger size 50c.—If your druggist cannot supply you, send 25c or 50c and we will mail you a tube postpaid.

Use CRUDOL ANTISEPTIC SHAMPOO, a delightful scalp and hair cleanser. Not like other shampoos that leave the hair brittle after washing, but leaves it in a soft, fluffy, lustrous condition, due to the crude petroleum contained in it. Large tube 25c. Crudol Products Corporation, 1777 Broadway, New York.

FINNERAN WITH FEDERALS

Lowell Hurler Who Led New England League Pitchers Signs With Baltimore "Outlaws"

Joseph Finneran, the crack pitcher, who led the "little old league" in the pitchers' percentage column last season, will wear a Baltimore uniform of the Federal league next season, according to the announcement made by Otto Knebe, manager of that club, yesterday.

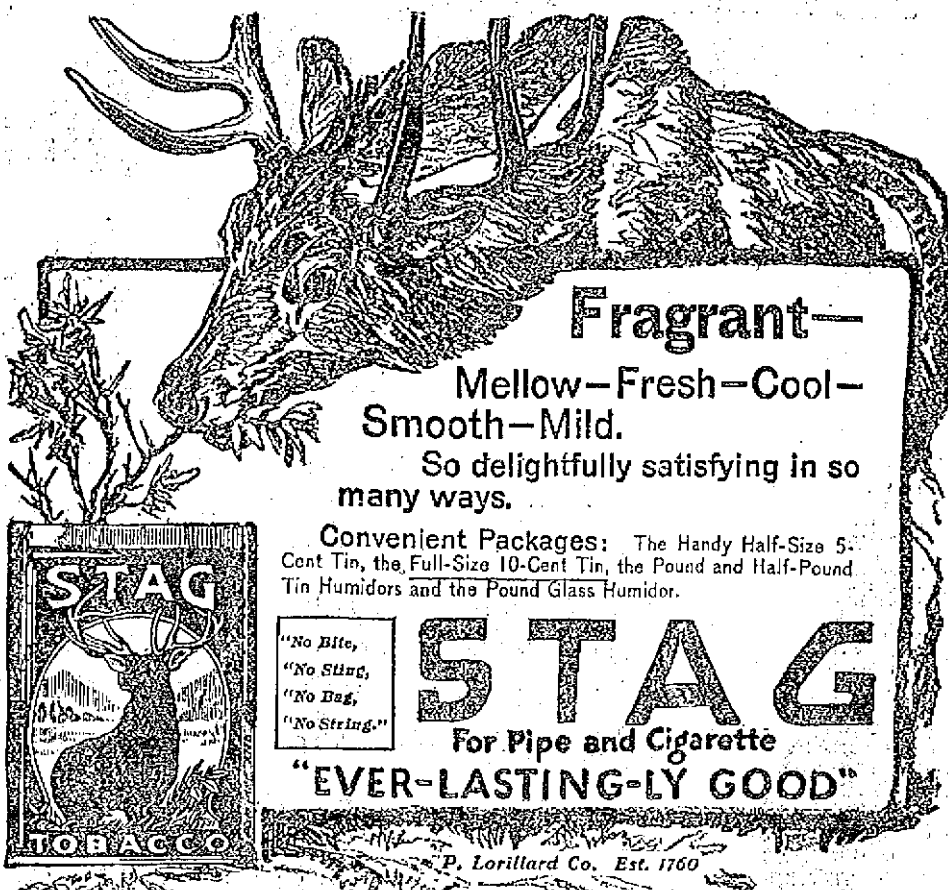

Finneran, it will be remembered, was procured by Manager Gray from the Phillies as a farm product last year toward the end of the season. His work, however, was of such a high order that Doolin recalled him at the close of the New England league season.

The fans will remember the spirit of elation which was felt here when it was learned that Finneran would report in Lowell for the post-season series with Hartford of the Eastern association and what a wonderful game Finneran pitched in the first contest. Without Finneran Lowell would have had a difficult time in sewing up the inter-league series.

Manager Doolin of the Phillies, although he recalled Finneran, did not think well enough of him to retain him for this season and ordered him to report to Birmingham, Ala. Finneran started his baseball career in the south and has been afflicted with malaria since that time as a result of the change in climate. Consequently the ex-Lowell slasher informed Doolin that he would not report in the spring to the Alabama team.

However, Doolin evidently thought, as most managers do, that a ball player changed his mind over night and paid no attention to the futile kicks registered by Finneran. The latter, nevertheless, set about in his own way to effect a change and yesterday's announcement by Knebe is the result.

That Finneran will make good in fast company the fans in Lowell entertain small doubt for he showed everything here last year that goes to make up a classy box artist. His greatest asset was his out curve which broke with wonderful speed. Finneran will receive a far larger salary with Baltimore than he would have gotten had he been retained by the Phillies.

FRANKLIN LOST

Lowell Basketball Five Defeated the Home Team in Furtive Contest—Grant Featured

A basketball team composed of Lowell players traveled to Franklin, N. H. last night and took the team of that town into camp by the score of 15 to 8. The contest was one of the best seen in that place this season. Lowell was superior in all departments of the game but their unfamiliarity with the floor handicapped them. Grant was the star of the game for Lowell. The lineup:

LOWELL: Mansur, cf; Cunningham, lf; Murphy, c; Mulvanity, rf; Grant, lb.

Score: Lowell 15, Franklin 8. Goals from the floor: Grant 4, Cunningham 2, Mulvanity 2, C. Thompson 3, Hamilton 1. Goals from fouls: Lowell 2, Franklin 2. Referee, Barnaby; Time, 20 minutes. Time: Two 15 and one 10 minute periods.

BOB FITZSIMMONS WON

WILLIAMSPORT, Penn., Jan. 30.—Bob Fitzsimmons celebrated his return to the ring in rather good fashion in his bout with Dan Sweeney of Cleveland last evening. Bob demonstrated that he is at least better than one "white hope."

During the six rounds Sweeney dropped to the floor 11 times and Bob received only one blow. This came in

the second round and the freckled fighter was considerably taken back. The blow stirred him up, however, and he landed an avalanche of blows on Sweeney. This ended the Cleveland fighter and he hit the mat 10 times in the remaining four rounds.

Fitzsimmons weighed in at 169 1/2 pounds and appeared to be in the best of condition. He is as shifty as old and said that he should have knocked Ed Sweeney out, but that his hands are tender and that he is afraid of injuring them. He said that he is willing to meet any white hope in the country. Sweeney weighed 133 pounds.

STEAMER TRAFFIC TIED UP

NEW YORK, Jan. 30.—New York and its adjacent waters were again enveloped in a heavy fog this morning. Water traffic in the early hours was suspended and the movement of trains and cars in and near the city was slow and uncertain.

Down the bay and in the lane to the ocean, the tides of steamer traffic was absolute. Not a liner came in over night and the marine stations, for the first time in years had nothing to report at daybreak.

NOW JUDGE SULLIVAN

Hon. Charles F. Sullivan of Charlestown, who has been confirmed as judge of the municipal court in that part of Boston, is well known in Tewksbury where he has his summer home. He was chairman of the lawn party conducted at the novitiate last summer where he met many Lowell people and made many warm friends.

Eat "Sunkist" Oranges with "Sunkist" Spoons

While you are eating luscious, juicy, tangy, seedless "Sunkist" oranges, you are delighted with the magnificent silverware you are getting for your table.

You always order "Sunkist" oranges and lemons because they are the finest, richest, selected fruit grown anywhere in the world.

Picked and packed by gloved hands—the cleanest of all fruits. Thin-skinned, fibreless.

Not a Seed in "Sunkist"

Cut the trademarks from the wrappers around "Sunkist" oranges and lemons and send them to us. Select silver pieces from our 27 different premiums. Every piece the famous Rogers Standard A-1 guaranteed silver plate.

The Rogers orange spoon shown above is sent to you for 12 trademarks from "Sunkist" oranges or lemons and six 2-cent stamps (to pay cost of mailing, etc.). Trademarks from "Red Ball" orange and lemon wrappers count same as "Sunkist."

Buy "Sunkist" oranges by the box, half-box or dozen—from your dealer.

Send your name for our complete free premium sheet and Premium Club Plan.

Send all orders for premiums and all inquiries to

RECORD BROKEN

By Calvary Baptist Team in Baraca League—Kennedy High Man

The Baraca league rolled off two scheduled games last night. The Calvary Baptist team broke the high team total record of the league, which was held by themselves, in their match with St. Paul's team. The score was 1667 to 1223. In the other contest the First Trinitarian five were returned the winners over the Highland M. E. bowlers by a margin of 23 pins. Kennedy of the Calvary Baptist was high man with 312 and 116.

The times when the C. M. A. C. league game with the Orange rollers last night by the score 1261 to 1200. Blanchette was high man in this match but was pushed hard for premier honors by Bourque.

The Riversides were defeated in the Concord league by the score 1261 to 1200. The result, blotted upon the last string, Wilkes was high man with 303.

One game was rolled off in the Manufacturers' league between the Hamiltons and the Appletons in which the latter team was beaten by the score of 1313 to 1354. Van Zant was high. The scores are as follows:

BARACA LEAGUE

Calvary Baptist: Myrick, 287; Davis, 287; Kennedy, 312; Perrin, 303; Moore, 287; totals, 1567.

St. Paul's: Burr, 267; Exley, 282; McElroy, 216; Shepard, 234; Richardson, 274; totals, 1323.

First Trinitarian: Hoban, 273; Barlow, 261; Hibbs, 272; Kilpatrick, 242; Brown, 285; totals, 1313.

Highland M. E.: Harrison, 253; Holden, 243; Marshall, 259; Abbott, 279; Maguire, 253; totals, 1294.

C. M. A. C. LEAGUE

Blues: Blanchette, 272; Calisse, 247; L. Lavallee, 255; J. Lavallee, 234; L. Hecoux, 250; totals, 1261.

Oranges: Bourque, 224; Desmarais, 226; Lamoureux, 253; Achin, 222; Bouque, 271; totals, 1200.

CONCORD LEAGUE

Invincibles: Choquette, 265; McMahon, 275; Hinesley, 263; Rogers, 269; Burns, 245; totals, 1330.

Riversides: E. Curtin, 270; J. Curtin, 210; Forbes, 249; Wilkes, 300; T. Doris, 275; totals, 1313.

MANUFACTURERS' LEAGUE

Hamilton: A. Mosher, 234; Van Zant, 277; M. Mosher, 269; Paul, 254; Hudson, 277; totals, 1313.

Appletons: Dunning, 256; Marsden, 247; Roche, 241; Graves, 271; Provencher, 239; totals, 1254.

PLANNING BOARD

Mayor Fitzgerald of Boston Names Four of the Five Members—To Name a Woman

BOSTON, Jan. 30.—Four of the five members of the new city planning commission which was provided for under an ordinance recently passed by the city council, were named by Mayor Fitzgerald yesterday. The city planners appointed are Ralph Adams Cram, president of the Boston Society of Architects; William C. Ewing, an engineer, who is in the head of the chamber of commerce city planning committee; Henry Abrahams, secretary of the Boston Central labor union, and John Jackson Walsh, an East Boston attorney.

Under the city planning ordinance one member of this board must be a woman. The mayor stated yesterday that he had the name of three or four women under consideration for this place. He would not say who these women are.

SALEM GIRL ATTACKED

SALEM, Jan. 30.—The condition of Miss Mildred Nook, the young nurse who was brutally assaulted on Essex street, this city, yesterday morning, is reported as being much improved. In the early part of the afternoon she was suffering a complete nervous collapse and was attended by two nurses.

Walter J. Ward, Jr., 21 years old, of 411 Essex street, was identified by her as the man who had assaulted her. Judge Dennis W. Quill, in the local district court, held him in \$2000 for the grand jury on the charge of criminal assault.

WORK OF ENEMIES

"Well, what did your wife say to you?"

"She said plenty."

"You always seem to have friends to take you home after these banquets."

"Not friends. My enemies do it."

LIVE BITS OF SPORT

A fast game of basketball is looked for at the Lawrence armory tomorrow night when the local Y. M. C. I. team plays the Army A. A. of that city. The Institute boys are in good shape for the game, but realize that their opponents have a classy aggregation of shooters. A large delegation will accompany the local quintet.

It looks as though boxing was done in New Bedford for a time, at least. The principals in the Yelle-Mohr bout were all hailed to the police station after the bout and the district attorney has announced that such will be the procedure whenever a fight is staged in that city. There are very few clubs in New England today which are staging bouts.

Eddie Riley has at last been appointed secretary to the Red Sox for the coming season. Riley is a great favorite with both the Lamdin and Taylor factions and has been serving as temporary secretary since the new regime went into effect at American league headquarters in Boston.

Lawrence is getting to be as bad a town for raw decisions as several of the other clubs in New England which have been put on the scrapheap's black list. It is too bad for a promoter of Jim Gilley's reputation to have to put up with the sort of referee performances that have been pulled off at his club lately. Last night Johnny Glover gave Joe Nelson of Lawrence a vicious round during the entire twelve rounds of their battle and only received a draw. Glover boxed it in every round and had the Lawrence boy groggy in three rounds.

JUDGE HALL DEAD

AUGUSTA, Me., Jan. 30.—Oliver Gray Hall, judge of the Kennebec county court for 21 years until his retirement three years ago, died today after an illness of several weeks. He was born at South Thomaston in 1841.

ECZEMA ITCHED AND BURNED BADLY

Appeared as Pimples, Scratched and Made Sores. Couldn't Sleep. Used Cuticura Soap and Ointment. Cured in Three Weeks.

164 Main St., Spencer, Mass.—"My husband's trouble began by chapped hands like, then they started to itch and it was bad. They said all he could do was to keep them out of water; that it was eczema. The eczema appeared as pimples and it itched and burned so badly that he was unable to scratch it and it made sores. It turned to scabs and wouldn't sleep. It itched and burned all the time. He wore gloves to prevent dirt from getting in his hands.

"He used all kinds of remedies that everybody told him but they never did any good. The trouble lasted five years. I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. I tried that and it began to look better so I bought a cake of Cuticura Soap and a box of Cuticura Ointment. I washed his hands with the Cuticura Soap, and then put on the Cuticura Ointment and he was cured in three weeks." (Signed) Mrs. George Truett, Sept. 27, 1913.

It costs nothing to learn how pure, sweet, effective and satisfying Cuticura Soap and Ointment are in the treatment of poor complexion, red, rough hands, itching scalp, dandruff, dry, thin and falling hair, because you need not buy them until you try them. Although sold everywhere, sample of each will be mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

179 men who shave and shampoo with Cuticura Soap will find it best for scalp and scalp.

AD WOLGAST WON

YOND DU LAC, Wis., Jan. 30.—Rudolph Unholz, the Boer, was knocked out last night by Ad Wolgast, former lightweight champion in the second round of a scheduled 10 round bout after a game but hopeless fight. Unholz took the count of nine four times in the first round and once in the second and was feeling helplessly around the ring when after one minute and 35 seconds of fighting, in the second round, his seconds tossed a towel into the ring.

SP. JOHN'S WON

St. John's A. C. basketball five went off Riley's Feds last night and got them by the close score of 27 to 20. St. John's was in the lead most of the way in every department although the losers put up a stiff battle. Greenwood and Duile featured. The summary:

DIAMOND NOTES

By cable from the other side of the world comes the news that Comiskey and McGraw have signed their players who are trotting around the globe with them. Comiskey and McGraw first learned of the Feds' activity when they arrived in Australia.

Wegman of the Chicago Feds says he will keep Russell Ford, Cole, Packard and Brennan, all pitchers. Tinker can fill in the other positions with sand lot players and win the Federal league pennant in a walk if he can use these boxmen.

Fritz, one of Connel Mack's extra infielders, has been sold to the Troy club of the New York state league.

Cy Morgan, the former Athletics' pitcher, has signed with the Kansas City club of the American association.

J. A. Gilmore, the fighting president of the Federal baseball league, has been in the front before. As a veteran of the Spanish war and of service in the Philippines, he knows military tactics. As a successful coal dealer and manufacturer, he knows something of business warfare.

James Cooney's signed contract was received at the Red Sox's office. Cooney played a brilliant game at shortstop last season with the Worcester team, and will be taken south with the team March 6.

"Bridle" Cree, the New York American outfielder announced that the Pittsburgh Federal league team has offered him \$3000 a year for three years and has promised to deposit half of that amount if he signs a three-year contract. Cree has not given his decision.

Bill Steele and Ed Peritt, pitchers, have sent in their signed contracts to play with the St. Louis Nationals during the 1914 season.

The Philadelphia National league club announces that it had accepted the terms of Pitcher Seaton, Outfielders Becker and Devore and Infielder Reed. Reed formerly played with the Davenport, Ia., team.

Another signed contract, that of Luther Cook, the young Texas outfielder, has been received by the New York American league club.

Frank Owens, catcher for the Minneapolis American association club last year, who was drafted by the Washington Americans, has signed a three-year contract with the Federal league.

It has been announced by the Detroit American baseball management that the signed contracts of George Moriarty, third baseman, and H. E. Helman, first baseman from the Portland, Oregon club, had been received.

Chester Chabourne, outfielder of the Portland club of the Pacific coast league, is reported as having signed with the Kansas City Feds.

Larry Gilbert, the hard-hitting outfielder obtained by the Boston Nationals after Riley's Feds last night and got them by the close score of 27 to 20. St. John's was in the lead most of the way in every department although the losers put up a stiff battle. Greenwood and Duile featured. The summary:

SOUTH END CLUB

Second Annual Dancing
Party Held Last Night
—A Great Success

Associate hall last evening was the scene of a very pretty dancing party when the members and friends of the South End Social club gathered to the number of nine hundred, for the second

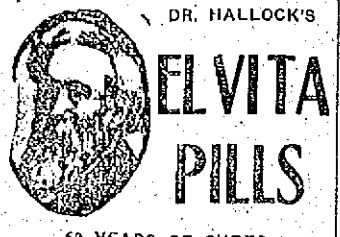

EDWARD J. McMAHON
Floor Director

annual social and dance of the organization. The affair proved to be one of the most successful informal events that has been seen here this season. The light fantastic was merrily tripped by the large number of young people present until midnight and the hearty manner in which the last waltz was danced demonstrated conclusively that those present had thoroughly enjoyed themselves during the evening. Those who had charge of the dance were as follows: General manager, Thomas H. Donoghue; assistant general manager, Joseph E. Donoghue; floor director, Edward J. McMahon; chief aid, Rep. John J. Gilbride. The officers and members of the club are as follows: President, Thomas H. Donoghue; vice-president, Joseph E. Donoghue; treasurer, John A. Quinn; recording secretary, Arthur J. Coll; financial secretary, J. Henry Gilbride; sergeant-at-arms, Walter Lyons; board of directors, James O'Dea, Frank O'Connor, William J. Gargan, William McCarter, Frank J. Donnelly, chairman. Members of the club: Thomas H. Donoghue, John Quinn, Rep. John J.

Gilbride, Edward McMahon, Joseph Donoghue, Thomas Benkins, John McMahon, Joseph Muldoon, John L. McDonough, Andrew Dowd, Charles Kinsella, Francis J. Roane, Frank J. STOCKS ROSE RAPIDLY

IN EARLY TRADING—GOOD DEMAND FOR SHARES—ADVANCE OUTMEASURED SETBACK

NEW YORK, Jan. 30.—The setback which the market received yesterday apparently strengthened its position for a stock rise rapidly in the early trading today with nothing in the way of new influences to stimulate them. There was a good demand for shares of all classes. Pressed steel rose 2 1/2, Can. Pac. and Reading, Illinois Central, Northwestern, Lehigh Valley, Biscuit, Texas Co. and American Loco., a point or more. The rapid decline of the Rumsey stocks continued, the common falling three to 9 and preferred 2 to 2 1/2, both new low records. The reactionary movement of the week was checked today and prices rose in spirited fashion. Bull traders bid up prices confidently. The optimistic feeling in foreign markets was reflected in purchases for foreign accounts which assisted the rise. Denial from Washington of recent reports that important developments in the Mexican situation were imminent removed an obstacle to bullish speculation. Gains of 1 to 2 points were well distributed through the list. The decision of the federal courts against the railroads in the Missouri rate case led to selling of some western railroad stocks shortly before noon and Missouri Pacific reacted a point. Pressure was lifted from the stocks directly affected by the Missouri rate decision and the market made further improvement. Shorts found it increasingly difficult to obtain stocks without running up prices. The advance outmeasured the setback due to bear selling on any of the preceding days of the week. Placing of large equipment orders by railroads in anticipation of increased traffic spurred on bullish activity. The market closed strong. MONEY MARKET NEW YORK, Jan. 30.—Mercantile paper 3 1/2 at per cent. Sterling exchange easy; sixty days 4 1/2; for demand, 4 1/2; commercial bill 4 1/2. Bar silver 37 1/2; Mexican dollars 45. Government bonds steady; railroad bonds strong. Call money steady 1 1/2 at per cent; ruling rate 1 1/2; best loan 2; closing 1 1/2. Time loans easy, 60 days 2 1/2; 90 days 2 1/2; six months 3 1/2. COTTON SPOT Cotton spot closed quiet. Middling Uplands 12 1/2. Middling Gulf 13.00. Sales, 4,942 bales. WON'T DESTROY OLD SEAL It is satisfactory to learn that the old mayoral city seal after all is not to be broken up, but will be preserved for its great historical interest. It bears the earliest known representation of the city's coat-of-arms, and so desirable is the court of aldermen for its perfect preservation that on its withdrawal it was not even de-

CAPTAIN FULLAM

To be Superintendent of
the Naval Academy at
Annapolis

WASHINGTON, Jan. 30.—Capt. W. H. Fullam, an aid to the secretary of the navy, has been selected to be the new superintendent of the Naval Academy

CAPT. W. H. FULLAM

at Annapolis. He will take charge early in February and will succeed Captain John M. Gibbons. Captain Gibbons has been ordered to command the battleship Louisiana on Feb. 7. Captain Gibbons has been on duty at the Naval Academy since May, 1911, and this change is made at the end of the first term, after the semi-annual examinations which took place last of January, at the request of Captain Gibbons, who has asked for sea duty. Captain Harry A. Field, U. S. N., at present in command of the Louisiana, has been ordered to duty as captain of the yard at the navy yard, Portsmouth, N. H. PROF. BOSWORTH WILL RECOVER Mrs. Edward Martin, of 631 Fletcher street, is in receipt of a telegram from the doctors of a hospital in Chicago to the effect that her only brother, Prof. Thomas Johnson Bosworth, who was mysteriously and brutally assaulted by

burglars a few days ago, will recover. According to a Chicago despatch the professor had his throat slashed by two negro burglars in the office of the Chicago Latin school, where he was employed as teacher.

CARE OF DISEASED HOGS

Good Plan to Have Quarantine Pen Ready for Use at Moment's Notice. Did you ever think of a quarantine pen for hogs on the farm? By a quarantine pen is meant one or a few pens that are situated a safe distance from the main hogpens or yards. Such a pen should contain comfortable sleeping quarters as well as room for exercise, and should be so arranged that the owner need not go inside to feed or water the hogs. Such an arrangement is a very wise plan to follow, although it may seem like a lot of bother. As the number of hogs increases the prevalence of disease will become more common and troublesome. Already cholera has found its way into many sections of New England. Every new hog coming to the farm should be kept by itself for 10 days or two weeks. Then if it shows no signs of sickness, spray it with a good dip and let the animal go into the herd. Keep the quarantine pens clean and ready for use. If any of your hogs get sick, and you have any reason to suspect a contagious disease, at once separate the well animals from the suspected ones. NIGHT PROMOTERS IN COURT NEW BEDFORD, Jan. 30.—The five men arrested as alleged prize fight promoters pleaded not guilty on arraignment in the third district court today and their cases were continued for trial a week from today, Feb. 6, by agreement of the state officers connected with the case and John E. Lowmy, counsel for the defendants. YOU'RE CONSTIPATED, BILIOUS!—CASCARETS Clean Your Waste-Clogged Liver and Bowels Tonight! Feel Bullly. Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets. Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to the headache, biliousness, dizziness, nervous, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery. A ten-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

GREECE AND BULGARIA

When the little nations of the Balkan states allied themselves against their common enemy, the Turk, the sympathy of all Christian nations went out to them, for it was generally conceded that they fought to throw off a yoke that had become unbearable, and were striving valiantly against the worst forms of tyranny. Consequently when their efforts were crowned with success, there was general rejoicing, and it was felt that the power of the Muslim in Europe had been broken beyond hope of repair. Within a short time, however, a little cloud arose to mar the glory of the victory, and the cupid of Bulgaria threw the brave and struggling countries once more into the horrors of war and gave to Turkey an opportunity to wrest from the victors some of the territory so bravely won.

The second war was the means of bringing on all the countries which participated in it a great deal of suffering and misery, the effects of which are in evidence to this day. At the present time, Bulgaria is making an effort to arouse the sympathy of the world and is collecting funds here in order to repair some of the damage. While there is no doubt that there is urgent need in that country, its attitude only serves to throw into stronger relief the nobler attitude of the other Balkan states, Greece, for instance, which is striving to meet the needs without recourse to world pleas for assistance. Furthermore it was due to the selfishness and greed of Bulgaria that the other nations are now so distressed.

A great deal of sympathy was turned from Bulgaria by the undoubted atrocities committed by her soldiery during the war for spoil. These were such as to shock the civilized world. The Bulgarian leaders felt ashamed of these excesses when the war was over and strove to lessen their gravity but the very protests of church and army dignitaries of Bulgaria may be cited abundantly to prove that these ran unchecked in the Bulgarian army and that wholesale murder and robbery was the order of the day. Much of the want and destitution of Bulgaria would be relieved were the government to insist on the surrender of the blood stained booty robbed from mosque and pillaged home during a war that has left deep stains on the national honor of Bulgaria.

It is a relief to turn from the misery of Bulgaria and her present dependence on the charity of the world, to Greece, which though sorely stricken, is doing so much to get back her former prosperity and to heal the wounds left by the Bulgarians as well as the Turks. She has respected the religious feelings of the Mohammedans conquered and given them back their mosques. She has given government protection to hundreds of thousands of refugees and provided them with the comforts scarce enough for her own. Her people have shown unselfish patriotism and devotion to high principles. She has far greater claims on the sympathy of the world than has Bulgaria, stricken by wars that were largely the result of her own misdeeds.

CURE OF DRUNKENNESS

The committee appointed by the legislature to study the question of drunkenness in this state has just made its report and has given many suggestions on what it considers the best means to correct and control the habit, which, according to the committee is growing in Massachusetts. Last year there were more than 100,000 arrests for drunkenness in this state. With the exception of first offenders, most of these were sent to jail or fined. According to observation and the report of the committee, this method of correcting the evil or punishing the offender for what is still legally considered a crime is wholly inadequate, if not unjust, and it is a question if fines or jail sentences do not do more to foster drunkenness than to cure it.

The Boston Herald traces the effect of jail sentences on the character and habits of the drunkard and shows that they but confirm him in his unfortunate tendency. The individual who has been confined to jail for drunkenness usually loses his position and the respect of his acquaintances. Often he loses the sympathy of his family. The result is discouragement, and discouragement is the compelling influence that leads him back to the saloon. The statistics compiled by the legislative committee reveal that of those who had been arrested and imprisoned during the year, fully two-thirds had already been committed from six to fifteen times. More than a thousand had served from sixteen to thirty sentences, and there were several who had served up to fifty sentences.

The recommendations of the committee are in line with those of advanced humanitarian bodies everywhere, that is that drunkenness should be considered more as a disease than as an offense against law. Fines and imprisonment are still retained for the criminal type, but those early in the game are recommended to the care of the state. This, it is said, would

result in the cooperation of the drunkard while the present system only makes him determined to get back to the vice that has enslaved him. If the recommendations are followed, many drunkards will be sent to state hospitals instead of jails. Incredible as it may seem, this system would not be as costly as that now followed, for the cost to the state at present is enormous. The suggestions of the committee deserve the closest attention.

CHRIS. CALLAHAN FOR JUDGE

The appointment of Christopher Callahan to the vacancy on the superior court bench is one of the very best that could be made; and Governor Walsh is to be congratulated upon the excellence of his choice. While he has long been active in democratic politics, Lawyer Callahan is too broad minded and he stands too high in his profession to allow political bias to sway his judgment in the discharge of his judicial duties. His fairness as district attorney has given proof of this, so that his appointment for that reason is applauded by republicans as well as democrats. While Christopher Callahan's services to the democratic party deserved recognition, yet it was not this consideration that swayed Governor Walsh, but rather the candidate's distinction as a lawyer, his eminence as a public speaker and a statesman, together with his experience as district attorney and a general all-round equipment for the highest, clearest and ablest exercise of the judicial functions.

The appointment can elicit only the highest commendation for the good judgment and faithfulness to his high responsibility shown by the governor in this, his first appointment to the bench.

MERRIMACK RIVER

The waterways committee of the Lowell board of trade is acting wisely indeed in striving to stir up local enthusiasm in the project for the navigation of the Merrimack river and impressing on the legislative committee on rivers and harbors the advantages of the great improvement to this city. It is an important project of national significance and it should be given support in accordance with the issues involved. It is not given to this city every year to share in the good accomplished by an appropriation of five millions, and it would be a lasting reproach were the navigation scheme to fall in any particular through the apathy of our citizens. It is to be hoped that the waterways committee of the board of trade will be able to get a representative committee of 75 or more, and that furthermore they will surround their mission with all the business atmosphere that it calls for. The opportunity for Merrimack river navigation has never looked more rosy than at the present time.

ANOTHER BANK RUN

Owing to the unfounded rumors that went the rounds in South Boston a few days ago hundreds of people withdrew their money from one of the savings banks there and were it not that other institutions gave prompt assistance and that the alarm was quelled in time, the results would have been serious. It so happened, however, that things righted themselves speedily, and as the Boston Post remarked truly the only losers were those who by their unthinking haste lost six months' interest on their deposits—about \$1000 in all. The regulations regarding the depositing of money in the savings banks of Massachusetts are so searching and the protection is so thorough that there should be little fear of bank failures in the public mind, and the stories of those who would announce disaster ahead should be listened to with incredulity. Under the revised currency act, there will be reason for still greater public assurance.

VALUE OF COURTESY

A circular just issued by the St. Louis and Southwestern railroad urges upon all employees of the road the necessity for courtesy. "Courtesy is to be distinguished from civility," it says, and continues: "The latter won't do; it is short of the mark." It sums up the whole argument in favor of courtesy on the part of the employees of public service corporations as follows: "It means dollars to us; preferment to you. In their application the advantages of courtesy work both ways. And remember, no man is too big to be courteous—rather many men are too little." How many there are who would wish the lessons of this circular to be taken to heart by a discourteous conductor, expressman, letter carrier, or clerk in a store. Courtesy soothes many a wound that not all the blandishments of expert service can heal when it is lacking.

THE NAVY SCHOOLS

It must be gratifying to Secretary Daniels that the navy schools advocated by him are proving so successful. Though in operation but a month or so, there is no lack of pupils, and the enlisted men are showing great eagerness to avail of the new opportunities.

It is also a matter for congratulation that the favorite courses are those of a mechanical nature in line with the work of the men, for in taking up such branches they show a desire to advance themselves and be more of a benefit to the service. The educational cruises and the naval schools will certainly have a powerful effect for good on the personnel of the navy.

EDITORIAL COMMENT

A GOOD SIGN
Lowell Courier-Citizen: "Seals" on the New York stock exchange are now quoted at \$55,000. The latest sale showed an advance of \$5000 over the last previous sale, which in turn was the same amount better than its predecessor. The tendency is clearly upward for obvious reasons. There is now more business on the exchange than for months, and that means profits for the brokers. It is a pretty good sign of reviving prosperity.

JUDGE CALLAHAN
Boston Herald: In the selection of Christopher J. Callahan of Holyoke, as judge of the superior court, to take the place made vacant by the death of Judge Pratt of Lowell, our new governor has made an excellent choice. Mr. Callahan is a lawyer of ability and attainments, and has been long identified with the better aspirations of his party.

SEAMEN'S BILL
Chamber of Commerce News: Ever since the Titanic disaster a seamen's bill has been a hot issue, not only with the maritime people, but also with the man in the street. There have been half a dozen seamen's bills, and now one of them has passed the senate and is up for consideration in the house. Adverse criticism of this bill comes from many quarters. An interesting comment on it is found in the interview with the chairman of the chamber's committee on maritime affairs, which we publish in this issue. Another interesting comment is in a letter to the New York Herald by Capt. R. C. McClellan of the revenue cutter service, retired, now superintending the construction of lifeboats and apparatus for the life-saving service. He condemns the provision of the bill requiring passenger vessels to carry "two able seamen" for each lifeboat.

THE RIDER
Worcester Post: The national good roads-aiding proposition, whatever its merits or faults, is properly before the congress as a "rider" on an appropriation bill. When measures cannot win without resort to this method of blackmailing legislation and executive signature, they ought at least to wait for enactment.

THE PRISONER'S FAMILY
Boston Post: It is easier to sympathize with Julian Hawthorne and others who desire to have prison life made less dreary for inmates, if one can succeed in forgetting the prisoners' wives and children somewhere in the world outside seeking food and shelter during the enforced absence of the family's natural wage earner. At least, the prisoner has enough to eat and a place to sleep, each of his kind; but what of the dependent ones he has left outside? Aren't they factors in the prison reform problem, too?

Seen and Heard

A friend, father of a girl of high school age, tells this: She liked a certain boy, and another boy attempted to ingratiate himself with her, frequently calling her upon the telephone at her home to which her father objected. Meeting him on the street, she asked who he was and how he knew her. With a boy's whininess, he said he had five cents with which to "phone, but had bought a "hot dog" instead. It is hardly necessary to say he never called again.

Congressman W. S. Greene of Fall River owns an interesting and valuable copy of a speech which was delivered in the house of representatives at Washington by Abraham Lincoln in 1855. In his address Lincoln speaks of the fact that Washington's administration cost in eight years but \$15,000,000 and contrasts with the fact that Van Buren expended \$10,000,000 in one year. Mr. Greene asserts that this speech is not included in the published biographies of Lincoln and that, therefore, the copy in his possession is of great value.

Placing the family photograph on the library table, Mrs. Ravensely said to her husband: "I have an old record here, Henry, and I want to see if you can guess what it is."

When a weird succession of sounds

Hyomel Relieves in Five Minutes

If your head is all stuffed up from a cold or catarrh, you suffer with dull headaches and seem lacking in vitality, or are constantly sniffling and coughing, you need a remedy that will give the quickest, most effective and lasting relief possible—something that will go right to the spot, clear the head and throat and end your misery.

Surely use Hyomel—all druggists sell it. It is just such a remedy, and is entirely harmless and pleasant to use—you breathe it—no stomach dosing. This antiseptic oil of Hyomel mixed with the purest bromine—its healing and medicinal properties immediately reaches the sore and inflamed mucous membrane—you feel better in five minutes. It is practically impossible to use Hyomel and not only be relieved but permanently benefited. Ask for the complete outfit—\$1.00 size.

began to come from the horn of the instrument, Ravensely knitted his brow and tried to identify them.

"It's a buzz saw plowing through a knoll," he ventured.

"Guess again," said Mrs. Ravensely. "A slide trombone in full cry."

"Hardly."

"Cat concert?"

"Nope."

"Hoot owl with his toes in a trap."

"Smiling grimace," Mrs. Ravensely shook her head in the negative.

"Give it up," finally said Ravensely; "but as one last guess I'll say that is sounds very much like a siren whistle with the pip."

"I will agree that it is as bad as all you have named," Mrs. Ravensely remarked, "and I hope it will save a lot of argument in the future."

"But what is it?" insisted Ravensely.

"It's a record I made in your bedroom the other night," replied Mrs. Ravensely, "to prove to you that you really do snore in your sleep and to let you know just how awful it sounds."—Judge.

A strong plea for higher scholarship requirements and drastic action in the case of the man who fails

Sick Children Made Well

Every mother likes to see her children the picture of health and vitality.

I find that the stomach is a source of constant trouble to some children and there is a constant need of some safe remedy. A disordered stomach, too, frequently breeds worms.

You can absolutely depend upon Dr. Tru's Elixir to expel worms and tones up the stomach, bowels and general health.

Dr. Tru's Elixir, the discovery of my father, has been on the market for over 60 years. That's proof of its efficiency. Get the time-tried Dr. Tru's Elixir, the Family Laxative and Worm Expeller. Good for adults also.

At your dealer's, 35c, 50c and \$1.00. Advice free. Special treatment for tapeworms. Send for book.

Autumn, Maine. Dr. Tru

to maintain a passing mark in his studies is made by The Yale News. It associates the expulsion from college of a student who has failed in his studies, instead of dropping him to the class below, as is the custom now.

Referring to the intellectually lagged as "the dregs," The News declares: "In the treatment of the deficient, Yale university shows too much mercy. The passing mark is within the reach of everybody not publicly confined. It is ridiculously low. Yet, for not believing it, either through indifference or superhuman dullness, almost nobody is ever expelled. The dregs merely gravitate. The expulsion of the dregs might have a beneficial effect upon those nearing that level."

Recently a child after listening to his Sunday school teacher tell how the devil is around everywhere, always trying to get children to do wrong things, put up his hand and asked:

"Teacher, who minds hell while the devil is out?"

A practical joker carried an onion in his pocket to the depot when bidding farewell to a young lady and took a bite now and then to induce tears. Before the train departed he had eaten the entire onion. The young lady, perceiving the situation, remarked, "Ah, you have swallowed your grief!"

"Can any of you tell me," the Sunday-school teacher asked, "why Daniel, when he was cast into the den with the lions, was unharmed?"

"I can, please," piped the juvenile head who always figures in this brand of anecdote.

"Well?"

"Cause, teacher, he blonged to the show."

Did you ever mislay anything, not know where to find it and have it turn up at an unexpected moment, something to your embarrassment?

A lady living in this city was visiting in a neighboring city and was invited to stop to dinner. The meal progressed finely until it came to the dessert, when the hostess brought on a large dish of custard—one of those old-fashioned custards made with real eggs laid by real hens on a farm—and the visitor's mind was

lured. A large spoon was procured and a goodly portion of custard was just about to be removed when some-

thing was encountered and it was explained by the good lady of the house as she exclaimed:

"There, I wondered all day where I laid my dish towel, but didn't think I had turned that custard over it!"

GOOD BUSINESS REASON

"But why," asked the observer of men of the itinerant musician, "why do you play an accordion? Nobody likes the accordion any more."

"Ah, signor, I have da reason. Da pen who no lika da accord pay me da big mon to stoppa ma noisen."—Judge.

CASH REWARDS OF LITERATURE

"In this day and time," says a Georgia editor, "the literary fellows don't wear their hair falling in curls over their shoulders. Why, they make enough now to have it trimmed as regularly as other human beings; and still our foreign critics say there's no such thing as 'American literature!'"—Atlanta Constitution.

HEARD HIM SAY IT YESTERDAY

What has become of the old fashioned man who used to say, "I says, says I?"—Toledo Blade.

SKIM MILK AN EGG PRODUCER

A farmer in Massachusetts figures that skim milk fed to pullets is worth 1 1/2 cents per quart. Having some milk that he could not sell he gave it to the pullets, and noticed that their egg production immediately increased.

When he found a market for the milk and stopped giving it to the hens, they began to lay less. He again started with the milk, and in a short time the egg yield had almost doubled.

ONE OF THE FEW WITHOUT COLD

"How many handkerchiefs a day are you using now?" asks the Boston Globe. "I am using an average of a dozen a week and they are larger than postage stamps, too."—Lawrence American.

HORNE COAL CO.

ACCEPTANCE OF \$720 LOT

Would Cost City More Than \$25,000—Ward Land Burdensome Trap, Says Pawtucketville Man

The prominent Pawtucketville resident who gave an interview to The Sun a few days ago relative to the contagious hospital question came across again this forenoon with another burst of indignation and made the following statement:

"The desperate effort of the Andover street remonstrants to the Pillsbury property to lead the public to believe that any comparison can be made between the Pillsbury property of cloven and one-half acres—all graded and developed, with beautiful trees and buildings worth at this moment more for hospital purposes than the \$21,000 asked for the property—and the four acres of bare waste land without streets, sidewalks, sewers, water or lights, adds to the feeling of suspicion and distrust of these Andover Street remonstrants and to the general condemnation of their behavior. It will not be forgotten that the conflict into which the community is now plunged is the result solely of the attitude of two or three Andover street residents after the matter had been fully settled. The complaint that the city is now to be subjected to the cost of a special election comes with poor grace from them, as they were the first to circulate petitions for a special election on the referendum.

Behind Woman's Skirts

Hiding behind the skirts of a woman, Mrs. Dexter, who, with money subscribed by the Andover street people becomes the nominal donor of this little, insouciant area of waste land, these people seek to trap the city into its acceptance, with the consequent tremendous expenditure which immediately would be needed. At the least calculation, a sewer 1250 feet long

would have to be run to Varnum avenue through hills and valleys at a cost of not less than \$10,000. Beyond that, a further run of sewer would have to be made in Varnum avenue as far as Brooks street, a further distance of about 3000 feet. A street with cuts and fills would have to be built across private land which would have to be purchased a distance of 1200 feet from Varnum avenue in to the Ward land. Sidewalks, water mains and lights would all have to be provided, because it will not be forgotten that this Ward land is only a ledge pasture. It is at once apparent that this Ward land, by the time it was in condition even to begin the digging of cellars, would have cost the city much more than the entire Pillsbury property in its present splendidly developed condition. On the Ward land, too, recent visitors have discovered that not more than one acre of it could be used for building purposes, as it falls rapidly away toward a swamp and brook.

Not only would the city be subjected to all the costs of developing this property for any use, but immediately would be compelled to buy additional land in the neighborhood which is filled with ledge which would subject the city to still further ruinous expense.

It is well for the voters to understand the trap that was being set for them, as Commissioner Brown so promptly discovered and explained at the meeting of the municipal council.

It is clear that, unless the municipal council purchases the Pillsbury property as it has a perfect right to do and saves the city the unnecessary expense of a special election—as no man in the street can be found who doubts that an overwhelming vote would be cast for the purchase of the Pillsbury property the moment an election were held—the acceptance of this Ward land would simply result in the choice of a second hospital site. Citizens

will not submit to this waste of their money to save a few people from the fancied harm that would come to their properties in the vicinity of the isolated location of the Pillsbury place.

Mr. Ayer's Objection

Mr. Ayer's objection, which, in view of his past benefactions to Lowell, ought to end at once further consideration of the Ward land, is not the objection made by these Andover street residents. Mr. Ayer's position is that it would be disastrous to the Lowell General hospital to which he has given so many hundreds of thousands of dollars, to have it so closely identified with the proposed contagious hospital. In fact, the only way of reaching the contagious hospital would be across the land which Mr. Ayer long ago purchased to protect the Lowell General hospital in its delightful privacy and seclusion which has proved such a blessing in the past to the sick people who have been cared for there.

GOOD POSITION IS OPEN

CIVIL SERVICE COMMISSION WILL HOLD EXAMINATION FOR ENGINEER OF THE BOARD OF HEALTH

A competitive examination for the position of sanitary and hydraulic engineer in the service of the commonwealth, principally under the state board of health, will be held at the state house, Boston, Feb. 26, 1914.

From the eligible list established by the examination, names will be certified to fill vacancies as they may occur in the service of the state board of health and other similar vacancies as they may occur. The salaries range from \$50 a month up.

The examination will consist of a written statement of training and experience; mathematics; engineering theory; papers on water supply; water purification; sewerage work; sewage disposal; sanitation and design of some sanitary engineering work. Only citizens of the United States who have been residents of Massachusetts for the past year will have a right to apply.

Persons desiring to take this examination may secure application blanks by applying, in person or by letter, at the office of the civil service commission, Room 55, state house, Boston. Applications must be filed on the office of the commission or before 5 p. m., Feb. 18, 1914.

BIRTHDAY PARTY

A very pleasant birthday party was held Wednesday evening at the home of Mr. and Mrs. John Garrity, 138 Crawford street. It was the 22d anniversary of the birth of their son, Peter. Mr. Garrity presented a gold watch and chain from his mother and father, a charm from his aunt and uncle, Mr. and Mrs. Conway, and a large number of other gifts. He was taken completely by surprise but responded feelingly to the presentation being given by his uncle, Mr. Conway. Refreshments were served by Miss Mary Garrity.

NORMAL SCHOOL GIRLS

A merry barge party was conducted last evening by about 30 students of the Lowell Normal school, the greater number of which were residents of Lawrence and North Andover. The party left North Andover for Boxford at an early hour and despite the disagreeable weather every minute of the journey was greatly enjoyed. On arrival at their objective point, dancing which formed the chief pleasure of the evening was engaged in and at a seasonable hour the return trip was made, all of expressing the opinion that the affair was a most successful event.

JAKE BOULTS WINS

AUBURN, N. Y., Jan. 30.—Secretary John H. Farrell of the national board of arbitration of the National Association of Professional Baseball leagues, this afternoon gave out a decision of the national board, allowing the claims of J. J. Boult and J. J. Murphy against the Bridgeport club. The franchise and players of the Meriden club in the Eastern association are transferred to New Britain, Conn.

REBELS MOVE TOWARD TORREON

JUARIZ, Mexico, Jan. 30.—Movements of the rebels toward Torreon began on a large scale this afternoon. The bulk of the main army had encamped at Escalon, more than half way southward from Chihuahua, along the Mexican national railroad, and more troops were joining them from the states of Durango and Coahuila. At the same time rebels were reported drawing in from the eastward with the purpose of attacking Saltillo and thus cutting off the federal communication from Monterrey.

GARDNER HEARING

It was announced this afternoon that the hearing petitioned for by William C. Gardner, the denuded gardener of the streets and highways department will be held Wednesday at 10 a. m. at the police court. Charles J. Morse, commissioner of streets and highways, who has discharged the petitioner will be represented by Lawyer William D. Hagan, while the petitioner's interests will be looked after by Lawyer Thomas G. Robbins.

SAYS RHEUMATISM YIELDS TO THE GREAT KIDNEY REMEDY

I have been troubled with rheumatism for the last five years. Suffered with much pain in the limbs, back and feet, and my joints have been badly swollen. I was cured by the great kidney remedy. Besides having a regular physician, I had tried every remedy without receiving the least benefit until I accidentally came across a bottle of Dr. Kilmer's Swamp-Root. I began taking it, never thinking it would help me, but most certainly it has. I am now more than a dozen bottles and feel that it has been a God-send to me. I am recommending it to all my friends. Yours very truly,

IRA ALDRICH, Holyoke, Mass. Personally appeared Ira Aldrich and made oath that the statement subscribed by him is true, before me. J. J. HARTNETT, Justice of the Peace.

Letter to Dr. Kilmer & Co. Binghamton, N. Y.

PROVE WHAT SWAMP-ROOT WILL DO FOR YOU. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. Write for it. The sure cure mentioned. The Lowell Sun. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

If you want help at home or in your business, try The Sun "Want" column.

WOMAN INJURED

While at Work in Mill at Dracut—Hearing on Case Today

An arbitration hearing by the industrial board and under the workmen's compensation act was held in the councilmanic chamber at city hall this forenoon. The petitioner was Harriet LaCount. She received a bad injury to her wrist while at work as a weaver in a mill of the Merrimack Woolen Co., in Dracut, March 11, 1913. She was receiving \$3 a week as a weaver and for 23 weeks the Travelers Insurance company paid her \$1 a week. Payments ceased Oct. 4, and the petitioner claims that she is still unable to resume her position as weaver and that all she can do is light housework. The arbitrators were Dudley M. Holman, for the industrial accident board; Benjamin F. Heale, for the petitioner; and J. Joseph O'Connor for the insurers. Louis C. Doyle, of Boston, appeared as counsel for the insurance company and A. O. Hamel for the petitioner or employee. Mrs. LaCount and her husband testified as to the nature of her injury and both declared that the petitioner was unable to return to her work in the mill.

Other witnesses were Drs. J. V. Meigs and Charles E. Simpson. Dr. Thomas F. Carroll was appointed by the insurance company to examine the petitioner, and he declared that she was able to go to work. Dr. Carroll's opinion was corroborated by Drs. Meigs and Simpson.

Would Be Chauffeurs

Six applicants for chauffeurs' licenses were held here the other day with his family. The count was very indignant for being arrested as he was not doing anything or breaking the law. When he was told that policeman took him for a crazy man he laughed very much and told the following story: The Count is known throughout the wide world as a restless and very nervous man, being always on his feet, going back and forth, "traveling at all times," so that he can be called a real and natural born Traveler. But of late the Count and family had been greatly troubled with sore feet, corns and callouses and he can't get shoes to fit him. He had just bought a pair of \$1 shoes for himself, but the boxes in the toes fell down and hurt his feet painfully. So saying the Count heaped a pile of abuse against the shoes. Just then Phil McGuire, the doorkeeper, butted in and asked the traveling Count if he ever tried a "Traveler Shoe." The Count said no. The famous Phil offered to take the Count, who readily accepted, to the Traveler Shoe store at 133 Central street, who carry nothing but Traveler shoes. Their shoes are known to be "Union Made" Factory No. 2 and of solid leather only.

TELEPHONE CO. CHANGES

NEW DIVISION ESTABLISHED WITH HEADQUARTERS IN THIS CITY WESTERN MAN APPOINTED

The last issue of the New England Telephone Topics says: The new Eastern Massachusetts division, established with headquarters at Lowell, The Southern and Central divisions were abolished and the territory which comprised those divisions now form a newly established Eastern Massachusetts division. District heads of the two divisions so combined will report in future to and receive instructions from the division superintendents of the Eastern Massachusetts division at Lowell. T. E. Parker, division commander, superintending H. A. McCoy, division plant superintendent, Oscar J. Ives, division traffic superintendent. On the same date the name of the former Eastern division was changed to the State of Maine division.

New Commercial Dept. Head. An important change in our company is announced for February 1, when Lambert N. Whitney, general manager of the Central Union Telephone Company for Indiana, succeeds C. T. Chatter as general commercial superintendent.

Mr. Whitney is no stranger hereabouts and has many friends in the New England company. In fact, he began his telephone career with this company some twenty years ago.

LEFT OVER A MILLION

LARGEST ESTATE EVER HELD BY UNMARRIED WOMAN IN BOSTON LEFT BY MISS CRUFF

BOSTON, Jan. 30.—One of the largest estates ever held by an unmarried woman in this city was disclosed this afternoon with the publication of an inventory of the property of Miss Harriet Otis Cruff, whose will filed several months ago, contained public bequests aggregating \$325,000.

The inventory shows that Miss Cruff left personal property worth \$654,900 and real estate valued at \$54,500. She inherited her fortune from her father, Edward Cruff, a merchant.

Tonight, Manhattan Club, Asso.

SOVING A PROBLEM

This was the note which was handed to one of the grade teachers the other day:

"Dear Mum—Please excuse Johnny today. He will not be at school. He is acting as timekeeper for his father. Last night you gave him this fiddle if a field is 4 miles square how long will it take a man walking 3 miles hour to walk 24 times around it Johnny and no man, so we had to send his daddy. They left early this morning and my husband said they ought to be back late tonight it would be hard going. Dear Mum, please make the next problem about ladies as my husband can't afford to leave his work. I don't have no time to loaf, but I can spare a day off occasionally better than my husband can."

"Res'v'ly," "Mrs. Jones," —Mama News.

CARD OF THANKS. The undersigned desires to express his heartfelt appreciation for the many beautiful floral and basket offerings as well as sincere sympathy shown him in the demise of his dearly beloved wife, Elizabeth E. Enwright. Signed, George W. Enwright.

The regular meeting of Notre Dame de Bonsecours society was held last night at C. M. A. C. hall and a feature of the evening was the installation of officers, those inducted into office being: president, Miss Blodine Gagnon, vice president, Miss R. A. Gagnon, recording secretary, Miss R. Turcotte, assistant recording secretary, Mrs. Anna de Lamotte, financial secretary, Miss Josephine Bussiere, treasurer, Miss P. Demers, sentinel, Misses E. Duhamel, E. Desrosiers and Maria Boivin, trustees, Rev. Augustin Grath, O. L. chaplain. At the conclusion of the business meeting a social hour was enjoyed.

ARRESTED AS A LUNATIC

PROVES TO BE A FRENCH COUNT. Policeman John Dougherty while doing his duty in Merrimack street the other day met with a very strange experience. While walking up the street he noticed a man jumping and limping about the street without any shoes on. The man appeared well dressed, wearing a nice black dress suit and silk hat. But his white stockings which he wore made him look queer. Policeman Dougherty thinking either the man was crazy or else drunk, stepped up to him and asked him what the trouble was.

But instead of answering him the man began to shout and quarrel in an unfamiliar tongue to the officer. Pointing to his feet he made a jump and limped forth again. This was about all Officer Dougherty could stand and his "German" blood began to boil up. "Come back you critter! You belong in the crazy house and not on the street," shouted the popular bluecoat. Saying this he ran after this "crazy man" and seized him. Being only a short walk to the station the officer decided to walk the distance with the crazy man. When Officer Dougherty brought his dangerous captive into court, Captain Cook wanted to know the reason for the arrest, and Policeman Dougherty promptly pointed to the captive's feet and said "Your Honor, this man is crazy and is likely to be dangerous to anyone on the street. Why? Just caught him dancing an Irish jig in Merrimack street. Captain Cook after these charges, asked the man what he had to say and again the man began shouting and screaming in his foreign tongue. The captain finally decided that the man wasn't a very dangerous lunatic, but couldn't speak a word of English and so he sent for an interpreter. The interpreter, Mr. Jennings, was told the following story by the "proposed lunatic": This man was no other than the famous French Count Boni de Castellone, who had arrived here the other day with his family. The count was very indignant for being arrested as he was not doing anything or breaking the law. When he was told that policeman took him for a crazy man he laughed very much and told the following story: The Count is known throughout the wide world as a restless and very nervous man, being always on his feet, going back and forth, "traveling at all times," so that he can be called a real and natural born Traveler. But of late the Count and family had been greatly troubled with sore feet, corns and callouses and he can't get shoes to fit him. He had just bought a pair of \$1 shoes for himself, but the boxes in the toes fell down and hurt his feet painfully. So saying the Count heaped a pile of abuse against the shoes. Just then Phil McGuire, the doorkeeper, butted in and asked the traveling Count if he ever tried a "Traveler Shoe." The Count said no. The famous Phil offered to take the Count, who readily accepted, to the Traveler Shoe store at 133 Central street, who carry nothing but Traveler shoes. Their shoes are known to be "Union Made" Factory No. 2 and of solid leather only.

Traveler shoes are sold under strict guarantee. Of course you have heard of the Nell Brinkley shoe for ladies and the new "New Haven" last for men. Try them and get leather shoes and a perfect fit. By the way, Nell Brinkley comes here the latter part of the week. Ladies escort this famous woman with Nell Brinkley shoes on your feet. We carry a line of leather shoes for little folks at reasonable prices. We mean leather shoes, not pasteboard. Bring your little folks to us and our expert salesmen will fit them perfectly. Our store is open at 10 a. m. All invited to inspect our 121 styles of the most up to date shoes in the world. The Traveler Shoe Store, 133 Central street.

REV. V. C. CHOQUETTE ILL

PASTOR OF ST. JOSEPH'S CHURCH, MALDEN, IS ENROUTE FOR CUBA TO BENEFIT HIS HEALTH

Rev. Victor Choquette, pastor of St. Joseph's church, Malden, and son of Mrs. Jerome Choquette of Moody street, this city, is on his way to Cuba, where he will spend a month for the benefit of his health.

The reverend gentleman has been in poor health for some time and the work of establishing a new parish has made his condition worse. Some time ago he was advised by his physician to take a trip down south, but he could not decide to leave his work. Finally he was ordered to go and he left yesterday for Cuba, where he will spend the coming month. His many local friends are praying for a speedy recovery.

If you want help at home or in your business, try The Sun "Want" column.

SUICIDES BY GAS

Envelope Addressed to Lowell Man Found Near Man's Body

FALL RIVER, Jan. 30.—When the body of John Flanagan, 55, single, was found at 178 Fifth street today, a victim of gas poisoning, the medical examiner gave a verdict of suicide. NEWS OF LEGISLATURE CHILD FALLS 20 FEET

PETITION REGARDING SALARY OF LATE JUDGE PRATT—FALL RIVER POLICE BILL POSTPONED

BOSTON, Jan. 30.—Before the committee on public health in the state house yesterday morning there was a long and serious contest on the denial of a bill to appropriate \$25,000 for the development of points of interest that will eventually be displayed in open debate on the floor of the house.

Meanwhile the senate and house were involved in the routine reading of bills, committee reports and references to committees.

The Senate.

Senator Morgan of Boston had the Fall River police bill postponed to Tuesday and then precipitated the first debate of the session by asking if the bill to appropriate \$25,000 for the development of the part of Boston came out of the \$75,000 appropriated for the directors last year. Senator Ward of Buckland said that the appropriation for last year was to give the directors of the part of Boston \$75,000 to be spread over three years and this \$25,000 was the first annual payment under that act.

Senator Wells of Haverhill did not so understand it; he read the act to show that as framed the \$25,000 would be an additional appropriation to the \$75,000 already appropriated. Senator Fisher of Westford said that the act was plainly expressed and that it could not be construed under the act of 1913 as being in addition to that act. Senator Morgan thought that there was grave doubt as to the question raised and on his motion the matter went over to Tuesday next.

The House.

Favorable report of the committee on legal affairs on a bill of Representative Haines of Medford that if an appeal is taken from any judgment with reference to the maintenance of illegitimate children, the appeal shall not vacate the judgment as accepted by the house.

The house rules committee reported leave to withdraw on bills of Benjamin F. Haines for an investigation of insane asylums, and of Roland D. Sawyer for an annual census committee to investigate public institutions and the reports were accepted.

At the request of Mr. Booth of Fall River action was postponed on the report of the committee on elections recommending that William J. Naphen be declared the duly elected representative from the Sixth Middlesex district until next Tuesday.

Late Judge Pratt.

A petition was submitted by Mr. Murphy of Lowell that there be allowed and paid from the treasury of the commonwealth to the widow of Nathan Dexter Pratt, late a judge of the superior court of the commonwealth, who died on Jan. 15, 1914, the salary he would have received had he lived until the end of the current year.

ASSAILS MOYER SPEECH

MINES, GOMPERS DEFENDS A. F. OF L. AND REFUTES CHARGES OF MOYER BEFORE MINERS

INDIANAPOLIS, Ind., Jan. 30.—Samuel Gompers, president of the American Federation of Labor, defended that organization and its executive council in a speech late yesterday before the convention of the United Mine Workers of America against charges made by Charles H. Moyer, president of the Western Federation of Miners. Duncan McDonald of Illinois, and others in the convention.

Mr. Moyer, several days ago, charged that if the copper strike in Michigan should be lost, it would be due to the inactivity of the executive board of the American Federation of Labor. Mr. Gompers declared it would be impossible to levy an assessment for the copper mine strikers of Michigan and denied that the organization is "reactionary, feudalized, near-eastern and dead."

He also repudiated the statement that the executive council is made up of "boozing fighters."

"Of the 11 men who compose the executive council, eight are teetotalers who never touch a drop of liquor. Two of the men are moderate drinkers as any men who ever take a drink for myself. I take a glass of beer when the day's work is over. I challenge any man to prove otherwise that the 11 men as good as men, mentally and physically, as I ever was and I reached my 64th year last Tuesday."

Mr. Gompers denied that the federation had placed obstacles in the path of industrial unionism, but, on the contrary, he said, had encouraged it wherever possible and had urged the amalgamation of kindred trades.

Mr. Gompers then asked Moyer if his speech had been correctly reported. Receiving an affirmative reply, Mr. Gompers then turned to the charge that the executive board had been inactive in regard to the copper strike.

"I have given and will continue to give all that is in me to further the strike of the copper miners," he declared. "No organization could be more unjust than that of Mr. Moyer. Talk about the American Federation of Labor not raising money. You may not know that the miners pay only nine cents a year to the American Federation of Labor! That is all the other organizations affiliated with the federation pay also. Do you think you can accumulate a large fortune out of that tax?"

RUN ON NEW YORK BANK

NEW YORK, Jan. 30.—Millions of dollars of the resources of city financial institutions were offered to the Bank for Savings yesterday, when depositors began a run for which the bank's officers could not account, except that it might have resulted from malicious rumors circulated by enemies.

The bank, founded in 1818, is reputed to be one of the strongest in the state. Walter Trimble, its president, said banking firms had offered him sums aggregating \$50,000,000 in case the run should threaten to deplete the ready assets, but that he had informed them all that not a cent was needed.

Several hundred depositors who requested their money yesterday were paid promptly.

BLACKHAND LEADER GUILTY

NEW YORK, Jan. 30.—A verdict of guilty was reached in five minutes last night by the jury which heard the case of Angelo Sylvester, a 23-year-old Italian boy charged with having been the leader of a blackhand gang which terrorized the East Side with bomb outrages. Sylvester was immediately taken to the Tombs.

GRAB FOR DOLL MAY COST LIFE—LANDS ON BRICK PAVEMENTS, FRACTURING HER SKULL

BOSTON, Jan. 30.—In an attempt to reach for her doll, which had fallen from her hands, Gertrude, the four-year-old daughter of Mr. and Mrs. Charlotte Jensen of 49 School street, Everett, lost her balance from the third door piazza at her home yesterday afternoon and landed 20 feet below on the brick pavements, fracturing her skull.

The child is lying in a dying condition at the Whidden Memorial hospital, where little chance is held for her recovery. The mother, glancing out of the window, saw her daughter hurt through the air and land upon the pavements below.

She rushed down the stairs, but met Fred Bradley of 738 Tremont street, who picked up the small girl and was carrying her into the house. The girl had narrowly missed him in her fall and had landed upon her doll at his feet.

As the child was badly injured the police ambulance raced with the dying girl to the hospital. An operation was performed upon her skull, but it is believed that her life cannot be saved. She is the only daughter.

STEAMSHIP RATE WAR

IS ON FOR BOSTON STEAMSHIP PRICES ARE THE FIRST TO BE SLASHED

BOSTON, Jan. 30.—The transatlantic steamship rate war is on for Boston, according to an announcement made here yesterday.

Beginning Monday, the slashing of rates will start in advance prices. The first break is to come in quotations to and from the European continent.

The British steamship lines announce a reduction of \$4.50 on eastbound tickets, and \$2.50 on westbound. These cuts bring prices down to \$23 for a steerage ticket to the continent from Boston, and \$27 for the same class passage from there to this port.

As a bid to secure business, the lines have increased the commission to agents from 12 to 15 on continental steerage traffic. This increase will probably result in a protest from British agents, who have not yet been offered an advance.

The steamship lines involved are the Hamburg-American, against the North German Lloyd, White Star, Cunard and Allan.

It is firmly believed in well informed circles that before the difficulty is settled between the fighting lines others will be drawn into the rate slashing. British ports are understood to be the next to receive cut prices offered on steerage business.

ALLEGED SLAYER HELD

PROVIDENCE, R. I., Jan. 30.—The first prosecution here under the Mann white slave act was begun yesterday with the arraignment before a federal commissioner of Joseph Pezullo, charged with taking Florence Wahl of this city to Boston for immoral purposes.

Pezullo is the son of a contractor. He is under bonds of \$500 for appearance in Boston February 3. The arrest was made on information furnished by Miss Wahl's mother regarding the alleged parentage of a child.

SMALLPOX IN BALTIMORE

BALTIMORE, Md., Jan. 30.—Twenty-three cases of smallpox, many in advanced stage, were reported by the Baltimore county health authorities yesterday. Of this number 21 were found at Warren, a mill village on the Gunpowder river, 15 miles north of Baltimore.

\$5 value. Factory ends sale \$2.89

UNCONSCIOUS IN FIELD

Young Man Found at Tewksbury Had Walked From Springfield on Way to Concord, N. H.

A young man who refused to give his name was found in an unconscious condition in Tewksbury Centre a few days ago, and after he was brought to consciousness he told a pathetic story as to how he walked from Springfield to Tewksbury, he being on his way to Concord, N. H., where he expected to secure employment with the assistance of friends in the New Hampshire city.

The young man who was about 22 years of age was seen wandering on a vacant lot by Deacon Enoch Foster and Alden Haines, the town blacksmith. Suddenly he was seen to fall and when the men reached him he was unconscious. He was removed to the blacksmith shop and there given restoratives and a short time later he fully recovered. He then related how he left Springfield the day before without a penny and had walked to the Centre. He said he was on his way to Concord, N. H., where he expected to meet friends who would help him to secure employment. The young man was questioned as to his identity, but he refused to speak. He was given food and his shoes, which were well worn out, were repaired, and then a collection was taken up among the neighbors and the young man was given money enough to take him to Concord and also to hire a room and purchase food for a couple of days.

LOCKED IN MINT VAULT

PHILADELPHIA, Jan. 20.—Facing what gave every indication of a slow death by suffocation, William Taylor, an employee of the United States mint, was rescued yesterday afternoon from one of the massive gold money vaults in the basement of the mint, where he had been accidentally caught by the sudden swinging of the doors.

His rescue was effected after one of the workmen at the mint succeeded in boring a small hole through the lock on the door and through this passing a piece of paper on which was written the combination of the vault.

THE OWL THEATRE

As a good picture to follow the big attraction of the last two days, the management has secured a two-reel offering, telling a tragic story of love and sacrifice. "The Minister's Daughter" is a worthy offering and should be seen by all lovers of real, well-acted photo-plays. The cast for this production is a picked one, and the acting is superb. Another two-act feature and four other pictures will be projected on the screen, and the Owl will show one of the best bills in town. This theatre has them talking.

If you want help at home or in your business, try The Sun "Want" column.

OTHER EXPENSES BOMB THROWER

Of New Haven Road Being Investigated—Mellen Absent Reported That Leader of Blackhand Gang Wants to Confess

BOSTON, Jan. 30.—In the absence of several prominent witnesses whose attendance had been requested, including former President Charles S. Mellen and former Vice-President Timothy E. Byrnes of the New Haven road and Mayor John F. Fitzgerald, the inquiry of the public service commission into the "other expenses" of the New Haven road today dealt again with newspaper articles.

Howard L. Ralph, the local manager of the American Press Association, said that articles on the New Haven were furnished by its publicity department and sent to 315 papers in New England on stereotype plates, without expense to the papers. The New Haven paid the American Press Association a certain fixed rate per line for handling the matter. Mr. Ralph was unable to tell the total amount received by his company from the New Haven road. The articles dealt with the activities of the road, numerous stories about Mr. Mellen and various projects of the company.

Frank Nevin, employed by the Boston Journal, testified that he had examined the files of that paper from December, 1912, to June, 1913, and filed with the commission an exhibit showing editorial articles, pictures and articles favorable or unfavorable to the New Haven. Mr. Mellen and Louis D. Brandeis, an attorney prominent in criticism of the road. The exhibit was admitted in spite of a protest by counsel for the railroad.

NEW YORK, Jan. 30.—Angelo Sylvestro, the young bomb thrower, reported leader of a blackhand gang that terrorized the East Side, lost all his bravado this afternoon and persuaded the court to postpone his sentence until he could see the district attorney. Although Sylvestro after his conviction last night went back to his club and threatening vengeance it was reported today that he wanted to make a confession and after consultation with the prisoner's attorney Judge Rosalsky deferred his sentence until Feb. 16.

Judge Rosalsky had signified his intention of giving the youth the maximum penalty, six years and a half in prison, and a \$1000 fine. The police believe that Sylvestro can give evidence that will enable them to catch other members of the gang responsible for nearly a hundred bomb explosions.

LOCAL NEWS

There will be a month's mind high mass of requiem tomorrow morning at the Immaculate Conception church at 8 o'clock for the repose of the soul of Thomas H. Lawler.

Charles A. DeJardine, buyer for the white goods department of the A. G. Pollard Co., has returned from a week's trip to New York, where he was entertained by the international president of the Musicians' association, Joseph N. Weber.

The regular meeting of Branch St. Andre, A. C. F., will be held next Thursday evening at Grafton hall at which time the installation of the recently elected officers will be held. At the conclusion of the meeting the second game tournament with the members of Branch Pawtucketville will be held and the contest will prove most interesting inasmuch as the latter won the first match.

A successful whist and social was conducted last night at the Notre Dame de Lourdes parochial school hall by the pupils of the school, and the receipts which were very substantial will be devoted to the church fund. A lively game of whist was enjoyed and at the close of the tournament a varied entertainment program was rendered by the following: Armand Bonard, Hildegard Trudel, E. Bouvard, Aimé Garlepy and Emilie Langlais. Interesting remarks were made by Rev. Leon Lamothe, O. M. I., pastor; Rev. J. B. A. Barrette, O. M. I., and Rev. Joseph Magnan, O. M. I.

600 FLEE FROM FIRE

NO LOSS OF LIFE IN \$300,000 FIRE IN CHICAGO—STARTED FROM AN EXPLOSION

CHICAGO, Jan. 30.—There was no loss of life in the \$300,000 fire which destroyed the New Bedford and the smaller apartment building in Oakwood boulevard here last night, so far as search of the ruins disclosed today. The fire started from a boiler explosion and 600 tenants were driven into the street.

MILLIONAIRE BURIED

FUNERAL OF FRANK W. JONES ATTENDED ONLY BY HIS SON AND HALF DOZEN EMPLOYEES

NEW HARTFORD, Conn., Jan. 30.—Without committal services of any character and attended only by his son Frank and a half dozen employees, the body of Frank W. Jones, eccentric millionaire resident of the town and formerly prominent in the South American telephone field, who died Tuesday, was buried today in a rock hewn grave on a granite crag crowning the range of hills running through his estate. This was in accordance with his expressed wishes. Before being lowered into the grave the mahogany casket had been sealed in a steel vault. The tomb was closed with a concrete covering.

FUNERALS

WALKER.—The funeral of Mrs. Margaret Walker took place yesterday afternoon from her residence, 42 St. Vernon street. The services were conducted by Rev. Samuel John, curate of St. Anne's Episcopal church. The bearers were all relatives of the deceased. Burial was in the family lot in the Edison cemetery. The funeral arrangements were in charge of Undertaker George W. Healy.

PARKER.—The funeral services of Frederick H. Parker were held at his home in Billerica Center yesterday afternoon and were largely attended. The services were conducted by Rev. Lyman V. Rutledge, pastor of the Congregational church of Billerica Center. The bearers were Messrs. Stephen H. Parker, J. M. Parker, F. G. Farquhar, George Parker, E. A. Elliott and F. C. Marley. Burial was in the family lot in the North cemetery where the burial services were read by Mr. Rutledge. The flowers were many and beautiful. The funeral was under the direction of Undertakers Young & Blake.

WEBSTER.—The funeral services of Enoch Webster were held at his home, 333 Mammoth road, yesterday afternoon. The services were conducted by Rev. George W. King, pastor of St. Paul's M. E. church. The bearers were Messrs. Fred Smith, Walter Smith, Isaac Washburn and William Smith. Burial was in the family lot in the Edison cemetery. The funeral was under the direction of Undertakers Young & Blake.

DUBOIS.—The funeral of Miss Maria Dubois took place this morning from her home, 75 Tremont street. Solemn high mass of requiem was celebrated at St. Joseph's church at 9 o'clock by Rev. C. A. Paquette, O. M. I., assisted by Rev. Arthur Bernache, O. M. I., and Rev. Armand Baron, O. M. I., as deacon and subdeacon. The bearers were D. Chabre, J. Chabre, F. Chabre, J. Ducharme, W. Hebert and A. Rousseau. Notre Dame de Lourdes sodality, of which deceased was a prominent member, was represented by the following delegation: Misses Lena Lebel, Emma Aubert, Agnes Lemay, Flore, Renaud, Leontine Beaulieu and Emma Jacques. Among the out-of-town relatives attending the funeral were the following: Mrs. Simeon Jacques, St. Croix, Que.; Mrs. John Jacob Ashton, Mass.; Mrs. Joseph Lamontagne, Mrs. J. Boisjoly and Mrs. Napoleon Lamontagne, Wilmotville, Conn.; Miss Eberina Jacques, Manchester, N. H.; Mrs. Omer Dubois, Gonic, N. H.; Miss L. Croteau, Lawrence, Mass. Burial was in St. Joseph's cemetery, where the committal prayers were read by Rev. Charles Denize, O. M. I. Funeral arrangements were in charge of Undertaker Amedee Archambault.

MICHEL.—The funeral of Mrs. Hector Michel took place this morning from her home, 42 Elm street. Solemn high mass of requiem was celebrated at 9 o'clock at Notre Dame de Lourdes church by Rev. J. B. A. Barrette, O. M. I., assisted by Rev. Leon Lamothe, O. M. I., as deacon and Rev. Joseph Magnan, O. M. I., as subdeacon. The bearers were John B. Carboneau, Octave Leblond, Belonie Merlet, Ephrem Lessard, Azarie Thibault and Edmond Mallo. Among the floral offerings were pieces from the following: Hamilton dress room, family, Mrs. Lawrence and friends. Burial was in St. Joseph's cemetery where the committal prayers were read by Rev. Charles Denize, O. M. I. Funeral arrangements were in charge of Undertaker Joseph Albert.

CHARLTON.—The funeral of the late Mrs. Catherine Charlton took place this morning at 10 o'clock from her home, 108 Fayette street. The cortege proceeded to the Immaculate Conception church where at 10 o'clock a solemn high mass of requiem was sung by Rev. Owen McQuaid, O. M. I., assisted by Rev. Lawrence O'Brien, O. M. I., as deacon and Rev. John O'Brien, O. M. I., as subdeacon. There were many beautiful floral tributes. The bearers were Anthony McCarron, James McEntmon, Patrick Nestor, William Campbell, Henry Deering and James Kilin. At the grave Rev. Fr. McQuaid read the committal prayers and the burial was in St. Patrick's cemetery in charge of Undertakers J. F. O'Donnell & Sons.

KANE.—The funeral of the late Mrs. Elizabeth A. Kane, wife of John J. Kane, took place this morning at 9 o'clock from her home, 130 Smith street. The cortege proceeded to St. Peter's church where at 9 o'clock a mass of requiem was sung by Rev. John Burns. There were many beautiful floral tributes including a pillow inscribed "Wife" from the husband; pillow inscribed "Sister" from the family, and pieces from Mr. and Mrs. Bert Fennley, Mrs. Flanagan and family, Mr. and Mrs. John Brennan and family, Mr. and Mrs. Peter Flanagan, Mr. and Mrs. Whelan and family, Mrs. McVer, Mrs. Rogers, Agnes Burns, the Hickson family, Mr. and Mrs. Joseph Fennley and family, Mr. and Mrs. Bernard Brady and family, Mrs. Staples, Mrs. O'Sullivan, Mrs. Lewis, Mrs. Moore and Mrs. Blacklock. The bearers were John Fennley, James Shugrue, John Kane, Alfred Grant, John Connolly and Frank Hickson. At the grave Rev. Fr. Burns read the committal prayers and the burial was in St. Patrick's cemetery in charge of Undertakers J. F. O'Donnell & Sons.

FUNERAL NOTICES

New York Cloak and Suit Co.

CHERRY & WEBB 12-18 JOHN STREET

years, a prominent French-American resident of this city, having been in business in Alton street for a number of years, passed away last evening at the Massachusetts General hospital in Boston, after a lingering illness. His many friends will be grieved to learn of his death, which had been expected for some time, owing to his rapidly declining health. Deceased was an old and esteemed member of Union St. Joseph and of Court Samuel de Champlain, F. P. A. He leaves besides his wife, a daughter, Mrs. Donat Blazon of Lowell; a son, Frederick E., the well-

known local politician; five brothers, Joseph of Montreal, Que., Mose of St. Simon, Que., Auguste, Honoré, and Louis Jodoin of St. Hyacinthe, Que., two sisters, Mrs. J. Chevreton and Mrs. L. Boileau, both of St. Simon, Que., and four grandchildren.

KEITH.—Albert Edward Keith, the youngest son of Mr. and Mrs. A. J. Keith, died last night at the home of his parents, 281 Third street, aged 53 years and 5 months. Besides his parents, he is survived by one sister, Miss Georgianna, and three brothers, Raymond, James and Archie.

HOSPITAL FUND GROWING

Campaign for St. Elizabeth's Gains in Enthusiasm — List of Local Contributors

The local enthusiasm in the campaign in aid of St. Elizabeth's hospital, Boston, is only a mild reflection of that which obtains among the leaders of the movement in that city, for there the mercury in the big thermometers that register the rising funds, is soaring rapidly. Already over \$74,000 has been subscribed and if the proportionate increase continues as from the first, it is expected that over \$90,000 will have been collected this evening.

Many of the leaders among the business men of Boston are striving might and main to reach the desired mark, and there is a great deal of effective rivalry among the teams that make up the collection force. Mayor Fitzgerald is one of the most interested supporters of the movement and yesterday he declared that he intends to put in the greater part of Monday, Tuesday and Wednesday in furthering the interests of St. Elizabeth's. When the parish reports come in from the outlying districts, the mercury will rise beyond expectations. Already Lynn has reported over \$2000. Many of the pastors of the archdiocese have sent in individual contributions, among them being Dr. Kolcher of St. Peter's and Monsignor O'Brien of St. Patrick's city, who each contributed \$1000. Lowell is not as yet represented in the lists of the Boston collection, but when the individual parishes are heard from by the end of the week, or the beginning of next week, there is no doubt but that the \$5000 pledged, will be added to the grand total of the archdiocese.

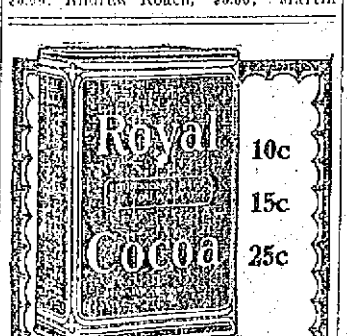

Local Campaign

The leaders of the various sub-committees in charge of the local collection in aid of the new St. Elizabeth's hospital, met last evening at campaign headquarters, 3 tunnels building, with Chairman Humphrey O'Sullivan in the chair. Practically all the priests who have charge of the work in the respective parishes were present and the reports from all sections were very encouraging. Those parishes that had reported a total of \$152.25 for the first day of the collection brought their contributions up to date with an additional sum of \$115.50, making the total reported almost \$300.

As only three of the parishes have reported thus far it is expected that there will be a surprising increase in the report of Saturday evening by which time the several parishes ready. The proportionate share of the amounts reported last evening from the different parishes

sent in a list of their collections to date are as follows:

St. Patrick's Parish
 Humphrey O'Sullivan, \$100.00; Miss Ryan, \$1.00; Mrs. Margaret Queenan, \$1.00; Dennis Flynn, \$2.00; John J. Sullivan, \$5.00; Miss Minnie Keefe, \$1.00; John Dacey, \$20.00; John Callahan, \$2; Nora Enright, \$2; Mr. and Mrs. Mooney and Mary, \$10.00; Edward F. Saunders, \$10.00; Edward F. RATIFY ARBITRATION TREATIES

WASHINGTON, Jan. 30.—The senate foreign relations committee voted this afternoon to recommend immediate ratification of general arbitration treaties with Great Britain, Japan and other nations, 25 yeas in all. These have been pending since last summer when their original five year limitations expired.

LINGER LONGER CLUB

ENJOYED TURKEY SUPPER AT ST. JAMES' HOTEL LAST NIGHT—GOOD ENTERTAINMENT

The Linger Longer club had a very comfortable as well as enjoyable "sit down" at the St. James' hotel last night, and the members were a unit in declaring that the proprietor of the St. James' hotel, John J. Dawson, is the king of entertainers. There were 12 members of the club present, and Chef George Frenette was responsible for one of the best turkey dinners ever served in Lowell. Not a thing was missing, and the scalloped oysters were the best ever. The following members were present, with their appetites: Eddie Shea, James Spillane, Michael Markham, Joseph Burns, Timothy Danahoe, John J. Dawson, Eddie Morris, John Lee, Anthony Hogan, James Hogan, Terence Lennon and Freddie Meier.

After the turkey had been discussed, Mr. Dawson gave a very interesting talk on indoor sports. Mr. Markham entertained with a story of his coast to coast trip. Terry Lennon read a paper on city governments, past and present, and Eddie Shea favored with song and story. Other features of the entertainment included a duet by Joe Burns and Johnnie Lee of their own composition, entitled "I Wonder if the Governor Will Come." The evening was one of great enjoyment and Miss Host Dawson assured his visitors that they could play a return engagement any old time.

ALPINE CLUB EVENT

Reception and Presentation to Mr. Joseph Farrell of the Treasurer's Office

Joseph Farrell, assistant treasurer of the city of Lowell, who also handles the finances of the Alpine club, of which he is a popular member, was tendered a reception last night by his fellow members of the club, just because he has rounded up ten years of service.

efficient service in the capacity of treasurer of the club.

The affair took place at the club's headquarters in the Fishka building, and the majority of the members made it their duty to be on deck to honor their faithful treasurer. In behalf of the club, William A. Hogan, Esq., presented the guest of the evening, a handsome cut glass punch bowl, and complimented Mr. Farrell for his long term of office. He spoke of the work of Mr. Farrell and the valuable service he has rendered the organization and concluded by extending his best wishes as well as those of the members of the club saying he hoped the efficient treasurer would round up ten more years in the same capacity.

Mr. Farrell responded in appropriate terms and expressed his gratitude in being so highly honored by his comrades and assured them that what he has done for the organization was simply his duty. He said it was his delight to be associated with such good fellows as compose the membership of the Alpine club and thanked them all for their valuable gift. The evening passed in jollification and the members partook of a delectable repast, at the close of which a varied entertainment was given by the talent of the club.

MATRIMONIAL

A very pretty wedding was solemnized Wednesday evening at the rectory of the Immaculate Conception church when Miss Anna J. Wareneck and Mr. James R. Wlan were united in marriage by Rev. Fr. Tighe, O. M. I. The bride wore a gown of white crepe de chine with pearl trimming and carried Killian roses. The bridesmaid, Miss Katherine Wareneck, wore white crepe de chine and carried pink roses. The groom was attended by Mr. John Miskel, his cousin. After the ceremony a delightful supper was served at the home of the bride's aunt, Miss Margaret Flynn, at 159 Concord street. Mr. and Mrs. Wlan received many beautiful gifts. They left on the 9.55 train for Boston.

The many friends of Justin H. Kimball, floor walker in the Palmer street department of the A. G. Pollard Co. will be grieved to learn he is confined to his home in Hampshire street, suffering from blood poisoning.

3 ALARM FIRE IN LYNN

Owens Block Burned and Shoe Factories Threatened — Loss Estimated at \$75,000

LYNN, Jan. 29.—Many big shoe factories on Broad and Washington sts., containing stock and machinery valued at several millions, were seriously menaced early last night by a spectacular fire which totally destroyed the three story wooden block of John Owens & Co., box manufacturers at 32-33 Farrar st., badly damaged the building of the Suffolk garage at 35-37 Suffolk st., and caused considerable damage to tenement houses at 30 and 41 Suffolk street.

Estimates of the losses on the buildings which were burned ranged from \$50,000 to \$75,000, but it is believed that numerous shoe manufacturers in the eight-story Realty building No. 2, at Washington and Farrar streets, suffered damage of at least \$25,000, because of the water which flooded the rear section of the building, when all-tomatoe sprinklers were set in operation.

Occupants and Losses
The occupants of the Owens Building were the box company, the Lynn shoe company, which carried insurance of \$10,000 and whose stock is a total loss, and the Sellwell Shoe Form company, whose loss is figured at \$5000. In the Suffolk garage, three automobiles were practically destroyed, and the rear end of the one-story building was burned.

A dwelling house at 39 Suffolk street occupied by the families of Patrick

Cronin and Vincent Talamini was damaged to the extent of \$500 and the dwelling at 41 Suffolk street, owned by the Green heirs was damaged about twice as much.

Three alarms in rapid succession from box 41 summoned the fire department and an auto engine from Swampscott and for almost two hours the firemen used every available stream. The fire was fought from three sides and on the fourth side the brick wall of Realty building No. 2 stopped the spread of the flames.

Flames Lick Window Frames

Negligence of employees in leaving a few heavy iron window shutters open permitted the flames to attack the wooden window frames and in almost every place where the shutter was open the woodwork of the windows was burned. The flames shot so high into the air that window frames on the eighth floor were ignited. The flames of the big block was so intense that the automatic sprinklers were set in motion within five minutes after the discovery of the fire and the firemen, not daring to take any chances, allowed the water to run for almost an hour.

The second alarm was formerly a carriage factory and the timbers were covered with dried paint. Just how or where the fire started is a mystery, but a few minutes after 7 o'clock a passerby saw flames breaking through the roof of the building. At 7:05 District Chief Welch ordered a second alarm at 7:07, and Chief Chase ordered a general alarm at 7:15.

HOW TO GROW TOMATOES

ADVICE ON HOW FARMER MAY MAKE CROP YIELD THE GREATEST PROFIT

The annual pack of tomatoes in the United States is probably not less than 10,000,000 cases, and the growing of tomatoes for canning is, therefore, an important agricultural industry. A large part of the crop for this purpose is grown by the general farmer rather than by the specialist, and as a rule not enough care is taken with it to yield the greatest profit.

Many growers believe that it is especially necessary that greater care be exercised in growing the young plants, and that millions of inferior plants are now set, either as the result of poor seed, or unskillful growing, resulting greatly the yield and profit from the crop.

The easiest and surest way of growing tomatoes is by the use of hotbeds. These can be constructed of two-inch planks nailed or bolted together in the form of a rectangular box, generally six feet wide and as long as desired. The box should be made so that the ash will slope one inch to the foot, which will make it six inches higher on the back than on the front. This slope allows the sun's rays to enter more freely and allows the water to run off quickly. The bed should be located on a southern slope if possible, and run east and west with the lower side of the frame toward the south. The beds should also be near the house and near a plentiful supply of water, in order that the plants may be carefully and easily cared for.

Common stable manure containing no litter, mixed with from one-third to one-half its bulk of straw and leaves, is used for providing the

FRESH AIR AND HEALTH

Mental work calls an unusual supply of blood to the brain. The process of digestion calls the blood to the stomach. Brain work immediately after a hearty meal often causes indigestion because the brain has drawn on a supply of blood that should be helping the stomach.

Wherever, in the economy of the body, work is to be done there is a demand for bright, red blood. Thin blood or blood dark with impurities will not do because it is the oxygen carried by the blood that does the work and oxygen-bearing blood is bright and red. This life-sustaining oxygen is taken up by the blood from the air which it meets in the lungs. Hence the great need of fresh air every hour of the day and night. But fresh air is useless if the blood cannot take up more oxygen which it gives. The Williams' Pink Pills enable the blood to take up more oxygen because they increase the part of the blood that carries the oxygen. This corrects the faulty circulation, the heart, shaky nerves and the pallor that are the result of thin, impure blood. You must have pure, rich blood to enjoy complete health. A booklet "Building Up the Blood" will be sent free on request by the Dr. Williams' Medicine Company, 233 N. 2nd St., Lowell, Mass. Dr. Williams' Pink Pills.

COLLISION AT SEA

Continued

was near the collision, may have picked up more survivors and others may have been found by the revenue cutter Onondaga, which was hurried out to the rescue. The Nantucket will arrive in Norfolk next noon, according to her latest reports.

Steamers Met in Fog

No details of the accident were available early today. Wireless operators all along the coast, groping through the fog for some distant news of the lost and the saved, could learn only that the Monroe, bound for New York, on a regular trip from Norfolk, met the Nantucket in a fog about 2 o'clock. When the two ships separated the Monroe went down and the Nantucket with damaged bow stood by and began the work of rescue.

The Nantucket's boats scoured the waters and are said to have picked up 55 survivors. Early wireless reports did not say what members of the crew or first or second class passengers were among the number.

First news of the collision trickled in here through the wireless operator at the Virginia beach.

The Monroe, a passenger liner which also carried freight, put out of her at seven o'clock last night on a regular trip to New York. The lane of the coastal steamers between these two ports is comparatively close to shore and on a clear night they never are out of sight of land.

Head-On Collision

The Nantucket from Boston for Norfolk with freight would ordinarily have been running to seaward of the Monroe but no early reports indicated the positions of the ships.

A dense fog enveloped the entire coast and mariners here do not doubt that the two liners met in a head-on collision. The position of the ships, which was reported about 45 miles southwest of the winter quarters light-ship would place them near Hog Island. One wireless report which said Captain Johnson of the Monroe was among the rescued leads to the belief that the Monroe sank very rapidly and that the passengers, roused in the dead of night by the shock of the collision, had little time to prepare for leaving a ship rapidly sinking in icy waters. The Nantucket, a much lighter ship than the Monroe, about half her tonnage, probably rammed a hole in the passenger liner's iron hull that flooded her lower compartments and sent her down by the head in much less than an hour.

"S. O. S." Calls Sent Out

The Old Dominion liner Hamilton, bound down from New York for Norfolk could not have been far from the scene when the operators from the Nantucket and the Monroe began sending "S. O. S." calls, some of which reached as far north as Boston and also were relayed up and down the coast by the stations. Almost immediately every agency of rescue within striking distance was set in motion.

Within a half hour the revenue cutter Onondaga was pointed toward the capes but at the collision of the ships fully five hours run away for her she could hope to do little more than aid the Nantucket or stand by for the fog to lift with daylight in the hope that some of the Monroe's passengers or crew might have got away in boats and were missed in the night.

Early today officials at both lines here were pressing Captain Boyer of the Nantucket for a list of the survivors by which to check their passenger list.

The Monroe had a capacity of 243 first and second cabin passengers. She usually carried a crew of 51 men. At this time of the year Captain Leyland explained there was always a slump in the passenger traffic, accounting for the small number aboard at the time of the accident.

The property loss, Captain Leyland thought, would be about \$225,000, exclusive of the freight carried and baggage of the passengers and crew.

MERCHANTS AND MINERS STEAMERS NANTUCKET SAILED FROM BOSTON ON WEDNESDAY

BOSTON, Jan. 30.—The Merchants and Miners steamer Nantucket, which collided with the steamer Monroe early this morning off the Virginia coast, sailed from Boston at 5 o'clock Wednesday afternoon for Newport News and Baltimore. No information as to the number of passengers she carried or their identity was available before the local office of the company was opened today.

Charles H. Maynard, the Boston agent of the line, had received no word from the Nantucket, which was in command of Captain Berry.

The Nantucket, which has been in Baltimore-Boston service for a number of years, collided with a coal barge off Chatham on July 4, 1905. No one was injured but a big hole was torn in the side of the steamer.

OFFICIAL CONFIRMATION OF SINKING OF STEAMER MONROE

GIVEN BY PRES. OF LINE

NEW YORK, Jan. 30.—Official confirmation of the sinking of the steamer Monroe was given early today by H. B. Walker, president of the Old Dominion S. S. Co., in a telephone message to officers of the line here from Washington.

"It's the first accident we ever had," Captain Leyland, one of the fleet officials, said as tears sprang to his eyes, "and we can only hope the loss of life is not as great as reported."

No news of the collision was received at the offices of the Old Dominion line here except through President Walker.

SICK HEADACHE

Pinklets, the New Laxative, Gives Quick Relief In Most Cases

As a rule a sufferer from sick headache can tell hours in advance when an attack is coming on. The trouble is caused by a gradual accumulation of poison generated in the digestive organs and when a certain point is reached this poison produces nausea and the attack follows.

In very many cases the use of a proper laxative before the condition of prostration is reached will force the poisons from the system and the attack will be avoided. Pinklets are a dainty laxative, they sugar-coated granules that arouse no use of purgatives, and they act so gently that they are the ideal laxative to use in correcting a tendency to sick headache. They do not upset the delicate system, and they have no unpleasant effect to make them objectionable to the extra sensitive sick-headache patient.

Old-fashioned, harsh cathartics will not get it all in such cases. For complete information regarding the treatment of sick headache send to the Dr. Williams' Medical Co., 233 N. 2nd St., Lowell, Mass., for the Pinklet book. It is free.

Your own druggist can supply you with Pinklets in 25-cent bottles.

THE CHEAPEST PLACE TO BUY THE VERY BEST

from Washington, who kept in communication with Norfolk.

Captain Leyland said the Monroe carried 44 first cabin and eight second cabin passengers and a crew of 70. He said that President Walker had confirmed press reports that of the 121 persons aboard 85 were rescued by the Nantucket. These figures, Captain Leyland said, probably would be subject to alteration and he expressed the fear that the death list would reach more than the 39 reported lost.

President Walker's message to his office here said that the Nantucket was proceeding slowly toward Norfolk and would reach that port about 10 o'clock indicating that she, too, suffered some damage in the collision.

\$225,000 Property Loss
The Monroe was built at Newport News, Va., in 1903. She was 474 gross and 236 net tonnage. Her length was 345 feet.

SOCIAL AND FRATERNAL

Division 25, A. O. H., met in regular session last night in Hibernian hall with Patrick J. McCann, the president, in the chair. It was voted to celebrate the 31st anniversary of the organization, which comes on April 30, by holding a banquet and entertainment in the meeting rooms. The following committee was appointed to make arrangements for the observance: President, Patrick J. McCann; James O'Sullivan, Edward E. Elletts, Martin D. Sullivan, John Thompson and James Lillis. During the evening remarks were made by Patrick McCann, James O'Sullivan and Edward Elletts.

The Buffaloes met

At a meeting of the Benevolent Order of Buffaloes, held Wednesday evening in Old Fellows temple, the following officers were elected to serve for the next six months: President, James E. Hughes; past president, William Penicarg; vice president, John R. McLean; chaplain, Edward Chubb; treasurer, William W. Murphy; secretary, J. E. Lyle; physician, Dr. Wesley Sawyer; marshal, Robert Dempsey; inner guard, Daniel F. Murray; outer guard, Frank A. Cressley; trustees, Jesse D. Crook, Edward Sheridan and Senator Henry J. Draper.

ALD. BROWN SUES D. A. LONG
Commissioner George H. Brown, through his attorney, Edward J. Tierney, has brought suit against Dennis A. Long in the sum of \$25,000, based on alleged libelous articles that have appeared in defendant's Sunday paper during the last 10 or 12 months. The writ is returnable the first Monday in March.

THEATRE VOYONS
"From Out of the Flood," a two-part Lubin, is today's feature. "When Brothers Go to War," is another very interesting drama. "Two Aristocratic Penitents," by the Vitaphone company, is a society drama, and will hold your attention during the progress of the play. The Pathe Weekly is always welcome. Miss Daggett will sing "Nights of Gladness."

AT DEATH'S DOOR TRUST REFORM

Duke and Duchess of Manchester Rescued From Death Hearings on Proposed Legislation Was Inaugurated Today

NEW ORLEANS, Jan. 30.—Frederick W. Vanderbilt's big yacht Warrior, with a party, including Mr. and Mrs. Vanderbilt, the Duke and Duchess of Manchester and Lord Falconer, went on the rocks near Savanilla, on the

WASHINGTON, Jan. 30.—Hearings on proposed trust legislation embracing President Wilson's recommendations for trust reform were inaugurated today by the house committee on interstate and foreign commerce.

While the committee had only the interstate trade commission bill before it in printed form, Chairman Adamson said information would be sought from the witnesses on general subjects, including the proposed railway securities bill and other phases of the trust question over which his committee will have jurisdiction.

Commissioner Davies of the bureau of corporations, Representative Clayton, chairman of the judiciary committee which will shortly hold hearings on the trust bills coming under its jurisdiction and Louis D. Brandeis of Boston had requested to be heard today.

Chairman Adamson explained that the draft of the trade commission bill was only tentative and that the committee would change its present form materially before it finally passed judgment.

Hundreds of letters from railroad representatives, business men and others interested in expressing a desire to be heard by the committee have been received and a long list of witnesses has been prepared.

Members of the committee said today it would be impossible to estimate the time the hearings will continue.

coast of Colombia, and was wrecked Mr. Vanderbilt and his party were taken off by boats from the United Fruit company's steamer Prutera and transferred to the Almirante of the same line and taken on their way to Colon, for which port the Warrior was bound. The Warrior left Charleston, S. C., late in December for a cruise to Cuba, Panama and along the South American coast, a favorite trip of Mr. Vanderbilt, he having gone over it in his old yacht the Conqueror, which he sold to the Duke of Manchester. The Warrior is known as one of the finest of yachts. She is of steel construction, 253 feet long, has twin screws and is equipped with wireless apparatus. She was built for Mr. Vanderbilt in Troon, Scotland, at a cost of \$500,000 in 1904.

ASSISTED SPORTSMAN

"That distinguished member of the hunting party always wants to shoot. He never cares to fish."

"Well," replied the guide, "you see we can get out into the woods and chase animals his way, so that he's almost sure to get something. But you can't do anything with a fish."—Washington Star.

1914 MODEL

Friend—I suppose this is even a more remarkable baby than the one you had last year.

Auto Friend—O, you bet he is! Far better model. Got a longer wheel base, a better pair of lamps and a very much louder horn.—Judge.

MY TIRED FEET ACHED FOR "TIZ"

Let your sore, swollen, sweaty feet spread out in a bath of "TIZ."

Just take off your shoes and then put those weary, shoe-crinkled, aching, burning, corn-plagued, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wiggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When your feet feel like lumps of lead—ah! tired out—just try "TIZ." Its grand—its glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "TIZ." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. Get a 25 cent box of "TIZ" at any drug or department store—don't wait! Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes 2 sizes smaller if you do it.

FIRE DESTROYED TANNERY REPORT ON MERRIMACK

Am. Hide & Leather Co. Plant at Woburn Wrecked by Fire—Nearby Factories Threatened

Waterway Board Would Dredge Channel in River From Lowell to Dam at Lawrence

WOBURN, Jan. 30.—Fire today destroyed the tannery of the American Hide & Leather Co. on Powle street, causing a loss of \$100,000. Several nearby leather factories and a number of dwellings were damaged. Ten families were forced to leave their homes hurriedly but no one was injured.

TWO LOWELL MEN

Sec'y Yarnell and Physical Director Wicke Attend Boston Meeting

Dr. D. E. Yarnell, general secretary, and Physical Director A. J. Wicke, both of the local Y. M. C. A., attended the joint conference of presidents, chairmen of physical department committees, general secretaries and physical directors of Young Men's Christian Associations of Massachusetts and Rhode Island, held at the Boston City club yesterday afternoon and evening. Over 100 men were present, representing nearly every city and large town in the two states.

The meeting which was held to increase the efficiency of the Y. M. C. A. workers was the one large and important gathering of association leaders in physical work on the 1913 calendar. At 2:30 o'clock a devotional service was conducted by Dr. George W. Tupper, immigrant secretary of the state committee. The next number on the program was an address by Fred L. Willis of Worcester on "What the General Secretary Has a Right to Expect from the Physical Director," and then John W. Waters of Cambridge spoke

on "What the Physical Director Has a Right to Expect from the General Secretary." Other speakers were Dr. Gen. L. Fisher and Ernest Heriman. At 5:30 o'clock a dinner was served, and the meeting was declared a great success.

BODY OF WOMAN FOUND

RECOVERED IN BOSTON HARBOR—VICTIM MAY BE MISS ARLIN OF COLEBROOK

BOSTON, Jan. 30.—The body of a young woman was found on the East Boston side of the harbor today. The identification was awaited with considerable interest as it was thought the victim might be Miss Eleanor Arlin of Colebrook, N. H., who has been missing for several days from her boarding place in Brookline. The body had been in the water less than 48 hours.

SALE OF WABASH R.R.

AT FORECLOSURE WAS AUTHORIZED TODAY BY UNITED STATES CIRCUIT JUDGE

ST. LOUIS, Jan. 30.—The sale of the Wabash railroad at foreclosure was authorized this afternoon by Elmer D. Adams, United States circuit judge.

The Merrimack valley waterway board has submitted its final report upon the development of the navigation of the Merrimack river. A part report was issued some time ago giving the approximate cost of the proposition and the final report, which is really the engineering report, goes into the matter in detail.

The engineers conclude that the river could be opened for navigation by providing a channel 18 feet deep at mean low water from the sea to Ward hill, about one mile above Haverhill, and by providing a depth of 18 feet by means of a channel and by building canals and locks from that point to Hunt's falls in Lowell. Assuming that the U. S. government will improve the river to the head of tide water at Ward hill, the board submits plans and estimates for a project that would mean the dredging of a channel in the river from a point near Lowell to the dam at Lawrence to give a depth of 18 feet below low water level of the pool formed by that dam; then a lock to pass vessels by the dam into another channel not less than 18 feet deep which would follow the river to a point just above Kimball's Island where it would enter the proposed Ward hill canal, a direct cut off around Mitchell's falls to the channel which, it is assumed, the government will provide in the tidal section of the river.

Just below Kimball's Island a movable dam would be constructed from a pool at the highest level possible without interfering with power developments at Lawrence, so as to reduce excavation.

It is proposed to make all river channels 200 feet wide and to give the Ward hill canal 100 feet. The 200 feet wide and 18 feet are the same as recommended for the improved channel from Ward hill to the sea. Both locks will be 350 feet usable length, 45 feet wide and 18 feet in depth.

The lock at Lawrence would have a normal lift of about 35 and would be

located on the north shore. The gates would be of the mitring girder type, built of steel, the upper one about 24 feet high and the lower gate about 59 feet.

It is proposed at Lawrence to excavate a channel below the dam to compensate for restrictions caused by the lock and to further improve conditions by removing the Broadway bridge and substituting a double deck structure on the site of the B. & M. R. R. bridge to serve for highway and railroad. This scheme affords the advantage of only one draw over the lock and also eliminates a dangerous grade crossing.

The studies also included a power plant to develop power for lock operations and to light canal and river channels. It would also furnish power to pump back over the dam in Lawrence any amount of water used in the lockages.

The estimated cost from Ward hill to Lowell is \$5,448,000; exclusive of land damages at Ward hill, and of bridge charges in Lawrence. This distance is about 16.3 miles.

SAMUEL B. CAPEN DEAD

CHAIRMAN OF BOARD OF TRUSTEES OF WELLESLEY COLLEGE DIED AT SHANGHAI, CHINA

BOSTON, Jan. 30.—The death at Shanghai, China, of Samuel B. Capen, chairman of the board of trustees of Wellesley college and president of the American board of commissioners for foreign missions, was announced in a cablegram received here today. Mr. Capen, who was making a tour of the board's missions in the Orient, was taken ill with pneumonia on Jan. 26 and died yesterday.

205 FINE WINTER OVERCOATS AND FANCY SUITS

Priced at \$20 and up to \$35, go into a three days'

Choice-of-the-House Sale

at \$15

Every Winter Overcoat that sold at \$20 and higher, and every fine fancy Suit goes into the Choice-of-the-House-Sale until Saturday night at one price—\$15.00.

The garments are mostly Stein-Blochs—and every one is of high character. You can't pick one worth less than \$20, and they'll average nearer \$35. Do you know where you can put \$15 to as good advantage?

Here's how they line up:—

138 Suits

Young Men's and Men's models—mostly fancies—a few blues.

THE CAESAR MISCH STORE

ALEXANDER STRAUSS, INC.

220 CENTRAL STREET

IN POLICE COURT

Matthew J. Davis was again brought up this morning before Judge Enright. Sept. Welch announced to the court that the Revere police have no record against Davis and that the young man's story yesterday was substantiated by the facts. The family of the pretended weight inspector is in destitute circumstances, the Revere police say. Davis was placed on probation, and left the court with tears welling from his eyes and protestations of a better life in the future upon his lips.

Although John Cassidy was in for nonsupport, his wife pleaded with the court this morning to give him another chance. The charge against Cassidy was nonsupport of his wife and family. He was released on a suspended sentence with six months at the house of correction ahead of him if he breaks out on another drinking bout.

Patrick Neale pleaded guilty to the charge of drunkenness and attempted to make a speech when his case was called. The officer who made the arrest said that a complaint had been made to him relative to the actions of the defendant in lower Belvidere. He was released after passing over \$6 to Clerk Tuohy.

Joseph Duprez was very drunk last night and landed at the police station. His wife took the witness stand this morning and informed the court that the defendant drank so heavily that he neglected his nine children, as well as his wife. He was given a suspended sentence of three months in jail and this suspension will be revoked if Duprez starts in drinking again.

The cases of Tadek Grondalski, alias Smith, and Carol Smith, charged with illicit exhalation, came up for trial today. Both defendants pleaded guilty and presented no defense.

State Officer Malloux testified that the defendants had been living together for several years as man and wife. Later defendants admitted that they were not married.

The woman was given a suspended sentence of four months in jail, the suspension to remain active for two weeks. If the woman does not leave for Poland before the expiration of the two weeks she will be committed.

Smith was sentenced to the house of correction for a term of six months.

DISCOVERED
Little question for today: In what English word are the combinations "k", "ee" and "oo" all found?—Boston Globe.

Our bookkeeper says that is too easy.—Franklin Journal-Transcript.

MR. OVIDE E. LEDOUX

WELL KNOWN HERE, TO EMBARK IN BUSINESS AT SHERBROOKE, QUEBEC

Mr. Ovide E. Ledoux of the firm of Pelletier & Ledoux in Merrimack street, has purchased a large business place in Sherbrooke, Que., and he will remove there with his family next week. He is to take possession of his new property on Feb. 2.

Mr. Ledoux has been in business in Lowell for the past twelve years. He was formerly in partnership with Fortunat Pelletier and both were conducting the Maple Leaf store in Merrimack street. A few years ago Mr. Pelletier sold his interests in the Merrimack street store to his brother, Ephrem Pelletier, and the business firm has been known since as Pelletier & Ledoux.

Mr. Fortunat Pelletier then removed to Montreal, Que., where he is now conducting a successful business. He is to retain his interests there and will also form a partnership with Mr. Ledoux in the Sherbrooke store. The Pelletier & Ledoux store in Merrimack street, this city, was gutted by fire a short time ago and that is why Mr. Ledoux decided to try his luck in the Dominion. Mr. Ephrem Pelletier with his son will continue the store in Merrimack street.

CARD OF THANKS
To our many kind friends, who through their assistance, spiritual and moral offerings and heartfelt sympathy, lessened in a measure, our sorrow in the loss of our dear daughter, Eveline Sauvageau, we wish to express our sincerest thanks and deep obligation.
(Signed)
Mr. and Mrs. Ernest Sauvageau and Family.

LEGAL NOTICES
COMMONWEALTH OF MASSACHUSETTS. State House, Boston, Jan. 23, 1914. The Committee on the Judiciary, interested in Senate Bills, Nos. 22 and 245, resolutions relative to the establishment of a Regional park in the city of Boston; House Bill No. 183, resolutions relative to the Frigate Constitution; Senate Bill No. 112, petition for an amendment of the Constitution of the United States so that the term of office of United States senators shall be two years instead of six years, at room No. 428 State House, on Wednesday, Feb. 4, at 10:30 a. m. Walter E. McLane, Chairman. Michael B. Kenney, Clerk of the Committee.

COMMONWEALTH OF MASSACHUSETTS. Middlesex, ss. Probate Court. To the heirs-at-law, next of kin, creditors and all other persons interested in the estate of Nathan D. Pratt, late of Lowell, in said County, deceased, Intestate.

Whereas a petition has been presented to said Court to grant a letter of administration on the estate of said deceased to Katherine S. Pratt, of said County, and said petition was heard and given a surety on her bond.

You are hereby cited to appear at a Probate Court to be held at Cambridge, said County, at said place, on the fourth day of February, A. D. 1914, at nine o'clock in the forenoon, to show cause if any you have, why the said cited estate should be granted.

And the petitioner is hereby directed to give public notice thereof, by publishing this citation once in each issue of the only newspaper published in Lowell, the said publication to be on one day, at least, before said Court, to-wit: on the first day of January, First Judge of said Court, this twenty-second day of January, in the year one thousand nine hundred and fourteen.

W. E. ROGERS, Register.

Under authority of Section 40, Chapter 699, of the Acts of 1908, I, Mary A. Collins of Lowell, Mass., as executor, give notice that I have made written application to the Lowell Institution for Savings, Lowell, Mass., for duplicate copies of the will of said deceased, to-wit: Mary A. Collins, and which said deposit books are lost or destroyed.

Lowell, Mass., Jan. 16, 1914.

TEXTILE SCHOOL WORK

THE LOWELL TEXTILE SCHOOL

Great Activity Among the Pupils and the Attendance Larger Than Ever Before—Examinations Being Held

The faculty and students of the Lowell Textile school are very busy these days, for this is the time of the semi-annual examinations, which are being held this week and which will not come to a close until the latter part of next week. Pupils of all departments are interested in these tests, for it means a lot in the advancement of the various courses. One of the busiest men, however, is President Charles James, who is kept constantly on the jump, going from one department to the other.

The attendance at the school this year is by far the highest ever attained and more students are filling their applications for admittance daily. The Lowell Textile school has a world wide reputation for the learned men it turns out and the present corps of students consists of young men from all parts of the states. One of the latest to seek admission was a young Greek from a little Rhode Island city, who called yesterday afternoon. The young man although but 22 years of age is a graduate of a high school in Rhode Island and has also attended college in New York. His parents are still in the old country, as he termed it. The day students now number 112, while the evening classes have between 600 and 700 young men.

There are various courses taught at the school and among them are the following which are known as "our courses," consisting of three years

study. Cotton manufacturing, weaved, manufacturing, designing, chemistry and dyeing and engineering. The degree courses, four years, are textile engineering, chemistry and dyeing. Speaking about the various courses Principal James said "It is our idea to make these thorough and so complete that a fellow after graduating, can step into any branch of the work," and as an example he cited many cases, where young men took up certain courses and are now employed in different kinds of work all combined. Some of the graduates have taken civil service examinations and some of them are now employed in the bureau of standards at Washington, D. C. with fairly high salaries, while others are employed by Uncle Sam in the custom house and other paying departments.

The first term of the year now being completed, the second term will be started in a couple of weeks, or on Feb. 3, and with it will be started the cotton finishing department, and for this purpose a part of the Colonial building was not used and filled up with machinery, the total cost of which is between \$12,000 and \$13,000. These machines are of the kind that will finish all kinds of cotton goods. A part of the building is occupied by the worsted department, another by chemistry and dyeing and the third part by the finishing department.

The new course of cotton finishing will be taken up only by students of the engineering classes, who number between 10 and 15, and the course will be given to the day students only. A portion of the day only will be devoted to this particular study and during the other hours the young men will be taught yarn manufacturing, weaving, designing, engineering, etc.

The engineering laboratory has also been enlarged and now it will include outside of the regular apparatus, electrical apparatus such as motors and generators and for this purpose double space in the basement of Kilham building has been added. A recent addition is also an electrical testing laboratory for all kinds of instruments, and also for taking electrical measurements of resistance and electrical motive force.

and current measurements, as well as photometric measurements of electric lights.

The students of the school have started ice hockey practice and in order to master the art of this winter sport the campus adjoining the school building was flooded and is now covered with a fine coating of ice. The strong team of the school was to have a match game with the second team of Harvard last Saturday at the stadium in Cambridge, but at the last minute the match was called off on account of the ice having thawed away. The match will be held as soon as the cold weather sets in.

L'UNION DE CHAMPLAIN

Observed the Tenth Anniversary of its Organization at C. M. A. C. Hall Last Night

The members of L'Union Samuel de Champlain, F. M. A. observed the tenth anniversary of the founding of their society last night, the affair being in the parish of St. Joseph's church. The observance being held at C. M. A. C. hall in Pawtucket street. The attendance was very large and all spent a pleasant evening. The proceeds of the evening which were very substantial will be donated to the pastor of St. Joseph's church for the reconstruction of St. Jean Baptiste church.

David A. Parthenais, president of union presided over the whist and musical program and at the close of the contest numerous valuable prizes were awarded the winners. Those who took part in the entertainment program were the following: Jolly club, J. L. Alfred, Paquette, George, La-branche, Miss Marie B. Chouinard, Miss Rose Desaulniers, Miss Emma St. Onge, Miss Antoinette Blain and others. The committee in charge of the affair was composed of the following members: Chairman, Alfred Lebel; secretary-treasurer, J. L. Tessier; Joseph Parent, J. H. Lippe, Francois Deschenes, Edmond Lambert, Camille Assotte, Yvelisse Poucher, Hippolyte Gauthier, Armand Champou and David Parthenais, ex-officio.

Sulpholac Reaches and aids in removing skin troubles

Of all skin troubles, doctors say 75 per cent are due to eczema in one form or another. For this distressing condition Sulpholac successfully prescribes Sulpholac.

This combination makes SULPHOLAC remarkably successful in treating skin afflictions. Even the most stubborn cases of eczema are quickly controlled. The painful, itching, burning sensation is dispelled and the skin is healed and restored to normal health.

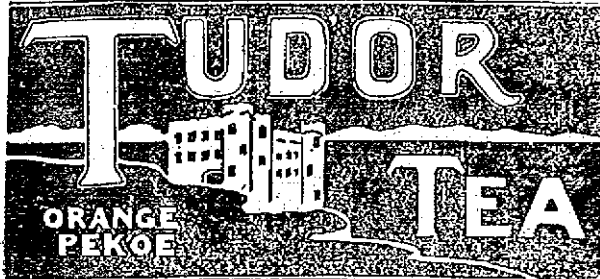

Sold by leading druggists, 50c for a four-ounce jar, with directions. For free sample write Hudson & Co., Inc., 143-151 West 58th street, New York.

HOW ABOUT THE DOMINIES?

The Rindge correspondent of the Keene Sentinel showed good news sense in writing these two items in succession:

The results of the severe cold spell are found in the frozen and bursted pipes in the barns and residences around town. The mercury fell to 20 degrees below zero.

The subject of sermon by Rev. Mr. Hilliard for next Sunday is "Hell," Concord Monitor.

Fragrant—Economical

More Packages of Tudor Tea sold in Boston than of any other brand

SCHOOL ESSAY CONTEST

Board of Trade Committee on Education Offers Prize For Best Essay on the Merrimack River

The board of trade committee on education held a meeting last yesterday afternoon and it was decided to have the annual essay contest for pupils of the grammar and parochial schools in the eighth and ninth grades terminate on March 20, and the subject this year will be "The Merrimack River."

The usual medals, a silver to the best essay offered in each of the schools and a gold one to the one among the winners which a competent corps of judges may pick out the best of all, will be given. The rules adopted are as follows:

Essays must not contain less than 300 words and not more than 500. Each essay must be written
